

## **Quantum Clearing - The Complete Guide Part 2 of 4 Transcript**

Good morning. God afternoon. Good evening. Hi everyone and welcome back to 100% Clearer. It's wonderful to be back with you today; the second day in a row. This is kind of the feeling we get with the online program, when we do the 7 hours day after day. It's kind of fun to see each other every day and really be immersed in the program. I hope some of you are considering coming into the Diamond program. I mentioned yesterday there's just 6 spots left for the immersion program at my home which is coming up in December and we'll have an online Diamond immersion again in January or February. We still are looking at which dates to put it into. I'll let you know before this program completes when we'll be doing the online program.

So welcome to the call and I'll bet you're full of breakthroughs and awareness and aha's. Please do sign in and say hello. We have lots to cover today. And not to worry, I know some of you are like 'Oh...' if we don't cover everything that was designated in this class. The emotions class is only going to take us about 30 minutes, so we can run over a little bit on some days and make it up when we get to the emotions class.

Alright, well I see so many people signing in. Yay! As of just a minute or so ago, we had 67 students in the class; so I want to welcome all of you and those of you who opted in yesterday, just welcome so much to the class. It's so great to have you here. This is a foundational class for all the other class so you'll be really, really glad that you're here and that you've gotten this profound information.

Maryann, Angela, Jolene, Nazeen, Haruko, Jen, CK, Susan, Cindy, Dawn, Nadia, Johanna, Janet, Joyce, Grace, Ramana, Nina, Sue, Heather and Kilt. Welcome so much to all of you and I know we have people on the phone and lots of people who won't sign in on the chat box but I really, really do appreciate your comments and really look to see where the questions are, if I missed anything, so I do look at the chat box. Obviously, you know I interact with you. So if you're one of those stealth listeners, please know that I am very open to seeing your questions and I do respond.

Alright my dear, we're going to jump right in and this is the 100% Clearer class. Just like on the plane, if you were meaning to be in the plane going to Dallas, this is the one going to Carmel Valley so you'll want to get off of this plane and on to the next one. Anyway, I'm being silly. I know that you all are really excited about being here. It's wonderful to have you. Oh, I see some more people have signed in. Janice, Tammy, Sharon, Robin, Dawnn and Lauren. We won't take questions quite yet because we need to jump in Don but let's see. "Tested and found another dog is Marvin and the third ghost. My Aura is my father," Oh, let's see. I'll just double check on that for you. You are

correct. Good job Dawn. Okay, we will be taking questions through the call though but I just wanted to get us started on the training.

To just review really quickly what we went over yesterday, we are in the 100% Clear Quantum Activations Program and we're understanding the 4 parts of clearing: amplification, which we covered for the most part yesterday. Perception, we'll be doing today. Emotions, DNA and bloodline are covered in this class. In amplification, Lucifer stops, soul contracts, demonic evil spirit curses, satanic curses, satanic or dark energy, ghost either dead or in a body but occupying you, cycles, timelines and Karma. So that's in amplification and remember, Lucifer stops, we'll just quickly stroll through this ad just take a minute to review. These are things that are affecting the blueprint and I went in with a group of students supporting me, I went into the blueprint and removed the Lucifer stop itself. It was kind of programmed into you. It's pretty easy to remove your Lucifer stops. You just are doing the quantum pump and we'll review the quantum pump and muscle testing in just a minute.

How you would know that you have a Lucifer stop is first of all, you could test. Its specifically at something that doesn't shift or move for you. Remember, it's something that is stuck. You've done all the clearings; you've done all the healings you can think of and you're still stuck in the place where you started from. You're like, gosh this works for everybody else, why doesn't it work for me? That would be very likely a Lucifer stop preventing you from going forward. So a difficult problem that seems incurable or has no solution, you test and clear it but you don't see any real results. That's another way that Lucifer stop shows up. And then there's an unconscious knowing that you can't improve the situation and it may have come from lifetimes of feeling like you've tried to improve it and it doesn't improve. That is the Lucifer stops.

We're going to go through this really quickly. Satanic energy and that's literally what that is. Dark energy in the body typically or in a field affecting your wealth, your emotions, your love life. Soul contracts yours and of others. Soul contracts are with Satan. They seem to be set up or put on you. It doesn't really seem like you're signed up for all these soul contracts so understand that all humans right now are in the situation where they experience soul contracts. As we create a new group mind and are really clearing away the soul contracts and the negative soul contracts of others affecting you, as we get to a certain tipping point, we're going to change the field and that is not going to be the case anymore. But it may take some time, so we want to remove those soul contracts. And if you're testing for it, if you're muscle testing, you're going to look for millions or billions. It is amplified. So this is one of those that is kind of the law of attraction field where in the field of amplification, it can ripple out. So you have one soul contract that ends up being

billions or millions. And sometimes it's amplified by your activities like watching violent movies or participating in things that aren't particularly high energy.

Curses. Demonic, satanic, or evil spirit curses. Demonic curses are just that; they are demonic. Typically all curses are put on you from people, so people are accessing the demonic realm and the satanic realm. Evil spirit curses, we had some comments yesterday come in about a group of African healers who have the ability to put curses on you and things like that, and that's exactly what we're talking about here. We're talking about the complex curses. Evil spirit curses are the complex curses that people put on you that would be involving chicken egg, and a feather, and an eye of nude, and a frog's leg and whatever – that complex kind of course, that's where those comes in. And all these can be removed, of course.

So we just have identified where we find them. And then I had put a couple of the Mantras, 'The Sound of Truth' if you want to pick that up. We've talked about the Mantras really making the activations go faster. There's 16 hours of Mantra recorded in the sound studio, so if that's of interest to you, 'The Sound of Truth' is on the Website, under programs.

Ghosts either dead or in the body but not occupying you. Let's see, so ghosts that are either dead or they have a body, but they're occupying you also. That would be someone who's throwing a lot of control energy at you. Sometimes an overbearing boss will get in your space and either in your field or your body, so that would be something where we look at, and a lot of times it's people who passed away and aren't ready to move on to the other side. They jump into your body. A lot of times, widows have their husbands in their body. Or as we discovered, a dog, a dog's spirit in the body not wanting to leave the person and so they jump into the body. Those can all be cleared again with the quantum pump. That's what we went through yesterday.

And we are on now cycles and timelines in amplification. You're going to look at something that's repetitive as a cycle and that would be something that comes around. For example a cycle might be something as simple as a full moon cycle. So perhaps past life you did full moon ceremony and so you're always attuned to what's happening with the moon cycle and you're wide awake when the moon is full. I know that was a problem with me and I was able to break that full moon cycle, so I sleep deeply during the full moon. Although we have transits and situations where we go through where we plug back in to that old cycle, but there may be other kind of cycles that affect you. Relationship cycles where you seem to be on a wheel or doesn't ever seem to really resolve. Those are things that we are looking to clear.

Timeline are a little bit different in that timelines, you look at maybe from the heart or from your experience and so a timeline is something that goes behind you and goes out in front of you to infinity or to the end of the body. You can see that from a past life, you might have something that in a past life, maybe at 24 you were strangled or hung or something like that and so there's something about your neck that in this life at age 24 gets triggered and something goes wrong with your neck, like you have thyroid cancer or throat cancer or something like that. Or it could be exactly the same thing, but timelines tend to cycle and there are time bombs. Traumatic episodes if left unresolved will keep coming up to resolve. And so those would be time bombs on your timeline. It's a new concept for most of I'm sure, but if you can imagine a timeline stretching out and then there are things that are set up that have happened in other lives or set up to kind of explode, so you have a chance if you didn't resolve it in the past life to resolve it in this life.

How you clear timelines is that you would literally just look at anything in that topic, anything that's set to go off in for example business failure or health failure. We typically do this, you can test for it, so let's see, I could look at health failure on my timeline and see. Let's see, are there any health failures on my timeline? There might not be because I probably cleared most of them off. Are there any health time bombs on my timeline that are sent to go off that would threaten my life? I got no. Are there any time bombs on my timeline that would cause a serious health problem at some point in the future? Yes, one, two. So there are two. *[Laughs]* You guys are going to laugh. At age 400, there are two things that are going to threaten my life. Okay, but you get the idea. I'M laughing because I've been really clearing and working on having nothing negative affect my health and also clearing toxicity, so I was just curious and that is hysterical. So I have something in 400 years, I better clear that off if I want to live 700 years, right?

This is a perfect time for me to tap in here. Pick something or think about something that might be a timeline issue. Something that seems to have either gone off or you're concerned about and honestly, it's less available when you're just starting out, but you're going to be able to start recognizing, oh this is a timeline. This went off because of something from a past life. We also look at past life and perception. That's another way that we get to it. This is in amplification where it just repeats, like a cycle repeats and a timeline repeats lifetime after lifetime. So that's why we have it n amplification but we also have it in perception.

Okay, let's see. A whole bunch of comments came in. Let me just scroll down a little bit here. There we go. Robin, Dawn, Lauren, Denise, Marie in Netherlands. How wonderful! It's very sunny here by the way too. I'm in Carmel in California on the Monterey peninsula, if you're wondering where that is. It's kind of in the middle of California on the

coast. I'm 13 miles from the ocean, on the top of the mountain. It's been surprisingly summer weather here. We've been having 80's and very warm weather every day with brilliant sun. We're looking forward to the brain. We had some fires about two weeks. There were fires pretty close to my house, but they're not coming to visit me.

That's fantastic Cindy and I'm so happy to hear that. This stuff does really, really work. Dawn, you're welcome. And Suzanne and Mary. "Practiced last night. Vibration went up like a rocket." Fantastic! "A few minutes late. I apologize." No problem. "How are demonic and satanic curses different?" It's simple, Satan or Satanic energy is a very specific energy. It's the energy of Satan. And demonic are the lower part of – there's an angelic and demonic realm, so it's demons so that's a different kind of a curse because it's related to demons rather than Satan, but they're all nasty. That's it. And then it's really interesting, so if you're in the class and you don't have any background of Christian myths which comes from something, so even if you're not Christian, you have to understand that all legends from all religions comes from somewhere, right? And so there's a truth to everything that we're examining or we're looking at it. I just put up a blog article, I'll send you guys a link to it – it's not long – on spiritual parasites and I put quotes from different religions about clearing demons or clearing entities or spirits and in all religions, they address it, so it's good.

Okay, Mary Sanders, Patrice, and Patrice, and Denny, and Janet. Ramana, "Please tell about clearing others." We're not going to do clearing others today just because we want to get through it all, but you will pick it up because you'll muscle test for yourself or you'll muscle test for others. "If permission is granted, can we clear for our loved ones?" Definitely. Everything that I teach you, you can apply to people you love, if you have permission. "Last night I was very tired. Something going on there." That could be really shifting. If you're moving those ghosts out Dawn, that may really be changing your energy vibration. So what I'd really recommend for you is to use a longer meditation like dynamism where you regain your power and your body, your energy body and yourself. And that was something that we were working out with a lot of people on the call is clearing out a few ghosts that were hanging out inside them.

Sylvia, "I missed class yesterday." Well, I just recommend Sylvia that you take time today to review the video training and start working on it and I think you're going to feel good in this class. Nadia, "I felt different parts of my neck and head hurting and stressing while clearing. I think I have a lot more to do." Yes, most of us do. Alright my guys, my beloved friends and students, thank you so much.

Let's get back here. So cycles and timelines, we've covered. We're going to go next into Karma. I really want to get you very clear on how Karma – because people use the

word so casually. When we're clearing Karma, we use a golden ring and we're going to imagine only half of it existing. So we're going to have half of it non-existing and half of it existing. We're going to pump it until it completes itself and we're going to imagine that this ring is going to be completing Karma with someone.

I want to take you quickly through Karma clearing steps. Okay, so when we do Karma clearing steps -- let's just add another slide here so we can get all the content in. There you go. Step one in Karma clearing is an energy exchange. You're going to remove your energy from the person and their energy from the body. You're probably wondering, well what does that exactly mean and how in the world am I going to do that? Okay so Karma clearing, we create Karma which are things that are unresolved with people and then we come back lifetime after lifetime to resolve them. The benefit of Karma clearing is that you can clear your Karma so that you don't have to do another lifetime with a person who maybe wasn't that pleasant to be with in this lifetime. So if you had a bad marriage or your relationship with your mother and father wasn't great, these are opportunities where you can clear the Karma and not come back on a Karmic wheel, so to speak and have to cycle through and cycle through and cycle through.

Let's go ahead and think about the first thing we do which is putting out a rose in front of you. So a rose for you which would be a pink rose and then a rose for them which should be possibly a blue rose. You just want to be different so you know which one is which. On the pink rose, you're going to have the energy – so this is for you. It's a magnet rose, so a pink magnet rose in front of you and you're going to pull your energy out of their body. Say I have energy in one of my tech people's bodies, so I'm going to have all my energy come back to me in this magnet rose. So that's the magnet rose 1 and then the magnet rose 2 over here is their energy in my body. Sometimes that happens. If somebody gets upset with you and I had a little confrontation with somebody about something on the Website, my tech person, and his energy came into my field and so I would want to have that magnet rose pull all of his energy out of my field. And so that's exactly what I did at 2 in the morning. And you know it is life. Life happens. You have something that you are passionate about or you care about and people see things differently and you might have a confrontation. It's a beautiful, wonderful world and even loving beings have moments where things don't work out the way you want them to, so it's good to just clear.

So all that energy now is leaving my body and my field from that person and all of my energy is coming back to me from that person. So now you have these two roses and they're filled and then you're going to take your rose and your energy and put it back into your heart and just take all your energy back. And by bringing it through the rose as opposed to using your body as a magnet, you've filtered it because the rose is a symbol

of perfection and purity and so it has been purified through the rose and you could just pull out the rose with your energy back in your body. And then you can also, if you're doing visualization, you can imagine handing the rose back to the person. You can send that rose back to the person. They can do whatever they want with it. You don't have to put it in their body. They can use it or not use it. Sometimes surprisingly, what I've seen is people will say, I don't want my energy back and I'm like, okay. You think we all need our energy but it just doesn't get to stay in my space any longer. So that's the first step of Karma clearing.

Now the step 2 of Karma clearing is the ending of contracts or excuse me, is the removal of cords. By the way, I teach this in very great detail in February. But the love class really, really goes into detail about Karma clearing and we do want to get on to perception today too. I see a ton of questions, so let me get through this and then I will come and answer some questions. Let's see, so removal of cords which we want to pull out any cords in our body and you just want to get the cords out past the edge of your Aura, so that they don't come back in. You don't have to remove them from the other person's body. You remove cords and then you remove contracts and agreements and finally, you'll clear Karma. Okay, so how you remove contracts and agreements, well how do I know do I have contracts? Contracts are typically things that are written and so there you would look for, did I have a marriage license, did we buy a house or a car together. That would be contracts. Agreements are things that you've said like, on our 80<sup>th</sup> wedding anniversary, we're going to go around the world, we're going to take a world trip or something like that. So 80<sup>th</sup> wedding anniversary, meaning you're living 150 years and you're getting married at age 75 to the love of your life. *[Laughs]* So you would test for that. Do I have any contracts or do I have agreements with this person, by muscle testing. So that would be the next step. And cord removal is very simple; you're just literally pulling out the cords. You're testing, do I have any cords in my body from this person. You're muscle testing and then you're pulling them out, like you're pulling out an electric cord from a wall.

Okay and then Karma clearing, the actual Karma clearing is imagining a golden ring and it's only half. So that ring is half of a ring, the top half of a ring and then you're filling in the bottom half of the ring and you can just pump for that. So here we go, we're going to do the pumping for ending Karma and it will fill the ring in. And once the ring is filled in completely, so you now have a full ring, we have that image of the full ring, then you drop that into a beautiful white rose and then you just blow up the rose which is using little cartoon bombs. Sometimes people want to know, what is a cartoon bomb? It's like something that -- oops, did I touch the wrong thing? I hope not. Are we live? Okay, good. Screen share isn't seemingly working right at the moment. There we go. There we go. Okay, so this wrong when you filled it in, when you pumped it up and you had

gotten it filled in to 100%, then imagine a little white rose underneath the ring, drop the golden rose into the white rose. White rose represents purity and it also represents the end of something. In India, white is the color that you wear after your beloved dies. It's the completion color. It's the purity. So you drop the golden ring into the white rose and then a little cartoon to just explode it, blow it up, just dissipate it, just make it disappear. And so that's how we do the Karma clearing.

Okay, I see a ton of questions have come in so I will answer some of those. Let's see here. Cindy said, "I'm clearing on finances and tested yes that is also on the timeline elated but also tested as cycle could be the cause." Cindy, they'll be multiple issues so you're testing correctly. There will be timeline and cycle issues. Danny, "If I have unclear results from muscle testing, can I use the pendulum instead, alongside with muscle testing?" I would prefer that you not but if that's how you can get information for awhile, it's okay. The pendulum can be affected by spirits around you. They can get it moving different directions, so I'm very cautious with the pendulum. Okay and, "Got something attached to my head from above and things get in from my hip, center of my heart also. I cannot love the minute. I feel happy and love comes and they plug into me like a curse." Sylvia, that would be something that you would actually go through each one of these things that we're doing in the class and you would clear each one of these things. So you can test already because we're going through amplification and perception so you already have a good start to testing what is going on with that. Why is it that I can't experience relaxed love? Janet, "I'm sure this is for advanced students but when someone's energy is subtle, how do you personally know if their energy is in your field? Thank you." No, actually you can just muscle test, is there energy in my field. It goes unnoticed unless they're upset with you typically but you can just test using Kinesiology.

And then Nina, "We give the blue rose back, right?" That is correct. Janet, "Yay! I just got my first real muscle testing from a contract question. Cool! Thanks." Fantastic! Flora, "Did we do contracts and agreements? How do you do that part?" We did do contracts and agreements just quickly. This is not a main part of our clearing today. Like I said, I'll be teaching this more deeply but again contracts are things in writing. Agreements are verbal. You would muscle test for them and then you could clear them with the quantum pump. Okay, "If we clear ghosts like my mom has 15 years ago, I love asking her to help me whether to find something or just guidance, if I remove the ghost, will the connection be gone? Is my mom in my Aura or in my physical self?" You know Lauren, I would recommend a shift and that would be that your mom can live in the heavenly realms and when you call out to her, she can hear you and you can interact with her, without her coming into either your body or your Aura. So it's just like having a conversation with a friend, that can actually happen and so it's just a shift.

Sylvia, "I tried so many things during 15 years and nothing heals. I was doing better but now I am pretty bad again. I don't have a lot more money so it's a big sacrifice for me and I'm so eager to get better. Please help me. Thanks!" Sylvia, that would be when I read that, it's Lucifer stops, so you want to be working on Lucifer stops. Jolene, "Contracts could also be vows of poverty in this lifetime?" Exactly. Yes, it could be vows of poverty that could show up and in contracts. However what we're looking at here when we're looking at Karma, typically we're looking at an agreement with another person but you could have agreements with yourself, you could have Karma with yourself that you also want to clear which is a very good point. So yes, if you've taken vows of poverty. It's funny, the closest church to my house and I live way, way out in the country is a Catholic Church. I wasn't raised Catholic but I'm attending a Catholic Church because I love the community and I live out in the country so it's good to have some regular routines. But one of the things I noticed is that it's very steeped in the religious and scripture that is read is a life of poverty, a life of poverty, a life of poverty and I think, wow there's a lot of group mind around poverty in the Catholic church or at least in the country church that I have attend. So I always have to kind of say, yeah but not me. I think that we were put in the Garden of Eden and we're meant to live in the Garden of Eden not selfishly but self –fulfilling in joy and contribution because when we're filled, when we have enough, we're able to give to others and to share with others our best self. So I believe that wealth and abundance are part of our birthright and part of that divine path that we all are on.

So let's go into the next slide and I'll take some more questions a little bit. We've gone through Karma clearing. The next area we're going into now is perception and we'll be doing group mind, group mind virus, curses, black magic, Atheist thought forms, etheric body, cycles, timelines, trauma from this life or past lives. And it's really easy to think about group mind when we think about a Hitler kind of person really hypnotizing the masses and getting them to believe something that just had no basis in reality, just a terrible group mind. But group mind is very, very prevalent and you're going to find it in just every aspect of your life and so you always want to be testing, is group mind influencing me, your churches, your organizations, your countries, your corporation that you work for or did work for, your family – all of these have group mind experiences. So how you would test for a group mind or group mind virus which are group mind is a meme and a group mind virus is a miasm. How you would test, you would just muscle test are there group mind? Am I experiencing a meme around poverty? There's a yes. And then, am I experiencing a miasm, a group mind virus around poverty? And for me there's no but probably under the influence of the church stuff, no. Its something else. Interesting.

So one, two, three, four. Not likable, not lovable, women can't have money. I clear these a lot and it's funny because it gets put back into my field that women can't be widely successful, women can't have power and that people will be threatened by a woman with money and power. So then you would pump and you would clear that. Does everybody get that? So it might be on health issues the group mind and the group mind virus. I had to really unplug from Western medicine to get myself healthy because there was such group mind that I couldn't heal. There was such a belief that I could not heal and then, oh you have this disease and this is what happens with this disease. Understand that those are a group mind, group mind virus also. Western medicine is humongous with that. Also the money systems and cord systems, all those patriarchal systems. They have these beliefs and those beliefs go into reality. Sometimes you can move away and you can get into a new reality, like you can move out of a country or you can move out of a system. I lived in the country. I lived on a farm in Minnesota and it just broke my heart the prejudice and I just couldn't take it. It was just too much for me, so I moved out to California where there isn't a prevalent prejudice against any group. At least I don't really experience it where I am, or have in any of the places I've lived in. I don't want to be under that group mind that actually causes me a lot of emotional pain and so I could clear it for myself when I can also move and live in a place that's easier to live in. So you may also experience that.

Okay, so that would be how you would test and clear for a group mind or a group mind virus and I think we all understand now where they come from. Group mind is really like a whole group agrees to something. It isn't particularly harmful but it isn't necessarily the highest truth of things and you get stuck in it. Maybe there was group mind around women having money being dangerous or not safe because women needed the protection of men and that was for all times. This is like the first time in history where women, there so many successful, powerful, wealthy women and it's the first time that women aren't really needing to have the protection of men; certainly the love of men or the protection of their money. We all need the protection of men of course, but so that would be how a group mind would begin. It's the safety zone. And so we're in this new era where the new safety zone is something different where it's being loving, and honoring, and respecting of each other and so we would cherish our partners and we would respect our partners and we wouldn't necessarily need to participate in that group mind around women and money. So that probably makes sense.

And then a miasm is worse. It's kind of the dark side of things. It's like the Hitler thing. But you'll be able to test am I under a miasm which is something that's really like, we've all decided that this group of people are bad or we're going to give the silent treatment to someone in our church because they didn't do something we wanted them to do.

That's pretty harsh, right? So it gets into a harsh -- the worst miasms are like the Hitler miasms, but you'll find miasms affecting you.

Okay my dears, so we will hop on to the next one. And for miasms and memes, we go into curses and black magic. [Laughs] Oh this guy is funny. Oh my goodness. So if you're angry with someone like this bugger, ooh wow, he's got an angry face, or this lady who looks a little crazy, you're actually putting a curse on somebody. You're like, I'm really angry with you and you're going to suffer -- whatever. You're putting a curse on that person. So this is not a complex curse which we found up in amplification. This is a simple curse. It's a curse where you're putting a simple 'I'm angry with you' curse into somebody's field. I had a woman I worked with from the Islands close to Australia and her husband cheated on her two years before and the woman actually came into her house. So this client of mine was so upset all the time and every day she yelled at him and we were removing curses from her and she said where in the world do all these curses come from And I said, well you have to believe in a curse to have these many curses. She had a lot of curses in her field. So I said, do you feel like maybe you believe in curses somehow. She goes, well maybe. I said, well let me just check and see if your husband has some curses from some of the arguments you've had he had 16,000 curses in two years. She had yelled at him so many times that she had put a field of curse around him so he couldn't actually really do anything. I mean he was just under this veil of curse, so we removed them. As we removed curses from her, we removed curses from him also; all of the curses she had put on him. You have to understand that you can remove the curses that you've put on other people and it would be a good idea and you can remove curses that have been put on you.

And then I'd put this funny guy on here because black magic is really we're hypnotizing our self and so this funny guy with the hypnotic rings behind him. We tell our self I can't heal or I have a tummy ache or I get headaches all the time, or I have PMS really bad -- we tell ourselves goofy, crazy, stupid things that don't help us and the more we tell our self that, the more we put it into our field that we have it. So if you have a hearing issue and it's a newer one or an old one, you could say, I'm experiencing better and better hearing every day and you can just tell yourself that. You know honestly, you're putting in your field something really wonderful and that's white magic. That's amplifying something good. Why waste your time putting in negative programming. You can create a new reality.

And then so how you would test for this is again using muscle testing and you would test for curses on a particular topic or you would test for black magic, am I doing this to myself? So these are separate, so you would test for this one first and then you would

test for this one, and then just using the quantum pump, you can clear the curses and black magic.

Let's see here. And then the next area that I want to talk about is Atheist thought forms. Atheist thought forms are when you don't believe in your own innate ability to transform, to heal, to become your best expression of self. Like there's something that you're convinced that you don't deserve wealth or you don't deserve great health in every area. Or it might not even be the word 'deserve.' It might be something different but you just know that's never going to happen and it's kind of internal; it doesn't seem to move. You can actually move this. You can say, I'm convinced that I'm never going to heal my knees and so I have to love with them the way they are. You can actually clear those Atheist thought forms and start working on whatever programs or patterns cause the knees to get back and then do the cell regeneration. By the way, we're teaching that in January, cell regeneration. So you could clear the Atheist thought forms and really step into a more powerful place.

I see a bunch of questions have come in and comments again. Thank you so much you guys. You're giving me really good questions. I'm going to see where we left off here. "I have also been stuck forever. What could that be about?" Joanna, just like I said, you just want to start testing to see but 'stuck forever' to me sounds like a Lucifer stop and then you could potentially have some evil spirit curses. Maybe somebody has cursed you and I'm guaranteeing you, if you guys take this to heart and start pumping on a daily basis clearing one specific thing after another, you are going to get free. Flora, "Can group mind ever be a good thing? Do we need to see it as good or bad before clearing?" I don't think group mind can be a good thing in that it circumvents your own mind. It overrides you thinking for yourself. I've heard people say, like a woman who I used to work with years ago – Arlene. She would say she wanted to go to this Christian church and there was a very inspirational black leader and there would be thousands of people at glide memorial and she said, he could have us march out of the church and march to city hall and hang 20 people and we would all do it because we're so filled for her and whatever. I just think, it's good to be filled with the joy or the love of God but to march to city hall and hang 20 people, I mean that frightened me that she said that because it just feels like group mind. And yet, yes group mind can in some way like what we're working on here, so I will say yes because when we're working on tipping point and owning the body ourselves and shifting so that we're creating this group mind that we have the right to own the body, we have the right to think for ourselves, that becomes a new kind of group mind. A new, and harmless, joyous, validating, individuating, honoring kind of group mind. So yes, we potentially could.

So let's see, that was Flora I think. And then Anita, "When I pump, my hand becomes cold. Is that normal? I also have a pinched nerve in my spine affecting my right hand. Will that be able to be cleared by pumping?" Potentially it could, yes. I don't know that it's normal. I don't really hear people's hands going cold. Anita, it looks like it might be something physical with you. Maybe you're not having good circulation in that hand. I don't see any spiritual parasites so that could be nerve or it could be circulation. Danny, "When doing the quantum pump, we set an intention first. Is that enough or should we be repeating in my head, 'I'm clearing' the whole time I'm pumping. I guess what I really want to make sure is going to..." Okay, well I don't understand a couple words there but you need to clearly identify what you're pumping for and then you don't need to think about it, except you can come back and test to see, am I 50% through, am I 100% through, am I 10% through. You don't have to think about it over and over again.

Sylvia, "I think I really have a curse and a serious one. Can it really help me with this?" Yes, testing and then clearing with the quantum pump can really, really help. Cindy, "IS it important to know what you are clearing? Can we just pump around say poverty because we don't know what issues are behind poverty?" I would say you could pump, I want to clear all issues around me experiencing poverty and then you could clear all the different areas from amplification and perception all the way down and just you experiencing poverty. And then I would also clear because the next step would be wealth; all issues around me standing in wealth, so I would do it that way. And by the way, the wealth class starts tomorrow. For those of you who are interested, it's going to be amazing. We've had 3 students bring in 100,000 in the 21 days, so I'd love to have another 3 students bringing 100,000 in this group.

"I find pumping easy to do. I wish I could get muscle testing right" You will Nina. Just keep practicing. Janice, "Male/female authority figures keep showing up in my life. I have one in the neighbourhood who sucks my energy. Yesterday after class, I got very physically ill and I cleared and got better. And then I pumped, horribly sapped again, it took four hours." Janice, that sounds like a cycle to me. Doesn't it to you guys? It sounds like a cycle. It might be a timeline, but you would also need to clear your ability to be an authority. It might be that in a past life and we'll be going on to that very quickly, you might have had some trauma both with authority figures or being an authority figure. Like I said, this is really interesting but you have to believe in the problem somehow. You have to have had the experience of the problem somehow to have the problem. So if it's authority figures, you've both in the authority and you've been the recipient of the negative experience of having an authority figure over you. So you would want to clear both your misuse of authority and your kind of magnetism to others misusing authority with you. You would clear both ends of it. Just like I said, you clear poverty but you'd also clear wealth. You clear being oppressed and then you'd

also clear being the oppressor. And then you get out of that system; you go into a system of full self-expression, of full empowerment. You would move out of that place of both sides. You got to do both sides. Okay, I just wanted to say that if you do that, if you do both sides, you'd get the better clearing.

Okay and that was what we were actually going to was trauma from this life and past lives. In all lives, you may have suffered and you may have exerted problems for people. I happened to meet a fellow in my life and he asked me out on a date. This was many years ago now. We were dancing and I just saw this whole picture of him. He was part of the inquisition and he had had my hair shaved off and he had the skin ripped off my hands and then had me burned at the stake, and here I was dancing with him and I had this whole vision of this is who this man was. [Laughs] He was a good man in this life and clearly he was trying to resolve something. That obviously brought him in, so that I could have my own experience of resolution with him but I went running. He saw that there was something changing in me in this life. He was a [Inaudible 00:55:45] so he was definitely into mystical things and he saw the look on my face. "God, I did something terrible to you, didn't I?" And I said I need to go now, I need to go now. HE apologized numerous times for his offenses and we cleared that energy. I didn't need to date him. I didn't need to go back and fix that. I just needed to do the whole process of clearing the trauma from the past lives. In this life, you could do the steps with Karma clearing or you can just clear it with the quantum pump. You can identify the trauma from the past life. It could show up in a cycle. It could show up on a timeline. It could show up here. Understand it could show up in different places and then you could clear it with the quantum pump and then you test to make sure that it has cleared; trauma from this life and past lives.

And then finally the etheric body. Things will end up in the etheric body that are affecting you negatively and so you would clear your etheric body which is essentially your essence, your essential nature, your spirit, soul, life-force. It is more elusive and you can muscle test and you can discover issues in these areas also.

Okay, so we are going back to some questions. Wow and we got through both. We have finished both the amplification and perception field, so we're right on track here. It's just fantastic. Okay, lots of questions. Let's see how many I can get through. By the way, we will go until 9 o'clock and then I will stay on the call for another 10 minutes to respond to questions that I didn't get to, So if you have more questions and please do stay on the call for 10 or 15 minutes. We have some videos lined up for you so if you're interested in some of the upcoming programs. Okay, let's see. Oops! Something happened in my text box. It jumped. Let's see. "They come on my sleep and between that stage where you could hear them before they're gone." Okay, this must be a

continuation Sylvia of something but if that's spiritual parasites or people showing up as spiritual parasites, you could clear them with the quantum pump and then you would want to clear your magnetization for them. You're welcome Nina. That's it, okay. And Danny, "Thank you." You're welcome. Sylvia, let's see. Sorry, my text box is jumping around here. Sylvia said something with my sisters and a fellow David -- I don't understand. I just don't understand the question so you're going to need to write a better, complete question in one time Sylvia.

Johanna, "I have a lot of difficulties with technical devices like computers and mobile phones. Could this be caused by something related to curses?" It could be, but more than likely it's spiritual parasites. Believe it or not, I've got a class that I'll be teaching in the next few months on how to keep your technology clear and you'll clear so that you can really enjoy technology rather than struggle with it. And then "Pumping with both hands clear faster?" It does. Tammy, "Can you give a good example on issue cleared from the etheric body?" I think we're just at the end of our time but Tammy, you're looking at an issue like for example, do I have any issues around -- because I've been working on building my trainings to larger numbers, so do I have any issues in my etheric body? So that would be in essence. So in my spirit, soul, life force, energy in my etheric body. So in my soul, there are some issues that I could clear around bringing in larger numbers of clients. If this is just one of those things, you just test if you're looking at an issue, it's just one more thing you can test. It's usually very small but it's usually one more of those things. Oh, you're welcome Nadia.

Okay you guys, we've reached the hour of completion. Thank you so much for being on the call and I look forward to seeing you next week, on Tuesday. Homework will be to actually start doing these clearings. Go ahead and use the clearings. We will send you the PowerPoint from the day and I'll send you some suggestions on what you might start working on clearing. Some of you already have some good ideas. I know you do.

Rubbing your hands together in front of your heart chakra and creating some heat, some Tapas, some energy in your hands and then putting your right hand over your heart chakra, left hand over your right hand in a universal Mudra of self-love and self-affinity, repeat to yourself I love myself. I trust myself. I express my unique self. I love you guys. I'll be in the chat box for 10 minutes and we'll see you next Tuesday. Please, please if you have an interest in breaking through in money, get in the Accelerate Wealth Class tomorrow. It is incredible. You're going to have incredible breakthroughs in that class. I just can't say enough. Don't wait. Do it now. Alright, see you later.
