DNA and Bloodline

DNA

3 aspects to DNA

1. The clearings for your own DNA and is you have had a transplant or transfusion the DNA of the donor
2. Affirmations/intentions for replacement information ~ live a new way
3. Telomere reconstruction

Blood line

Your bloodline is both related to the blood in your veins and your family heritage

Think of it as the information your clan has passed down to you that they hold valuable

I have found in my research if you have a particularly dark generational past the combination of Bloodline , Lucifer stops and satanic curses, with atheist thought forms can be at the heart of many issues blocking full body ownership
