# Clear and Regenerate

# Clear and Regenerate

Cellular Neo Genesis Revitalization of existing stem cells and the genesis of new stem cells. This technique uses the master cell this is the original stem cell for the area being regenerated and hold a great deal of information about how to grow new cells. Using the quantum field and a hand movement called the 'quantum pump' the stem cell is brought to 100%.

Cell regeneration is brought about by activating the perfected master cell in the human blueprint than moving this cell into physical reality. For example one might imagine it as the perfected cell is replacing the old unhealthy cell or the master cell from the blueprint is taking form where no cell currently exists. Medically document regrowth of a failed adrenal and new growth of a surgically removed colon.
