

## **Divine Connection - Session 2**

Good afternoon and good evening and happy holidays to you. We are in the holy week, the week of Christmas and working on divine connection. Please do sign in. Let me know you're on the call and I'm very excited for today's class. Today, we'll be doing more clearings. Where last week we had a beautiful-- lots of poetry and scripture and inspiration and today we'll be kind of digging into the things that stop us or block us from feeling that divine connection and I've had very powerful weekend myself. Every once in a while a person needs to unplug and of course, one of the ways to unplug is to experience something that people might call a cold. So I was writing the protocols for how to clear the common cold from the body this weekend and had a really great time mapping it all out. So I will be sending that out in a newsletter this week but I found a whole bunch of things that get programmed and especially cycles. So things that reoccur same time every year. And also how spiritual parasites tend to own the sinuses, the throat, and the bronchiole or lungs for us when we get sick and so how to get rid of those spiritual parasites and how they're embedded and all that stuff. So I mapped that out at the weekend. So if you've sent me in email asking me a question, I wasn't really on the email, I was resting and working on the protocols for colds. So but-- I hope you had a wonderful weekend and we're gonna have a great day today.

Hi, John. There we go. John's one of my neighbors from the bay area; and Roxanne from New Orleans; and Cindy. Yay. Well welcome. And I see we've got probably at least 9 people already on the call. So we're gonna get going then. Get started here and here we go. Yay. Okay. So divine connection. Understanding divinity and your personal connection. Today we'll be working on the divine connection paths and so we'll be cleaning and clearing out the crown chakra, the center of the head, third eye, golden rings, heart chakra and your vibrational rate and helping you move up into the rate beyond unconditional love.

So we're looking at divine, and when we look at divine connection, it's the divine is the nature and expression go God known to human kind in all its various forms and yet there is this vibratory signature for divinity which is a vibration. It's a high illuminated experience. We're gonna start with the great invocation. Some of you have been enjoyed saying this in the illumination class. I'd like you to think about the point of light in the mind of the divine. I want you to think about it as this area here. So from the crown and the sixth. So that would be the point of life from the mind. And then from the point of light within the heart of God, think about that as the fourth chakra. From the point of light where the will of God is known, think about that as the third chakra. And from the center where the will of-- from the center which we call the race of humankind and that would be the base or root chakra. And so as we're saying this great invocation, we're also

activating the sixth and seventh chakra, the fourth chakra, the third chakra, and the first chakra. So you can kind of energize that as we say this great invocation together.

"From the point of light within the mind of the divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let the divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace." So we experience that activation of the chakras, the awakening of the chakras, when I say this great invocation.

I imagine that I am god on Earth. That I am the experience of the divine and that the light is streaming forth from my crown and my sixth chakra, the center of the head chakra, into all sentient beings. So I imagine that like going forth into all beings and then from point of love within the heart of the divine and I imagine my heart, the heart chakra, being awakened and shining into the heart of all sentient beings helping awaken humanity. And then from the point of-- the center where the will of the divine is known, I think about the third chakra which is just above the belly button and I imagine that will, the will of God, flowing through out my chakra to all sentient beings. The divine insight and guidance to help humanity. And then from the center which we call the race of humanity, let the divine realm of higher consciousness be embodied and fulfilled and I see that embodiment, the restoring of humanity, the restoring of the base of all-- of our human kind.

So for me, it's a very powerful activation where I'm actually calling forth. That I allow the divine to flow through me into all other and this is part of divine connection. Part of divine connection is claiming that you are divine and that you make an impact on Earth. That your presence, your being here matters. That you transform and awaken the hearts and minds and bodies of humanity.

So why don't say that one more time now with that knowing, the knowledge and let's see how you can wake up those centers in yourself. We'll be then going on to doing activations to restore the chakras to 100 percent function and we can come back and do this yet one more time again after we've restored the chakras but one more time in this new kind of knowing so that we can start embodying this.

"From the point of light within the mind of the divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized on Earth. From the center where the will of the Divine is

known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let the divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace." Just take a few breaths in and out. Feel the energy of that great invocation flowing through your body and your chakras.

That's wonderful and I say good morning to Tony and Junko also. Welcome. And let's begin with the clearings and we start now with the chakras and just to think about the chakras that are really divine connection are the heart chakra, the sixth chakra which is seat of soul or brow chakra, [Inaudible 00:09:56] chakra, and the crown chakra or the 7th chakra. But we look at all of these 4 chakras that are the highest ones, the crown chakra being top of the head as our higher self chakra. So these are the chakras that are involved with our spiritual connection and then the lower chakras, chakra 3, 2 and 1, will, sensuality, and survival are the lower 3 chakras are equally and as important and you will today, you'll have all 7 of the chakras tuned up because what I find is that if you have the lower chakras and the upper chakras in harmony and tuned, the connections are a 100 times better. So we'll be doing the tune up by starting with the base or root chakra and tuning up if it's a dark or grey color, we'll be clearing that. We'll be using the quantum pump to clear poor color using spinning hand movement to restore the chakra to 100 percent use and then if necessary, we'll be repairing the chakras as needed.

And so we're gonna go back to this picture of chakras and we're gonna start here at the base chakra and these are beautiful kind of flat drawing of chakras but understand that the base and the top chakra are one and then the middle 5 chakras come out in front and they extend out in back and they're cone-shaped. All the chakras are cone-shaped. So they're not little flat discs. Okay. And so we'll start with tuning up the first chakra and let's take a look at how the class is-- Hi, Janice. There you are. And we're gonna-- let's see. On the base chakra, any broken base chakras. Any broken ones [Inaudible 00:12:03]. And then the lowest function for the group on the root chakra, 15 percent and the highest function, 40 percent. Okay. So we got a little bit of work to do And so-- and then the colors, poor colors in the group, grey and good colors, no good colors. Okay. So let's pump and first of all we'll-- we're gonna restore the color. We're gonna clear the grey or the black from the chakra. So we're just pumping to clear that and also low functions so everybody's under forty percent function on the root chakra. So we're gonna pump and then when we restore the chakra, we're gonna do spin. So we're gonna pump to clear and then we're gonna spin to restore. Yay.

As we pump, I'm thinking about a song just popped in my head. Do some of you know this we all come from god and unto her we shall return. We all come from god and unto her we shall return. Like a ship floating by in the ocean of life. Like a river of light returning to the sun. We could sing that. "We all come from god and unto her we shall return. We all come from god and unto her we shall return. Like a ship floating by in the

ocean of life. Like a rainbow of light returning to the sun." Which reminds me of last week, I was out on mountain trail hiking and I was at the top of the mountain 'cause I've been hiking well over an hour to get to the top and I might be able to show this to you. There was a rainbow literally on the mountain I was on and the end of the rainbow was so close to where I was. It was amazing. It was just like just in front of me. Let me just see if I can-- I think can show you pictures of the rainbow. It's unbelievable. It's a little bit of a goofy picture of me, but can you see the rainbow at the back there? it's amazing. It's amazing to be out in the blessings of nature. Good morning, Sherin. Sherin and Janice have joined us. Yay. The gang is arriving. Fantastic. So we're working on chakra one and we're removing dark energies and we're bringing up the vibratory rate to 100 percent. So we're gonna-- and my hand keeps wanting to spin you guys. So you keep pumping this way and I'm gonna pump this way I guess. That's what I gotta do. Are we actually tuning up? No? 3 minutes. So 3 minutes on this and we should be pretty much where we need to be.

So the root chakra is our survival chakra and to have the root chakra in good shape means that you will survive very well. I like to think about the root chakra and the third chakra as vital to being a big successive business. It's one of the things I noticed with Jeff Hoffman. He was a personal friend of mind for a year. We were pretty close. And Jack Canfield, also personal friend of mine. Noticing how they had really-- they're grounding was so solid and their will is so firm that they didn't have to impress upon their will or concern them self with grounding because it was so automatic. So that we really want the will in the third chakra functioning very, very well to be successful in the world. To really own our space, to have a nice home, to feel like the-- we can make a difference in the world and that things change.

I know when my third chakra, my will chakra, was quite depleted and that can really happen if your adrenals are down. It felt so frustrating to me like I couldn't make a difference in the world even though I had this great information, I couldn't get it out in the world and by activating and getting the third chakra and the first chakra. So the survival and the will really fortified my ability to influence and be an influence in the world changed dramatically.

Okay. So the color has all changed for all of you. So you all have good color now. Green is a really good color in the chakra. Red is pretty strong too. So okay. So now we're gonna spin and this is what it looks like to spin and this is what we're directing that energy to the first chakra but you don't have to go like this 'cause it's in your perineum, the first chakra's at the perineum. You can just go like this and intend that go through the first chakra. Very good. We'll also be once we tune up the chakras, we'll be looking at any programs that might be running that are allowing the chakras to go down below 40. 40 percent was the highest of you. So we wanna look at any programs maybe in the

DNA or the bloodline, Lucifer stops, things like that. So we'll also be clearing up that problem energy. That your body wouldn't be fueled properly.

This is clockwise. Spinning is not the doorknob. No. So your hands are straight. Doorknob is like this; spinning is like this. So it's kind of making your fingers like that. Reminds me of a puppet a little bit, you know. "Hi. Hi, I'm popo jijul." Just like that where you kind of make a broad kind of piece with your fingers. Your fingers are all together, they're not splayed apart; they're together and you just like that. I hope that's helpful. Good. Yeah. New technique today. Yay.

Okay. Let's see what's going on with chakra one. Okay, we're about 70 percent function. So some of you might be feeling some energy coming in on the chakra one. I had an exciting weekend in addition to mapping out how to-- the steps to clear a common cold. I got my certification in CPR and first aid for adults and infants. I spent the day with red cross and did training online and then went into the red cross to the resuscitation Annie on the dolls and the big bodies. It was actually it was kind of fun. I think I had done it as, you know, like a 10 or 12 year old 'cause I used to baby sit but it was a good experience for me. Something in the practical world. Okay. Let's see. 98 percent. And I'm gonna do something else in here. You're welcome to if you like to. Looks like a few of you have some aliens on the first chakra. Looks like 11 aliens slowing down the first chakra and not letting it go to a hundred percent. So you can do chopping if you'd like to. Chopity-Chopity-chop.

It's funny how the camera's picking up my hands, isn't it? Doesn't really-- just looks like a big blur. My brother attended one of the workshops I was teaching very first one and he's got my hands doing this and actually the hands completely disappear. So it looks like I had stumps. So I didn't know. They went into the quantum field. The hands went into the quantum field. And sometimes when you have an alien and a chakra, there might be some holographic inserts or some implants or something like that. There's a few of you probably feel this energy. I'm removing everything. The implants, the mechanisms, the seeds. Just doing it really fast. So you can see what I'm doing but it's not something you should do. Not recommending this.

Almost. Why don't we chant the Tryambakam mantra? That's very empowering and helps us own our body. [Sings in Sanskrit from 00:24:12 to 00:25:32]. Okay. Just a couple. There's just like one alien left and a couple of holographic inserts that are really stubborn before we can progress here. I know you all will appreciate it. Whatever is the one who is getting the extra attention. Obviously this was really in the way of interfering with your grounding and really being able to own your space. So it's really important for the whole group so that we shift up together.

Okay. Just one holographic insert. The aliens are all gone. So just one more thing. Thingamajiggy and we got it all. Good thing we're doing this. Who knew?

Oh. Some questions came in. Sorry about that you guys. Been focused so much on this. Let's see. And the questions are currently, "How's sitting friend's house. Huge vibration. Every time I thought about the house in SunnyVille. I'm renting a room in-- or the woman who owns it lives there experience strong attacks. Sometimes lots pop into my head simultaneously with attacks." That would be spiritual parasites. You don't-- you kinda wanna clear that. "Not sure if attacks has thought of her as well. What's going on and what to do about it? Are they in my chakras?" I don't know about chakras, John. It looks like they are in your head." Do we ensure they/other pest don't get into chakras again?" I don't think they're in your chakras. I think they are in your head. The thing is-- you know, I'm gonna say that life happens and you go to different places. You know like, "Wow. Well that's remarkable." Well, you know, you can have stuff show up and you just gonna clear it out once it shows up because your gonna go, "That's not me.", and you're just gonna clean it out. It's gonna take a minute then it's gone. You just gotta get yourself really to the point where you're pretty clear all the time and then you notice that there's something there.

I mean some of my students who are women said, "Well that means, you know, single women. I can't sleep with men because he's got spiritual parasites and then I'm gonna feel slimed after I sleep with them." And I said to them, "You know that's silly. You know love is wonderful and you know, when you're breaking in a new guy of course he's gonna have spiritual parasites and you just clean it up." So same with men. You know if you're-- so if you're in a different house or you're in a hotel or whatever it is. You keep yourself clean. You clear the room. If you pick something up, you just clear it. You know? Sometimes you go on a flight and you sit next to somebody who's got a bunch of creepy crawlers and some things attracted to you and you just clean it off, you know? So I think that that's the thing. It's if you think-- I took a bath once and now I've gotta protect myself from getting dirty so I'm gonna walk around in a plastic bag. Well that's how they used to do.

My grandma, my great grandmother had beautiful red velvet sofa and loves to see it. They were covered with plastic and so we sat on plastic. But no, you wouldn't do that with your body. You would actually just take a bath twice a day or once a day or whatever you take a shower and it's the same way with clearing up spiritual parasites. You just clean it off. So I'm in the habit of meditating in the morning for an hour. I get up at 5 and have a nice warm meditation that really cleans things out and then I'm sensitive. You know if you take the 100 percent full body ownership class, I think you're gonna start really identifying what's you and what's not you. It's gonna be a lot easier. So that should be helpful. Okay. Before I answer any more questions, I'm gonna-- I think we're done with the chakra one. We are done with chakra one. Okay good. So we're

gonna go unto chakra two and I'm sure you all know where chakra two is but we're gonna tune up all the chakras. It's a good conversation.

Okay. So chakra two is here and for women charka two is the chakra for sexuality. For men, chakra one is the chakra for sexuality. For both men and women, chakra 2 is sensuality and creativity. Reason ladies is your ecstasy center so to speak is you know like your G-spot and uterus which contracts when you have an orgasm are in the chakra two zone, and gentlemen you know that makes sense right? Chakra one being down here in the perineum and a lot of that activity is down here for you guys. And then for both though, chakra two is creativity on a physical level and this will a lot of times cleaning up charka two will help with sensuality. Will help with sexuality and will definitely help with like physical creativity like dancing, and art and music and expression in the human body. So we'll be doing the same thing and I'll just test right now and to see what colors we-- let's see. Darkest color is grey and lowest function 3 percent and highest function 70 percent. So we have a little bit more diversity in this one; where chakra one I think it was 10 and 40, and this one we have 3 and 70. So there's quite a range of function in chakra two. So just go ahead and start pumping. We're gonna clear the color and the function number-wise/percentage-wise on how much it's functioning and then we'll do the spinning to restore it to 100 percent. Okay. And then let's see.

Okay, so. "How to ensure they or other pests don't get into chakras?" And generally, parasites and pests don't get into chakras, John. It's very unusual but if you learn how to do the clearings for like implants and holographic inserts and things like that, which we teach and I'm sure you're learning, then you'll just be able to clear that out. That's how they get in. Permeations and implants and things like that but in general they don't hang out in chakras. And then John, "Is it karma or what should I focus on to clear? Tried pumping but they still attack." You know, John, the whole class, the freedom from spiritual parasites and pests, goes through like you would clear all the reasons that they would come to you and then so you would clear bloodline and that kind of stuff first and sometimes it's bloodline or-- yeah. Bloodline is one of the big troublemakers with spiritual parasites.

And Janice, "Also feel like I've been invaded in the past two months. So impacted. Also when I get to second chakra, history of heavy sexual abuse, 5 perpetrators done so much clearing and still hate sex and don't want to be touched." Thank you for bringing that up, Janice. I actually created a class which might be helpful for you. You know, you'll have to see if that's on track for you. Let me just find it. Which is-- we did the clearing, the abuse, but there's a whole lot more that can be done. So but anyway, you're probably one of the ones. Here's one of them which is healing the sex glands and organs for women. I'll give you the link to that. One second here. Just popping back here. Here's the link to that and there is actually another one that if you find that class is

effective for you, I'd like to recommend one more class and gentlemen there's one for you too, healing sex glands and organs for men also. Hang on one sec here. There it is. This one is coming up in a couple of months. It's in March. So it's in 3 months. But ladies, this is for those of you who have lost your ability to experience joy in sexuality. So you might find this one very helpful.

Tony, the new technique today is only for restoring chakras from nothing else and quantum pump is for everything and I did some-- the chopping is really more like for clearing an illness or a difficult spiritual parasites and the doorknob is-- you can muscle test and see. I do have charts if you're coming in to like immersion training or the apprentice training. I give out charts on what technique for which one but you can also take notes as I'm showing you what to do but this round spinning technique this is the only thing it's used for is chakras. So that's always used for. Implants get into chakras because alien, the forth kind of alien type for 8 aliens puts it in there.

Yeah, Junko. Bloodline is the clan energy and so it's a very strong enforced like thought forms that go along with your genetic bloodline and so it's the clan energy. It's the kind of the force that we have to do it this way. DNA is actual-- the DNA strands that program what the-- what your family has discovered that's good for you, not good for you, that kind of a thing. So DNA is actually 46 strands of information from your mothers and father's side and to authentically from yourself on how you're gonna function. It's kind of your information bank about how to survive and how to keep your body running.

Okay. On bloodline, bloodline could be like thousands of hours on John. It's really-- you've gotta be thinking in terms of what you're clearing and it could be thousands of hours. I mean bloodline is the one kind of troublemaker I see that it seems to be if it's you know a challenge for you, it seems to be in every clearing. It seems to be like important to do. Oh I need to do bloodline in sexuality. I need to do bloodline in my health. I need to do bloodline in my wealth. I need to do bloodline in love. I need to do bloodline in, you know. It just goes on and on and one. So if it's a problem for you, you're gonna be clearing it a lot. So I hesitate to say how many hours because it could be literally could be thousands. "Is it important to focus on an area we are clearing?" Well in this case, we're probably only spending 5 or 10 minutes on each chakra. So yes. Especially if you're doing the spinning movement to restore the chakra? Yes. You definitely need to focus on that it's going there in that chakra. Okay let's see. Okay. We're at 99 percent with the second chakra and would like you to start spinning. Doing the spinning.

While we're working on the second chakra-- Hi everyone. I'm back. I wanted to talk to about what I've been discovering over the weekend on colds and illnesses and I've been asking myself really interesting questions these last few weeks about is all illness-- 'cause I work with my VIP clients and students and I wonder, "Is all illness at least

partially programmed by spiritual parasites, implants, holographic inserts." Like that kind of stuff. What I could see was we have a very strong group mind around the common cold and then there's medical control energy that you need an antibiotic to clear up a cold. So that's really interesting. So I saw medical control energy had to be cleared so that I can clear the cold myself. And the-- then there was something that was really tied in to cycles. So I had to clear cycle and it's funny because it's been going on for like 5 or 6 years where I'll get pretty sick in the winter and it'll take weeks to clear and I'm 90 percent clear today on a cold I got 3 days ago but I stayed really just focused on it like looking at all the different elements of what allows that to take over and I had this sense that you know, when you sneeze or cough that the sneeze or the cough just comes out of nowhere, right? Which means, and I started looking, well it's alien type 3. So a sneeze or a cough isn't actually stimulated by our body but it's stimulated by a holographic insert and alien type 3. So then I was looking at-- 'cause you can-- you know clearing an infection really is anywhere from 3 to 9 times. You clear it, you get down zero and then you test. Maybe it's 8 hours later you clear it again. Like with HIV, it's like 2 weeks you clear it again and you know it's 3 to 9 times you clear it and it's completely at zero. So I know that and we've seen it in the immersion program, the apprentice program, that you just can clear the infection. Doesn't clear the first. It clears partially the first time it goes to zero then you test to see when you do it again and then you get it to zero and I tested this morning that I had 3 more clearings. So minor every 8 hours and then I would have completely removed the infection from my body.

So but the elements so interesting to see the cycle and then the implants, and holographic inserts or whatever it is that's wired in is what keeps it perpetuating for weeks and weeks and week. And I'll be that everyone who has had a cold or had pneumonia. I was like, "Where in the world does this come from? My lungs hurt. My everything hurts. It hurts to breath and all that stuff." And literally by clearing everything, getting to everything to a hundred percent, everything feels awesome this morning. I mean definitely am at like 90 percent over but what I could see was the huge impact on some inserts and implants and things like that. Now I'm the big teacher and I'm like, "I'm going through-- I cleared when I was awake yesterday. My hand was pumping the whole time while I was awake. I was watching happy doors day movies and Santa Claus 1, 2 and 3 and you know I was just like kind of zoned out. Pumping, pumping, pumping. Looking at mapping out what am I clearing?

Bloodline, of course, was one of the things but you know it's so interesting. I think the thing that we have to notice is the field of embodiment allows us to be embodied in the body but it also allows other things, other spirits, to come in and so we have be very, very clear. And I've asked energetically, "Did I give permission to any of these stuff for being there?" And I get a no. I didn't give permission. So then it's me taking my authority and kicking them out, and kicking them out is just you know, however long it takes. And

so when I was looking at this pattern of the cycle and this whatever stuff that's been going on for like 5 years in a row where I get sick and blah blah blah. It was like I tested it and it was gonna be 3 hours to clear the holographic insert and 3 aliens permanently and that's what I'm after. I'm after the end of this cycles. And I don't wanna just like I've cleared the cycle the before and it hasn't finished. So somehow it's rebooted. So the resets have to be cleared to.

Anyway, I share this story with you because you have to understand that life is a learning experience and that we're on a journey of discovery and re-owning and taking charge of the human body and-- I also had this kind of "do do do" feeling last week when I was thinking about the movie, the matrix, and I bet all of you thought it was good move when it came out. It came out like 15 years ago and it had like you know, humans that were kind of being controlled by aliens and they were all in tanks or whatever tubes and then their mind was playing out their life. But I was thinking about how you know if humanity as a whole had to deal with the aliens, the inserts, the holographic, the blah blah blah.

I mean it's a little bit like matrix and maybe we as a race would be overwhelmed by dealing with it all but the thing is if a group of people are willing to just look at it and remove it and say, "I'm willing to see it. I'm willing to take charge. I'm willing to spend the hours. I need to clear it." Then we create a set point or a tipping point so that all of humanity doesn't have to work so hard and doesn't have to be kind of scared in the process and there's nothing to be scared of. It's just that we've allowed quite a bit of gunk to settle in to the human race. As a group, as a community, we're setting a new pace and a new tone of clearing and it's not about how fast or how many hours; it's about once and for all, removing the patterns, removing the cycles, removing the inserts, the holographic inserts, the implants, the mechanisms, the seeds, the portals, the wormhole, removing, removing; so that we can be free as a race and that we can live out our lives in full self expression. That was a long story. Okay.

Junko, you're welcome. John, "How much bloodline left to clear for clearing parasites and pests? Which is what I've been working on." Parasites and pests for bloodline. You have zero hours; and then Tony, "You said I asked did I gave permission. What do you if noticed you actually gave permission?" if you gave permission, then you remove permission. So I no longer in an agreement to this. You have to end the agreement. So if you have permission, you end the agreement and you can end the agreement by using the quantum pump. Let's see. Chakra 2 is restored 70 percent. So we just pump for another minute or two. You can spin or you can pump and we're getting all chakra 2 front and back spinning at 100 percent. So we're at 70 as a group. And then Janice, "Had a teacher who is computer guru creating programs etchera. He thought energetically same thing as in computers. We clear a virus in a computer and unless we go and release the Damien re-installer, it just gets reinstalled. Same with body. Release

things and also must release the Damien installer." Exactly, Janice. Exactly. And you just gotta get down to the bottom of things. I love that analogy. Thank you. That's really great.

And I think about that with the DNA resetting us but you know there's just stuff that keeps cycling back up and for John it's the spiritual parasites and he's gotta get to the place where it doesn't cycle back up. And I'm always intrigued by this because I'll say that I walk around relatively clear of spiritual parasites and yet a cycle started where I got exhausted. I'm staying up till midnight to work on you know some personal stuff and then doing really hard full days of work and I got exhausted and I was around people who were sick and I got sick and I don't believe in getting sick but there it was and I told my body, "No I'm not accepting this." And yet there it was. So what's really interesting is then to see well how did the cycle start and then the inserts and parasites get activated or whatever. So do they lay dormant? That's very interesting. Do they lay dormant? They just can resurface. Interesting. So they weren't-- were they in me? No. Were they a spirit? Yeah they weren't in me and they just-- so do they count? So the cycle was authentically running. No. Cycle was one version of -- Oh. Interesting. So the cycle wasn't even authentically in line. The cycle was one version of the human experience of getting sick. Weird. So, fascinating.

Okay and so chakra two is at one hundred percent. Yohoo. Yay. So we're going up to chakra three, and chakra three is will and it's about an inch above the belly button in front and in back and it comes out cone shaped. It comes about 6 inches and first we'll clear and lowest functioning third chakra for the group 5 percent and highest functioning is 82 percent. Okay. So someone's got a really strong will and someone's got a really weak will. Yeah.

You know and Janice it feels to me like we could you know like completely avoid that. I think that they were emotional triggers so I think and that's probably what allowed that the room for that to show up. That's something to look at for me and looks like for you exhausting over giving to others for me had to deal with some-- Has some tender spots in me while I was working on all this paperwork, so. That's probably part of it too.

Cindy, you're asking if there were inserts in the chakra two. I didn't get any. Someone had some seeds that I removed but I didn't see any holographic inserts in the [Inaudible 00:55:16]. And like I said it's very, very unusual to have any mechanisms whether it's holographic inserts or implants or anything. It's extremely unusual in the chakras. They tend to be in the physical body rarely in the spiritual body. Rarely but ones in a while in the energetic body.

Do all of you celebrate Christmas? Are you having fun plans? I know I'm having a few friends over for a holiday meal on Christmas eve and then I think we're gonna head

over-- Is the-- I will in a little village mountain area. So we're heading down the road about 10 miles to a little Lutheran church that has a sing along carol sing and then the Catholic church, the mission, which is a hundred and 50 years old is another four miles from there. We go to the 11:30 mass, the late night mass, and enjoy the magic of Christmas in the little village. Should be wonderful. We'll have a traditional fish dinner and my girl friend from Trinidad will be making the fish. So that should be wonderful. So the tree is trimmed and the house is decorated for the holidays. So we're all ready. Yay.

"To those who have been ritually abused can implant mechanism in their chakras?" I get a no on that. But there's probably a whole lot of other things that happen. On ritual abuse-- You know I think, Janice, I get a holographic inserts in your spirit which is kind of yucky to think about. So that would be something that we wanna you know address if that were the case with you. Hopefully not.

"Holographic inserts, not imprints in my spirit but answers a lot of questions for me." Janice, yeah. But we're pumping. So everybody's working on chakra three and we're clearing-- let's see, so. We're about 80 percent now on the chakra. So just keep pumping and then let me just check on you Janice to see if you've got some of your spirit missing. Yeah. You're only 60 percent there. Let me see if anybody else has that issue. Anybody else in the class have that issue? Anybody have some of spirit missing? yeah. 5. Five of you have some part of spirit missing. And of those-- and of the class members, have anybody else have holographic inserts in their spirit? Just Janice.

Okay. Alright. You guys pump on chakra three. I'm gonna go into a little bit of a trance. So I'm gonna have my eyes closed. I'm gonna retrieve the spirit for 5 of your that are missing pieces and I should be able to get all of your spirits retrieved. I'll be gone awhile. You can muscle test. Gone awhile meaning I'll be right here but I'm gonna see if I could collect all the pieces of spirit that are missing and then Janice we'll remove the holographic inserts from your spirit at the same time. So I'll probably my eyes open when I do but I'll remove that too. So that should help significantly for the five you that have this problem. So if-- it seems like a little bit of a long time that I'm gone and hopefully not but maybe, just go on to chakra four. Okay? We're at 85 percent on chakra three. You just wanna do this when you get to a hundred percent. So if you don't know, just in like two or three shift to the spin. Okay? And I'm gonna just retrieve spirit for everybody so that you'll be all a hundred percent spirit.

Okay. Removed holographic inserts also removing seeds and I'm seeing a number of you have seeds in your spirit. All of the class member's spirits have been retrieved. So you're all now spirit at 100 percent. Like just feel a difference but I did see quite a few seeds in people spirits which would be put in from aliens so they could find their way into your spirit; so I'm removing those. And holographic inserts from Janice. You guys

are on the fourth chakra by the way. So just to-- you're working on the heart center. I'm continuing to work on your spirits.

Okay. Actually that's great. Couple of you had something called permeations which were kind of an overlay of an alien into your spirit and I removed that too. So if you had a shift, if you noticed your body have a new sensation, have a unique or different sensation, I'd love to hear how it feels for you to have spirit now at a 100 percent. So some of you had pieces of spirit missing, 5 of you in addition to the 40 percent of Janice who've had a huge amount missing. So I retrieved all of the parts of spirit that have been hacked off and I restored you with your original spirit so that your original spirit is now back to 100 percent. So you have your original-- all of your original self is back. Okay. I see some things came in.

Oh maybe not. "Thank you Julie Renee. I have cried the whole time. I just didn't know what was wrong and you have answered and also restored. Feel so grateful and so blessed." Yay. I'm so happy to help you and whenever I see that I immediately spring into action. This is my EMT. Emergency Spirit-- whatever EMT. Emergency Spirit Response. Should probably have a once month class for that to just to retrieve parts of spirit. I know that when you don't have all your spirit, you feel like you're living a half life and you don't understand why it just doesn't make any sense, so. Okay. So everyone on chakra four, you probably pretty much through chakra four. Are you? 90, 80, 85 percent through on chakra four, so.

By the way, do you guys know we have a free class this afternoon, Opening to the light. Let me put this up for you so if you wanna pop in to the free training, you need to just register for it. It's winter solstice today and in North America, where I live, darkest day of the year and we have a class called 'Opening to the light'. So if you wanna join in and this is a community outreach class. So if you have friends who are curious about what you're up to, this would be a fun introduction for them to pop in to a class and it's complimentary. So feel free to invite your friends to get a taste of things and pacific time it's from 2 to 3 today.

And by the way, in the fourth chakra we're not really working on, again, divine connection. So we're on that heart center and working with the connection or the ability to have the connection. The god of our heart with the divine. So love can be a great stimulus and an awakening and as a matter of fact, the vibration of love is the vibration of the divine. So that pure love. [Inaudible 01:13:52] love perhaps or the god love. But all love comes in at a fairly high vibration. I tested songs and so funny but even those country western songs where, "She left me and I loved her and I'm broken-hearted." Those actually test pretty high energetically; the songs that sing about love, so. So many kind of love is good but unconditional love is great.

Cindy, "Is anxious and feeling different even after the work I've done. So what would she have to do to shift this?" There's a lock in bloodline for you experiencing. So having an experience of it. So the shift was done but the experience-- it's actually done now. So it's not like it isn't done but if you-- let's see. Bloodline. Looks like about 5 hours on bloodline. Anything else there? In DNA, how many hours? Wow. That's crazy. 5 hours on bloodline and 3 hours on DNA to clear that. So you have the feeling or sensation. So it looks like-- that looks like a protect mechanism that you wouldn't feel anything so you wouldn't go crazy or have mental illness or something like that. It looks like something was wired in by the clan to prevent you from feeling, so. I would clear that. 3 hours on DNA and 5 hours on bloodline. Tony, "Thank you. I had some strange feelings when you were in trance although I don't know what happened. I have as well strong feeling in my root chakra probably since we cleared that one which is an issue because life felt off and like survival." Beautiful, Tony. Thank you.

Cindy, it was 5 hours of bloodline and 3 hours of DNA on being able to actually have the experience of it because what it looked like to me was there was a protect mechanism from your family line that you wouldn't experience things like spiritual shifts. So that you wouldn't experience mental illness or something. So it looks like it was connected with, you know, a strong desire the clan to keep everybody sane on some weird level and it probably worked for the time it was but you don't need it anymore.

John, "Besides clearing the parasites in my head, what else should I clear so I can feel relieved from the attacks? Feels like I'm close to being free from the attacks then can really work on the other topics." Okay. I think the first thing John is to think of it as episodes, not attacks because I don't get that it's attacks. I think that it's episodes. Episodic. And I think work on timeline and cycles to clear the episodic events. So just like I was saying where look and there's a cycle that kicks in and then new plans and aliens or whatever jump in and put their mechanisms in but they're not there, they don't exist in me until that cycle kicks in and then the cycle kicks in and everything gets inserted in me. So I think that one of the things you wanna work on is removing the cycles and the timeline stuff that's going on and look at it as episodes. Stop saying attacks. So I would clear that. Alien 3. Type 3 and alien 6, seeds, portals. Seeds and portals seem to be still problematic. So I would work on that too. Okay.

John, "Really appreciate you." Aw. Thank you. I appreciate you too, John. "How many hours of clearing on cycles and timelines?" 22 hours. It's kind of exciting. We're coming to the end of a year, a calendar year, and a beginning of new year and I was looking at all the things I've been so incredibly busy that I've put to the side and really thinking about how I would stand for myself and I need to have enough hours on my day where I can actually do hours of clearing on myself so that I get everything I want to. And it's a really great time to be really thinking about how do you want to launch into your new year and how do you wanna complete the end of 2015. By the way, we have a wealth

acceleration class coming up on the forth and weight loss on the 6th. So if those are goals of yours and also I think grow younger cell regeneration made easy is starts at first week also in January. So I got a couple really 3 really fun classes in January to get you off to a really good start.

Okay. 4 is at a hundred percent and everything is cleared, and we're on 5 and the lowest function of chakra five. This function is 30 percent and the highest function 93 percent. 93 percent. So this chakra is at the throat and is the communication chakra seems to be working better at all of you that most of the chakras. So that's great. We'll have a little shorter time on this chakra which is good. Really good.

That would be the fifth chakra, John. We're about 80 percent through. We're making great progress.

3 hours but you probably wanna really kind of research what it is because if you don't probably won't really permanently clear. So you wanna check to see bloodline down to DNA and then also on like holographic inserts and all of that stuff because you can't just pump on something like that and I mean you can try it but I would think that it would be important to figure out what it was, so.

You're welcome. Okay. We're 84 percent. I see 5 implants. So some of you have implants in your fifth chakra. It's interesting 'cause it functions more but looks like there's some control mechanisms in there. So we'll clear those.

Three of you looks like permeations for three of you, I'll clear that. And just two of you are still so most of you are going on to the sixth. There's just two of you that are stuck. I'll just help with the two. The rest of you can move on to chakra six which is the brow center, center of the head and there's two of you that are little stuck. I'm gonna help you with unstuck this in the throat chakra, chakra of communication and everybody else is going on to chakra six. Okay. Chakra 5 is hundred percent for everybody and we're all in chakra 6 now. Go back to the image for a minute. So we're up here.

That's an interesting description, John. Let me see. Yeah. Your sixth chakra is definitely damaged. Exist on the back and it doesn't really look like it's in the front and yes we can restore and replace it while we're doing this process. So that's very likely now that I'm thinking of it the two of you that took a little longer in the fifth chakra, it looks like parts of it were missing or broken and that circular hand movement actually helps replace broken chakras or missing chakras.

You're welcome. Yeah. It's time to get spirit back and chakras back in working. It's important part of divine connection and just feeling great in your body. Oh."What are the percentages of the sixth chakra?" Oh thanks, Cindy. Okay. Thanks for the reminder. 4

percent is the lowest and 50 percent is about the highest, and , " Is that why I cease being able to feel cheek on muscle test etcetera?" I don't think so, John.

A hand in your eye. I can't see. Well you know the description sounds like the chakra but I don't see it related to this conversation, Tony. When I test, I don't get a yes, so. Hand in your eye so that you can't see coming from family. Tony, you know if you were wanting to open up your clairvoyance because I do see that you're blocked in your clairvoyance like that would be the seeing from your third eye or the center of your head, you could clear things like bloodline, evil spirit curse which probably is from family 'cause it's deliberately put on you, trauma and DNA. So those things if you cleared those things, that would help quite a bit.

Okay. And John, your sixth chakra is a hundred percent restored and the group-- all the group is at 100 percent. The sixth chakra out the front and the back, the brow chakra and we're going to just then work on the crown chakra and that just goes straight up the thousand petaled lotus and we're just gonna restore that; and the lowest function of the crown, 12 percent and the highest function of the crown, 92 percent. So we'll work on that one next, the crown chakra. Oh that's interesting, Tony.

Okay. There's seeds in some of your crown chakra. Permeation on one of yours. So I'll clear those. Seeds and permeation and then we should be good to go. We're at like 98 percent. Just a few of you had some gunk in the crown chakra. Getting that up right now. Yes, Cindy. It definitely connec-- affects divine connections. So we're gonna do the point of light invocation again once we've got this clearing in the crown chakra and let's just see if we can feel a stronger feeling activating as we now clear the chakras. And I'd like you to imagine chakra one, base of spine, maybe close your eyes and see a golden ribbon coming from chakra one to chakra two and it goes to the front just above the pubic bone and then the back that golden ribbon at the tailbone and then it goes up to chakra three to the belly button just an inch above the belly button and just above the waist land in the back across this over and it goes up to four base of the sternum and then ladies, it's at the bra-line; men just at the bottom of the wings in the spine and then five the base of the throat in the front and then the bottom of the neck, that little bump above the neck and the back. And the crosses up to the brow center between the eyebrows and then back of head and then the crowns.

So you have this golden ribbon doing this connection of golden ribbon to the chakras. So the chakras are now communicating and you can bring that gold ribbon back down if you'd like too, so it would go to river's way. It would go to the brow center in front and then in back and kind of make a big kind of multiple figure eights so down to the throat and back first and in front-- excuse me. In front first and then back and then the heart, the bottom of the sternum, and then the back and then the will, the belly, just above the belly and the waist. And then above the pubic bone and tailbone and then down to the

first chakra. So you've got this kind of, you know, infinity kind of experience or figure eight that. Goes a loop-dee-loop kind of. With the golden ribbon connecting all the chakras and the chakras are now communicating with each other and we're gonna now, if you'd like to open your eyes and then we're going to say the great invocation again and activating the chakras related.

So imagining that you are the divine and that light is streaming forth from your divine mind into the mind of all sentient beings as we say this. "From the point of light within the mind of the divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let the divine realm of higher consciousness be embody and fulfilled. Let love, light and power restore human kind to grace."

Okay and then we'll be clearing next: bloodline, Lucifer stops, soul contracts, demonic curses, evil spirit curses, satanic curses, group mind, group mind virus, black magic, atheist thought forms, trauma, emotions and DNA for both getting our vibration higher and for full function of the energy body. Living to our fullest expression of self in connection with the divine and so we're clearing. We did some clearing last week. This is slightly different than last week's clearing. So it should catch some other things and then we'll be using the doorknob technique for implants, holographic inserts, mechanisms, permeations and seeds if there is anything along the way as we're working on really shifting so that we can experience a higher energy vibration on a regular basis and feeling full function of the energy body. So there might be some settings or blocks to having your energy body in the chakras and/or meridians all of that at one hundred percent and living to full expression of self with a connection to the divine.

So we'll just be pumping for a little bit. And if you wanted to-- this would be homework 'cause we certainly won't get through all of this today, this clearing. Let's see. This would be about 5 hours of clearing if we got through it all. That would be fantastic wouldn't it. So you might want to and I'll send that out as homework but this would be 5 additional hours of clearing. So let's pump for about 5 minutes and then I'd like to activate your golden rings. And actually while you're pumping, I'm gonna start activating your golden rings. So this is your halo above your head and in a lot of religious art, there's halos you can see the golden rings around people. So I'm gonna start working on lighting up those golden rings for everybody.

You're welcome, Tony. While we're lighting up the golden rings. You're not pumping on parasites or golden rings. I'm working on your golden rings and you are doing this. That's what you're doing. This isn't parasite class. So we're not really working on parasites on this class. We're working on divine connection and raising your energy vibration. No, Cindy. Do whenever it fits in. Doesn't matter when you do it. I'm thinking while you guys are pumping to clear for your high vibration full function of the energy body living to the fullest expression of self with divine connection and I'm activating your halo, why don't we move to the love wisdom creed. We can say this together as we're pumping and activating.

"There is one infinite God/Goddess vibration of love that creates everything seen and unseen. This all prevailing presence is light, love, miraculous creation, and the sacred expression of inclusion. Divine love embraces all humanity, regardless of religious preference or any other human selective difference. Heaven is here on Earth."

"I am free to live a life of spiritual freedom and full self expression liberated in love, gratitude and mastery in this body here and now. My spirit is limitless. I am responsible for any limits I experience in this body and have complete access to the divine through prayer and contemplation to release myself from any human bonds I have worn as spiritual clothing that no longer resonate with my essence. I enjoy direct mystical access and divine union while practicing spiritual rites. These sacred rites belong to all humanity. In the Christian tradition, they are known as Baptism, Rebirth, the communion of Saints, the Sacrament of Communion and the Mystic bridal chamber. I follow the sacred path toward spiritual awakening, enlightenment, transmutation, and ascension in this life."

"I experience the presence of the Christed one known to me as Jesus the Christ. Jesus Christ was avatar, teacher, guide, and friend. I revere blessed Mother Mary, who is compassion, love, forgiveness and healing. I trust in the existence of the Holy Spirit who is essence living in me as life force. I trust in the reality of the Holy Ones, the Divine male and female deities who have sprung forth from all great and lesser known spiritual paths to teach and guide us on the path of Love wisdom. I'm ageless and timeless. My life continues in or out of this human temple I call my body. Whatever I've done willingly or unknowingly to myself or others that does not resonate with pure truth, can be washed from me through the power of forgiveness and the unending limitless power of love."

Okay and I think the halos are nice and lit up. Most of you have four. I think I've got four halos. So four golden rings are on right now and one person has five and everybody else has four one. That looks beautiful. You all got shiny heads.

And we're just gonna continue on with the-- as you're clearing the same list for high vibration. And so blocks to living into high vibration and thinking about high vibration as an inner and outer experience. So like we can turn the golden rings on and we can raise your energy vibration but you actually have to, on some level, earn it. You know like you have to understand it and shift and move into that higher vibration. That's the true way to really experience it although we're improving everything. So if there was blocks, we're improving everything. Cindy, "Bloodline and DNA I need to pump to clear not connecting with the divine." That's-- I think that's what I said to you before, right? I gave you hours to clear. And it's not about not connecting with the divine, it's really just about removing the block between you and the divine 'cause you actually do connect with the divine, you just don't experience it.

And we're gonna have you pumping as homework. So I'd love to take you into a completion meditation now and you can pump if you want to but just find a comfortable seated position with your spine erect and your feet firmly on the floor. Opening your feet chakras to Earth energy. Bringing Earth energy up through your feet, ankles, shins, calves, knees, thighs, out the hips and down the grounding cord and bringing cosmic energy into the back of your head, one inch above where the spine meets the skull, and bringing that cosmic energy down through your neck and your shoulders, your arms, elbows, forearms, through the wrists, hands, and out the fingertips and bringing more of that energy down through your back channels. Looping through the pelvic cradle up through the belly, through the chest, through the neck, through the head. Fountaining out the top of the head like a beautiful Italian fountain bathing and cleansing your aura.

And just breathing in through the nose and out through the mouth. In through the nose and out through the mouth. Send a grounding cord from the base of the spine to the center of the Earth. Make the grounding cord nice and wide. Set the grounding cord on release and release the excess energy in the body.

Ground the male and female bodies with a line of energy as wide as your wrist, hallow in the center, then from your testicles down to the center of the Earth; women from your ovaries to the perineum down to the center of the Earth. Set your male and female bodies on release and release any control energy, any healing projects. Just let it go. Going up to your adrenals that sit just above the waist line. An inch up from the waist, two inches off the spine, sitting on the top of your kidneys like acorns with little hats. A line of energy as wide as wrist, hallow in the center from each of the adrenals to the first chakra and then down to the center of the Earth. Setting the adrenals on release and then connecting with one more line drawn up to the brain, the survival brain, and clearing out the survival brain down through the adrenals and then down through the perineum or first chakra and down in the center of the Earth and we're just doing a full diamond clearing of survival.

And popping up to the center of the head. Sitting in the center of the head, activating both the crown chakra and the golden rings halo allowing that experience of divinity,

your divinity, to connect to you now with the divine. Sitting in silence and feeling that the crown chakra at 100 percent open and spinning. The golden rings active, vibrating. Your center of head clear and quiet. Feeling the presence of the divine. Feeling the bliss, the happiness, the joy, the love that flows from the divine to you. Glowing any excess mental energy to go down the grounding cord. Allowing the mental body to come into balance.

And just feeling the presence of the divine as you're coming back into your body as a spirit filling-- really filling out your fingers and toes, your arms and legs, torso, neck and head, and feeling of filling of gold energy, divine energy. Filling all the way through you whether a big pot of gold is being poured into you. Liquid gold in your filling up as a vessel fills; as a goblet fills with beautiful gold god energy. Filling up, filling up, filling up until you're completely filled with this God energy. This divine connection. Feeling happy, feeling peaceful, feeling serene, feeling the presence of the divine in you expressing through you. Breathing in and out. Coming back into the room. May it be with the blessings of the Supreme Being that this healing meditation is complete. May the entire world be filled with radiant health, vitality, abundance, joy and peace. To task to; so be it. And welcome back.

So we've come to the completion of our time together in divine connection. It's been blissful working with you and I know there's more to do and more to come and I'm just so honor and joyous and delighted that we're together and that we're on this path together making magic happen. I'll send out the homework. So not to worry. You each have about 5 hours of clearing or perhaps four. I'll write that in the message and we'll see you real soon. Hope to see you this afternoon on the call today, the free call, and I love you and I'll see you soon and Merry Christmas to all of you and okay. I'll be in the chat box for a few minutes. Okay. Buh-bye everyone. Oh. There's videos if you wanna see what's coming up the next few classes. I asked my producer to put a few videos up for us.
