

Essence: Session 4 of 4

Good morning and welcome to essence and we're in class 3. It's gonna be an amazing day. You're gonna be blown away. We're working on on your integrating your high self and also divine connection. So please do sign in on the chat. Let me know who's here. If you've had any transformations this week. I know it's been a very powerful week for me and for my company, Cable Kennedy. We had a really amazing 4th of July event and so much love and presence; inspite of technical difficulties which we no more-- something more than just technical difficulties but really grateful for the love and support and excited to have such an amazing community.

So what we're gonna be doing now is going into the morning-- the beginning. Hey, Sophia. Love you. Good morning from Paul, and Greg, "Peace to all." Wonderful. Alright. So we're going to our PowerPoint and we'll begin the training.

So we're in class 4 of essence and class 4 again, your high self restoring your connection and connection with both your high self and the divine. Restoring your divine connection and integration of high self and the affirmation for this morning as I increase my ownership of soul, my life force grows and chronic health problems fade away and that was last week's. Forgive me folks. I put in something and I obviously didn't say that. So we've got the old affirmation in there. So let me just pop that out. And I apologize for that. There we go. So restoring divine connection. Let's go on to what is your nature-- what is is your essential nature which is high self and what is divine connection?

So when we think about spirit, spirit is mutable with an expansive nature. The part of spirit that has all the wisdom of every lifetime is 'high self' while the part of spirit that has come into the body as an infant has only bits and pieces of the entirety of wisdom gleaned from many incarnations. So understand that there is more to yourself and your spirit than what lives in your body. So discovering your essential nature and divine connection. You see your essential nature, which is your essence, the entirety of your spiritual knowledge and awareness, consist of high self and that is what we call our spirit which is actually about 8 percent of the collective knowledge from previous lifetimes in an incarnation and associated with our human body.

Our present experience is condensed, it's a condensed version of our full being and of course our full being has lifetimes and lifetimes of experience and often people don't have all full access to it and that's the benefit of restoring this really divine connection and connection with your high self. Now, sometimes we think about high self as a wise loving being but you'll also wanna be thinking about high self as the collective of everything you've worked. So if you've been a bad boy or a bad girl in other lives, you'll have all of that knowledge and information with your high self. And so the transformation, of course, is really to return to that god-state as legends talks about and

I love that idea that we're all part of the divine broken pieces like the big bang, you know. All of us broke into many pieces and we became individuated. So I love that concept, that idea, and that we are all enlighten masters but understand that the cumulative knowledge that needs to be integrated. And I'm gonna say that most of you or probably all of you on the call have had some pretty wonderful lives. Lives as, you know, teachers and healers and guides and your really looking to express yourself on a higher plane. To have fulfillment and to really step into your own enlighten mastery.

So a divine connection, which is little bit different than your essential nature, divine connection is the connection with source energy including the quantum pleasure field, which we connect in with every time we do class and every time you do one of my meditations; you're tapping into that quantum pleasure field. Now, you may have other ways to do it. I know for me when I go in take communion and experience the body and blood and the deep sense of union with the divine, I have that sense again of divine connection. You have your ways of connecting. It might be out in nature. It might be in church. It might be at home meditating. It might be chanting or praying. So each of you has your own ways of connecting with the divine. Today we're gonna work on opening that connection even more. And then the second part of divine connection is the connection which Supreme Being, other avatars, Buddha, Quan Yin, Jesus, Mary, Krishna, and all of the divine beings who bless and guide humanity. So Supreme Being often is thought of as the divine connection but we also wanna acknowledge that divine connection is connection with the quantum field which is all that is; the essence of everything.

Okay. I see a lot of comments coming in. Good morning from Mike. Nazlene, "Good Afternoon from London." and let's see. Sophia. I saw that one. "Hi from Baltimore." Hello, Lina. "Good morning from California.", Martha. Hi. You must be my neighbor, Martha. I'm also in California. Robin from Denver. "Good morning, Julie. Glad to be back with you and everyone.", Heather. Fantastic. Well welcome everyone to the call. Okay. Let's go on to-- Oh. We've jumped all the way down here. We jumped way ahead. One sec here. This is actually where we are next.

So high self and divine connection. Divine connection is the experience through the crown chakra at the top of the head as well as through the etheric body and spirit. This connection may cause tingles or goose bumps in the physical body. So probably all of you had that experience. So let me read that again. Divine connection is the experience through the crown chakra-- sorry. Is experienced through the crown chakra at the top of the head-- so that's where that divine connection typically is experienced through the crown chakra at the top of the head as well as through the etheric body and spirit. So understand that you have layers of body. You have an etheric body and you have your own-- the spirit that occupies your body. And then as you probably have felt many times, the connection may cause tingles or goose bumps in the physical body. I've also

had the sensation of like a hollow tube running through my entirety; the entire torso of my body. Like a hollow tube of light. I've had that sensation with my connection.

Have any of you had other experiences or feelings when you feel like you are making that divine connection? I'd love to hear what your experience is and have you know, what's the signal for you that you know that you're connecting with the divine? And then the second part of this week's experience downloads of our own high self directions, guidance from the center of the head. So now the crown itself but the center of the head. Meditation is a wonderful access point for gleaning your own wisdom and integrating high-- higher levels of knowledge and awareness from your spirit journey.

Okay. And we have a couple of questions of etheric body and your etheric body is not physical informed, it is the-- let's see. What's a good way to describe it? It contains your emotions and thought forms. I think, you know, if we were really describing the etheric body, we would call it perception. It's the body before spirit but it's primarily a field of thought forms, energy, and emotions. So I think that that's a very good description. And I'll add that here so it's a good-- Here we go. Now we have a definition that you'll have in your PowerPoint, you can print that out.

Okay. And Nina, "I think I only get goose bumps when I am cold." "How do I know divine connection and not something physical?" Divine connection typically only happens when you're really focusing on bringing in divine connection. If you're cold then that's not divine connection. That's funny. So that kind of that sweeping sense of the presence of the divine. A kind of an awareness. A sense of feeling on unlimited love or expansiveness. Those are also feelings and sensations that people have. I'd love to hear from some of you that have had the sensations when-- which doesn't mean that if you don't have sensations, you haven't had divine connection, but it would be nice to see how others of you really get that awareness that you are now connected with the divine.

The clearings for improving connection of high self, divine connection, and guidance from Supreme Being, avatars, and divine beings. So we're actually doing-- let's see. Three, at least three different activations here. High self, divine connection, and guidance from Supreme Being and Avatars. And we'll be looking at the field of amplification, perception, emotions, DNA, and bloodline. And you'll see how-- when we're working with spirit, how, in this case, it shows up a little differently. There's quite a few less clearings to do. What affects spirit and what affects physical body are a little bit different.

Heather, "Where is the etheric body located in the field? Is it layered close to the body?" The etheric body overlays the body. So it isn't located in the field, it's... it is definitely-- let's see. For you, I see it like extended about 6 inches beyond your body so it... it's your

whole body and 6 more inches of field and it's definitely really related to the physical body, the etheric body. So your etheric body will be part of, like, layered into your physical body and then it'll extend a little further than your physical body. It is not, however, the aura. So you might think, "Oh. Well if it's part of my physical body and extending out then it's my aura." but that's not the case. So and then when you do not have a body the information for the etheric body is stored in the spirit and it's unexpressed. So I think it integrates into the spirit but as we have a physical body, just like we form chakras, we form an etheric body.

Oh. Very good, Nancy. [Inaudible 00:14:49] all. Debb, "I often have tears spontaneously come when I connect intentionally to spirit." I agree. So do I. Yup. Debb. Tears of joy and gratitude. Beautiful. So there's another sensations that others have had. Debb and Nancy, Thank you for sharing.

Okay so we're gonna go next into the clearings. And with high self, we're gonna clear amplification and perception. With divine connection we have few more. So with high self, its Lucifer stops, cycles, repeating 'failure behaviors' lifetime after lifetime, timeline-time bomb; perception is black magic and atheist thought forms. So let's go ahead and start pumping. And then divine connection; we have in amplification, Lucifer stops, evil spirit curses, cycles and timeline; and then in perception, we have black magic, trauma, atheist thought forms, and then we need to clear bloodline. So you can see that there are a lot of things that weren't involved. The emotional body, emotional brain, the emotions are not involved in this. There's no DNA involved in today's clearings. Yeah. So you're gonna see these are clearings that are very specific to the spirit connecting with the divine. So that's what we're working on now. I find it really interesting as I tested what was involved and what wasn't involved. So this is interesting.

So let's go ahead everybody. Start pumping. We're gonna be doing the clearings. First of all, for the connection with high self and really being able to integrate more of the wisdom, the knowledge the experience of being connected with our own inner innate knowledge.

Okay and then I see some more comments here. You're welcome, Heather. And then Robin, "I feel it in my crown chakra as it tingles or sometimes in the connection above my neck." Yeah. Exactly, Robin. Sophia, "I feel like a sunray coming down on me. Peacefulness. However, since last week I feel-- I think that might be sadness and fear on my heart chakra. Can you remove that?" Yeah. You can just pump that. That's probably just a spiritual parasite, Sophia. And we're working on the-- these clearings now but as you're pumping, you can just have that intention. You're gonna amplify the field. Bee asks, "What are your cycles?" and cycles show up in amplification and be-- can be part of cycles in a number of different ways but they're kind of like timelines, timelines and cycles, and probably be asking, "What are timelines?". And so we have

this experience of really being part of-- there are things that loop around or are part of the cycle. Like a full moon cycle or a menstrual cycle or a depression cycle, like seasonal attention disorder that [Inaudible 00:18:07]. So you're aware of some cycles because they exist and they're acknowledge but there are also cycles that you are in, that are in the field of amplification, that perhaps stop you; that just keep resurfacing.

So those cycles or they just come up, you know, like you can be-- we're in a cycle right now in the Christian church of the outpouring spirit gifts, it's called Pentecost. So the church has a cycle and that cycle amplifies different stages of spirit expression. So I noticed that my body, since I was raised Christian and lived with Jesus when he was here, that my body really understand the outpouring spiritual gifts and I am getting downloads and information and awareness that is just pouring in right now, and I acknowledge that cycle and love that. So I put those on for almost 20 weeks. It just goes on for a really long time. And so there's a really like a place in the cycles of the church like the calendar of the church that support beautiful happenings.

There are also cycles that can be really difficult or challenging. The cycles that prevent you from really connecting with your high self, are kind of like, you know, I think about this like a dog chasing his tail. Never really getting to the tail, you know, just always chasing it or the Tasmanian devil's spinning around, it's a cartoon from my childhood. Just spinning around and spinning around but really not getting anywhere. It's just making a lot of dust. And so we wanna clear those cycles.

Timelines and we have timelines that are spiritual timelines and physical timelines. So you can imagine a timeline out in back of you and in front of you and they'll be little time bombs or seeds or things set up on your timeline that will go off and cause a problem and so we wanna remove those and they're found in the field of amplification, so cycles and timelines. And these are new, actually to everyone. I haven't really introduced this concept in this way even to my apprentices, who are on the call. So I'm really happy you're all getting the information.

And then the other thing that I noticed in the divine connection is repeating failure behaviors lifetime after lifetime, and we wanna remove that too because you actually, as a spirit, the 8 percent of you that's part of high self will kind of distance yourself from the problem energy but you'll also keep causing the problem over and over again. So we wanna clear that failure behavior so that you can connect with the wisdom of you. Even if you've had failures or you've had difficulties in past lives, those can be learnings. They could be, "Wow. I've gathered so much information about how everything works together." and that could add to your love and in your expansion and your presence.

Okay. Other things came in. Okay, Nina."So when we are clearing connection to avatars and divine beings, do you mean guides, angels, beings and etcetera?" Yeah. And we're

not actually clearing connections with them; we're clearing our ability to tap into whatever guidance we need. So we're not actually clearing out to like Archangel Michael or Krishna. We're actually clearing our ability to connecting with the divine wisdom. So you wouldn't be thinking about angels and guides and things, you'd actually be thinking about opening the divine connection. So that when you're ready and there is some information that's coming that is really the information you're calling for; you don't have a block to receiving it. "Love this and you, Julie Renee." Yay, Suzanne. Fantastic.

You know one of the things that I really love and you might notice it in *Your Divine Human Blueprint* is just really telling all and just explaining how everything works. Something that I had wished that my Lutheran church would have told me when I was a child. Something I wished the new age churches would've told me. How'd something work together? And I'm thrilled to give you this information and also to like clear things up so that you really can have your full expression and really experience divine connection in a powerful way and understand who you are.

Okay. So we've cleared the Lucifer stop. We've cleared cycles. We have not yet cleared the repeating failure patterns, so let's really pump a little firmer on this. Nazenne, "I don't believe in avatars and spiritual hierarchy. I believe we are all equal." Beautiful. Well let me explain what I'm referring to. There are people who you seek out that maybe have a little more wisdom or guidance. So these would be-- when we look at the people, the beings, I've listed those for people at one point and they've committed to helping humanity. So if you think about *David Hawkins' Power versus Force*, there'll be people at a vibration of 100, very low vibration. There'll be people at 500 unconditional love and there'll be people at 700 enlighten mastery. There'll be people at a thousand Christ consciousnesses. There'll be people even up to 2000 in our era. So understand that just by how more awake people are, they may have more access to information that they could share with you. And I do believe that we are all enlighten masters as I've mentioned and then there are things that interrupt us, so these kinds of clearings that we're doing.

What I saw with my apprentices is within 18 months their energy points, their-- these went up from like 400 to 600. Like the clearings that we do and hanging around to this incredible quantum pleasure field will help you really take leaps. Which means that you're having much more access to your own divinity and that's what we're really all about. We're about bringing you back to your enlightened awakened state and it's not like the absolute, like this is what we're going for. What I really want you to do is have fun in the journey. The more joy you experience, the more love you experience, the more feelings of being part of this divine world; the faster you accelerate your enlightened illumination experience. So I hope that helps.

Alright. And Nina, "This totally rocks, Julie Renee. I have already been intuitively including cycles and timelines in my private clearings. I'm so glad you explained the field of amplification and appreciate this fuller clearing." Very good. Yes. For those of you who are in the emerald program, we have really incredible class coming up on Saturday. So hang on to your hats because we're gonna blow them away, so. "How to participate in the apprentice program?" The apprentice program is the immersion program, Sophia. We have the online class-- I think you're Sophia, who's already come in to the diamond class. So the next level of that is the ruby. The ruby starts in January. And John, "Yay. Support for being quick of phone on webcast. I see certain images, symbols, when I'm divinely connected. I feel clarity, sight, and clear above head area." Oh. Fantastic. That's wonderful. Yes. I do remember in India when I was feeling divine connection; I would see symbols. So that is another way to experience divine connection. Fantastic.

So you'll all be getting an invitation to join the online class or the London class and if you're not quite ready to jump in, online class is August; London is September. I'll be doing a very small group in December for a week at my home, the diamond class. So I've decided to not do it on location in Arizona but to move it to my home. So We'll have just a small group of people. Students that have already come in to like the essence class will be invited to my home. Okay.

"Ruby. What date in January?" The ruby-- I don't know if we have that mapped out. The ruby level starts with Saturday classes and typically the retreat is in March. So it would be like a... like the second or third Saturday. It just depends on my schedule but it would be like a second or third Saturday for 3 hours. So we do... typically we do January, February as online retreats, 3-hour retreats, and then in March we'll do a 7-day retreat, and then we have, you know, so it's a 6-month training, so. Yeah. If you think about, you're gonna be starting January 1st with your materials and getting your first class in-- I don't have the calendar in front of me but, you know, in the first-- probably in the second or third weekend.

"After our spirit is in our body, will our body heal? What about sentence you removed before?" The sentence I've removed before is from last week's class. So it is in the PowerPoint from last week's class. And absolutely the-- as you own your body more and more, less other things on your body. I'm actually thinking about doing a class on really being able to own the body because what we're doing now is we're really strengthening every part of your spirit.

And when I test, body ownership is very low like across the board. How much the whole group-- so let's see. How many people are in the call this morning? One second here. There's... there's 32 people on the call this morning and the average ownership of body, 7 percent. 7 percent that you actually own your body and that that would be a

spectacular class is to get us to 100 percent ownership of body. This, I think, is also part-- a problem with the blueprint. I've been actually researching this in this week. So it's something that I'm very much-- I'm getting the information on what is going on with why we can't own the body. So I'm looking at doing a class on that too. Okay.

Okay. Hello, Mary. And John, "Enjoyed hearing about your time in India on your call last night." Oh thank you, John. I was on with John Vergas last night and he asked a lot of questions about India that I haven't been asked before. Mike, "I don't understand that." "Could you elaborate what you don't understand? There's a time delay. So I get this anywhere from 30 seconds to a minute after you type it. So if you could explain what you don't understand, that would be helpful.

"We had a fabulous one on Tuesday. Did not get the reply." Heather. Okay. Just contact trainings or support@juliereenee.com. We sent it out and for some reason, we see that we've sent it to you but you haven't opened it. So it's probably lost in there or somewhere. Yes. "Do a class on owning your body." Okay. "Yes. On the owning the body." "Yes on ownership right." Okay. You know what, you guys. Since you guys are very enthusiastic about this, I will create a class-- I'm on sabbatical for 2 weeks starting Tuesday next week. So when I come back, we'll land it in at this time. I just have to double check and see what's in the calendar but maybe we can do a 2-part class on body ownership. I think that'll be spectacular.

Oh. Thank you, Debb. Interview with John was terrific. Thank you. John's such a sweetheart and he's such a beacon of light. A really an example of a spiritual man making a difference in the world. You know, really bringing his passion, his heart to his community and I just honor and respect him. He's really, really, really a sweetheart.

After our-- Okay. So Mike, you send the question and, "After our spirit--" sorry the thing keeps. "After our spirit is in our body, will our body heal? What about the sentence you removed before?" Okay. So the question is, "Will our body heal after our spirit is in our body?" Yes and what I was explaining is most people don't own the body and so you can have your spirit in the body but there can be a lot of other things owning the body like spiritual parasites, like energies, like soul contracts, let's say your family's gonna own your body or just not you owning the body is what I'm saying. And when I said I see it partly a problem in the blueprint itself like we went in and cleared the blueprint on Tuesday, this is part of what I see is the problem is that we aren't really allowed to own your body. And so the spirit and the high self, even though we-- this is the body we're connected with, it's not like we powerfully own it. Like we're the one that directs what happens to it. So even like western medicine or-- 'cause, you know, that'll have control energy so you'll think, "I have to go to the doctor to resolve this." rather than, "I go inside myself and transform something or change or rearrange something." I hope that helps.

"Thank you for your work. Wanted to own my body 100 percent." Yay. "Sounds wonderful. Thank you, Julie Renee." Good. "I got the replay on the main page but I couldn't have the PowerPoint resent from Tuesday, please." Yes. "How long do you think to own your body-- how own your body be?" Oh. I see. How long-- I think you're asking me, how many hours would it take to own your body? It looks like it would be a 4 hour class and then how long like how far out in the distance? I'll see if I can create it within 2 to 3 weeks. Like I said, I'm taking the next 2 weeks off for just a sabbatical, some personal time, but I would be in touch with you this class, you guys, to let you know that I've created this class for you. Well also I'm gonna up to other people but I think it's a part of time once you've really restored spirit and you're spirit connection with body is to work on body ownership. I think that would be spectacular and really the-- probably the first step in working with matter 'cause this is working with essence. We work with perception. I think many of you have been in the 100 percent you apprentice training that we do the 3 part class which is the introduction to the being on apprentice and we teach you about the human blueprint. So we get a nice introduction for perception there. I think this would be a fantastic-- really step towards all health, all dynamic great health is for being able to own your body and really you be at charge.

Okay and then some more [Inaudible 00:35:39]. Okay. "How long do you think--" Okay. Okay. Good. So everybody's in aligning with that. Let's see how far we've gotten now. We've cleared repeating failure patterns. We've cleared timeline, the time bomb experience that I told you about. Something going off that prevents you from connecting with high self that's out in our future or in your past. And then perception, we have cleared black magic and we've cleared atheist thought forms. Great. Let's go to divine connection. Have we cleared anything here yet? No. So let's go ahead and get started on divine connection. I'm just gonna come back on the screen but understand we're gonna be clearing Lucifer stops, evil spirit curses, cycles, and timelines, and then black magic, trauma, atheist thoughts forms, and blood line. And I'm coming back here so you can see me. Yay. So, fantastic.

"Did you clear the spiritual parasite?" You did, Sophia. Good job. And then, "My birth was premature 2 months early. Weighed 2 pounds." Aah. So that's another thing. I mean we start owning our body and I occasionally work with pregnant moms. I used to work with pregnant moms all the time and we start owning our body really at the moment of birth. So if you think about the taking a breath in, that's when the spirit really is able to come into the body but we don't really own our body at a hundred percent. We don't have all mechanism to own our body. We can't take care of our body our self. So our mother takes care of us and we borrow or use some of her energetic body. So, you know, we really have this journey of trying to figure it out and then how many mothers own their body. I mean if this class, that's spiritually aware and aware and wanting the knowledge is only owning their body, 7 percent, and that's an average. So some of you

are less than. Just imagine, you know, what the general population is like. So this is-- this has to change. This is another one of those group mind things that has to change and I believe that while we're working on that project, so if we do a 4 part class if it's 4 hours of clearing then we'll be going into the blueprint again just like we did on Tuesday, and we'll be altering blueprints. So body ownership can be established at birth and it can be easier for everybody, who's already in a body now, to own a body 100 percent.

And you understand that there's a kind of a strength that comes from, you know, restoring spirit and really fortifying spirit, and that's what we're doing now, and divine connection. And there is a power with each thing we do, where you get to be in charge of your health and vitality, your wealth, your beauty, your love life, all of that. And really being able to access who you are in much more powerful ways. So really, really excited to be expanding and growing. And for those of you who have noticed that you have beings that come in and out of the body, that's part of owning your body.

To jump on to the August 11th seminar clearing on clearing spiritual parasites, and so it's parasites and pests. And parasites are evil spirits, entities, demons, trans-mortals. Pests are the eight types of aliens that jump on. They're not actually parasites but they're trouble makers and make mischief. So if you notice that that's an issue for you; jump on to that class. That's 7 hours in one day, we clear everything from your body, and it'll be the first time I'm doing it online. We definitely do a full day in the diamond class. I say people can be wild and woolly and we clean them up and they're so sweet and wonderful to work with. So taken out all those spiritual parasites.

There have been students that I've noticed that they'll have things pop in and it's a spiritual, you know, parasite but an agreement like a spirit saying, "Oh. And I think this. And I think that." and it'll be talking through a student and we clean and clear that up. So that it isn't that the student believes that is their thoughts anymore. We might want the connection but you also want your own authority in your body and once you realized that other beings are talking through to you, it's time to say, "Okay. Well let's talk to each other and no more using my mouth." So it's a process, you know.

Okay and I see some more comments here. Let me see here. "What's the difference between repeating behaviors lifetime after lifetime and the cycles we're clearing? Isn't that the same thing?" No. Not really. We talked about-- and that's why I put it on there. We talked about cycles, many things like the full moon coming around and a particular thing happening or in the church. I thought I spelled that out pretty clearly. Repeating patterns is-- yes. It's kind of like a cycle but no it's more like a program that's running in you that would prevent from really connecting with yourself. So we really identified that not as a cycle but as problem energy. So a little bit different. Cycles are things that are affecting you and this is also affecting you but it's something you're choosing to do. So

you're repeating it over and over again, meaning free will chooses to repeat the problem [Inaudible 00:42:17].

That's a good question though 'cause it does look a little bit similar but not exactly. Cycles, really when you think about cycle, it's something that you're involved with it. You have no choice. So I know or you think you have no choice until you take an active role in changing it.

For years, I would be awake the whole night with the full moon cycle. And probably in other lives in whatever tradition I was in, that would've been like ceremonial time, but in this life, it was just a pain in the whatever. No sleep for the full moon night every time. It was really disruptive to me. So I was able to unhook from that cycle and sleep through full moons. And that's wonderful and I don't think I was like wanting to repeat that pattern; I wasn't choosing to repeat that pattern. It just kept circling-- surfacing because I was part of that in another lifetime and, you know that was how we did ceremony or worship I'm sure. Okay.

"Can you talk about increasing our trust in our essence 100 percent?" Increasing our trust? Okay. That's an interesting question, Karen. I think the one thing that would probably really help is to know that you are different than perhaps the spirits, the beings, that are around your giving you affirmation. And when you really are working in that level of understanding that the essence of you is, you know, part of the the divine and that all of the information that you've collected from lifetime to lifetime is really precious whether it was negative or positive; it's precious. I think that that starts to allow you to deepen your feelings of appreciation for who you are and where you've been.

Understand that we are part of the divine. We all are part of this spark of God, of this pure essence, and then we came to explore and to understand and we went through difficult things and we maybe even experimented with what is like to harm people or what's it like to love people, what is it like to really suffer at the hands of people and be a slave or be a king, all of that is part of the opportunity we have here on the planet Earth and in this incarnation. So all of that information is amazing. A lot of your information or perhaps all of it is stored in the Kasha records but understand that your high self has all of the details of everything. How everything worked and by your-- taking this path of love wisdom and really going deeper in who am I and what does this mean to me and how can I contribute to humanity based on all of the things I've learned. You can filled with appreciate for whatever your journey has been because if you were an oppressor, you are now going to understand about loving people in a profound way and you're gonna be so fervent and passionate about helping people to step up into your power and you're gonna how to step into the power. So just turn this off so it doesn't make any more new beeps. So I think if you hadn't be filled with appreciation for your journey, appreciation then begins to allow trust to come. I get a yes on that. And then just

sending love and appreciation to yourself. I think the part of you that you don't trust isn't actually you. I think its spiritual parasites. So you wanna be thinking about what-- is this my true connection with myself or is this something other than me? And you can muscle test, is this me? Is this not me? And you'll get a definite and a direct answer.

Wonderful question. I hope that helps. You can also pump on trust but understand that what you're really looking at also I think is being able to discern. What is you? What is your real information? What is loving? If you-- we talked about the context for being of being unconditional love. I don't know if it was in this class or another class but it was recent when I talked about it. Like our context for being of being suffering or being, you know, so that are we get through everything, you know we made it/we survived it or it could be the context for you being could be unconditional love, and if you measured everything guessed is this unconditionally loving, then you would have a measure on maybe if I say I'm unconditional love and that's what I'm wearing, that's the hat I'm wearing now is, you know, enlighten mastery and unconditional love or love wisdom then I'll measure everything that come to me, "Is this love wisdom? Is this information that is being filtered through unconditional love? Or is this going through some lower channel?" Because you don't wanna actually process lower channels; you want that divine information to actually be, you know, filtered from unconditional love. So good, good, good question. Fantastic.

Okay. Let's go back and see where we're at on the PowerPoint on our clearings. So let's go ahead and take a look on that. One sec. There we go. Okay. So we've cleared Lucifer stops, evil spirit curses, cycles; we're at timelines right now.

Very good. So let's see. Oh. Timeline just cleared. Okay. So we're on to black magic. Let's go ahead and just starting to feel some really hard opening.

You know, I'm really excited to be working with you, folks. I feel like you're the cream of the crop that I really love to work with you over the course of the year because I think we can take you to where you really want to be. I just feel like this is-- you guys are such an amazing group and there's such an incredible space for transformation here. I've never on a phone call on a tele-seminar, whatever. I've never gone into the blueprint and transformed something but really feeling very confident with you guys. There's just such a love and a high vibration set in this group that we really can make magic happen and I just love and appreciate you guys.

Yeah. Let's all meet in London, that's a great idea. I would really, really love to work with you guys in person. I mean the online class is so wonderful but it's so nice to get to know you. Lucy's thinking about London. I know Suzanne is already going and I think Nina is already going. Who else is thinking about London? Thank you, Nancy. That's so sweet. I love and appreciate you too. Really. Okay.

Okay. We're through with trauma, atheist thought forms, and yay, we nailed bloodline. That went quick. We just something to-- okay. So we're through that. So let's move on to our next slide, next step. You've just began to work deeply in the quantum field and human blueprint. You're building momentum for transformation and growth.

By the way, Thank you, Nazlene. I'm feeling very strongly to do a free 1-hour clearing for people who wanna bring in the fun for attending the diamond class. So I will let you know; I'll let all of you know when that one hour clearing will be and it's very specifically on clearing up the obstacles for getting into the training. John, "London would be amazing." Yay. Okay,so. "Having hotel and saving money. Conversations." That's fantastic. If there's a will, there's a way. Things will work out.

So next steps for you, you'll be give it-- you'll have access to all of the PowerPoints and the videos. We also are having everything transcribed, so if that's helpful to you. In about a week, we'll have that all up on the page where we have the PowerPoint, the video, and the transcription up for you, guys. So you'll have this class indefinitely. You'll be invited back into this class once you've come through the class, once it's a significantly reduced rate; love to have you come through again. It's always changing and growing and morphing, so understand that we, based on questions that are asked, we have a different class every time. Covering the same things but in a different way. Recommending the diamond immersion program for most of you. The VIP mentoring program for those of you wanna work personally with me. If you don't have *Your Divine Human Blueprint* in print, the book; I encourage you to get it. Yes we are coming out with the second edition that has indexing but please do get that book because it has all-- it has like a thousand stories, it has protocols, and it's big, big book full of amazing information, 558 pages, that really are gonna transform your life. The 100 percent you course and book, and that's coming up again really soon. If you didn't get into the 100 percent you course, it's very inexpensive course It teaches perception, the overall blueprint, and the quantum healing secrets right now is the program for teaching and an introduction program to the body. So if you're wanting to get an intro program to the body; quantum healing secrets is really the way to go.

Okay. I'd like to come back on the screen now that we've covered everything we need to. If there's anything you need from me or my team, just let us know. We love you and we want to help you get all of your information and get into the trainings that are gonna work for you, so. Wow. There's a lot of light in the room, isn't there? So please do join us in any way you can and ask us for help. I respond to every email I get as you know 'cause I know some of you send me emails, "why don't you wanna respond it?" We do customer service too. If there's a tech issue, it should go to support@juliereenee.com, but if you wanna ask me a question, I'm here for you.

Alright. Let's go ahead and do a little completion. I see a bunch of notes coming in. Let's see. "I'd like to assist her. Paid at the diamond", Sophia. Great. "Yes. Do clearings for obstacles to joining the diamond class." I will let you know. Within 2 weeks we will. Once I'm back from my sabbatical, we'll put on right away. We'll do an hour clearing on clearing the obstacles to getting into the training. Honestly, I think you guys are more sensitive than most. You can see that we've up against kind of unusual powers with the technology and yet we ever so stop with what we're doing at all and I think doing some really big clearings can help remove some of the obstacles that people are facing getting into the programs. "Yes. I'm ready to get in." Yay, Debb. "Yes. Me too.", Heather. Yay. "I'm in the online class for August. Anyone else here doing that one?" Fantastic, Debb. We've got a bunch of people signing up, so it's looking like a beautiful class. I mean, it's our first time teaching the online class so we'll see how it goes; it should be wonderful. Nancy, "Been invest-- best investment with the books." Fantastic. I'm so glad you liked them. "Would love to attend diamond again in London. Will think about it.", Lina, great. "Thanks, Julie. Love, love you. xoxo." Debb.

Okay. So I got your messages. There are videos that will play, so if you wanna watch introductions, the diamond class and some of the other videos will be playing afterwards. I'll stay in the chat box and answer questions. If you're asking me something, I'll be watching for about 10 minutes and how I'd like to end this class is with the self love and trust; what I call, mudras, but they're actually taking some action. You could think about it as action and affirmation.

So rubbing your hands together in front of your heart chakra. Creating to spiritual energy, some heat. And then when your hands or your palms are warmed up, put your right hand over your heart chakra and your left hand over your right hand in a universal mudra of self love and self affinity. Affirm to yourself, "I love myself and my spirit. I trust myself and my essential nature. And I have permission now to express my unique self." and breathing in and out through the nose and energizing this new love, trust, and appreciation for who you are. You are amazing. I love you. I believe in you. I believe in your capacity to heal. Come join me in the next classes and I'll see on and keep interacting with you. Lots of love everybody. Bah-Bye for now.
