

Illumination - Part 2

Good morning and good afternoon/good evening wherever you are. This is a blessed and beautiful day today. Now, we will be doing the challenging mysteries today and my intuition said, "Let's go ahead and clear some of the religious pictures before we do the rosary." So we'll spend the first half hour or so doing some clearings. Do sign in and let me know that you're here. We have an intimate and beautiful class. There's such high energy in this group. It's amazing. And take a breath in and just let yourself settle in and feel the presence of the divine. Rubbing your hands together in front of your heart chakra. Creating some spiritual energy, some heat, some topos in the hands then putting the right hand over the left hand on the heart and affirming to yourself, "I love myself. I trust myself. I express my unique self." And just allow that feeling of being present with yourself. Really tapping into the presence of the divine and coming in to-- Oh no. Oops. Presence. And just continue to be relaxed and I'm gonna put an image on the screen and we'll get started in just a minute.

Okay while we're waiting for folks to come on to the call, I'm gonna begin with some clearings which will be in the replay for everyone and the first clearing, as we go through the challenging mysteries and in the Christian tradition, the challenging mysteries are also called the sorrowful mysteries. So they're the ones that are-- the difficult parts of Christ's life and Mary's life. And so let's go ahead and take a look at the first sorrowful mystery or the challenging mystery, which is religious and group mind persecution. And so we see in the story of Jesus in this mystery, we see persecution. The crowd has turned against Jesus. He's being judged and he's being, you know, were the week before he was honored and people were excited to see him on palm Sunday; all of the sudden, people have turned against him. And so if it's possible that you too would have a situation where you've gone through religious or group mind persecution. And so this could be clearing that we could do and actually we'll go through the whole list and then we'll do a clearing for the whole list; to the whole five mysteries.

So the first mystery clearing will do is religious and group mind persecution; and then the second challenging mystery is dishonor and public humiliation and whether in this life or another, you might have experienced some trauma, some difficulty, some challenge. And so we'll be clearing dishonor and public humiliation and especially as it relates to religion and spirituality. And then the third is the crown of thorns, and the crown of thorns-- there we go. Just added an 'e' there. Is really the mental piercing or the mental difficulty. And so when we look at a crown of thorns on when we look at it from the quantum activations, we look at things that would pierce though the mind and cause grieves. So that would be mostly curses, evil spirit curses, demonic, satanic curses, curses from others and so that those thought forms that cause pain. And then we'll be also clearing burdens and the weight of responsibility. This is an image of Jesus carrying the cross. This heavy burden of carrying the weight of the world on your

shoulders and so there might be times or there might have been times where you overburdened and carrying the weight on your shoulders and that might still be a cycle or a timeline to go off. So we'll be clearing burdens, the weight of responsibility. And finally dying or being crucified and you might have been in some lifetime persecuted or killed or burned up the stake or, you know, somehow destroyed, your physical body destroyed.

So we're going to start with quantum pumping. So-- and good morning to Tammy and Anne. I see that you got on the call. Fantastic. We're having a little delay here, so. Let's go ahead and start working on the lineups. So just to go through it one more time. What we're gonna be pumping for is dying-- let's see. So let's start here. Religious and group mind persecution; dishonor public humiliation; crown of thorns which would be curses; burdens and the weight of responsibility; and literally dying of being crucified. So let's start with some pumping as people are joining us. So everybody can be pumping here to just-- I was thinking that before we start in with the mysteries, it would be really great to clear any kind of matches or feelings around these issues of persecution and suffering. So again: persecution, dishonor and public humiliation, crown of thorns, curses, group mind, things that are put on us that we didn't choose to have, burdens and responsibility, and dying and being crucified. And how many of you have thought that maybe that was part of some of your history. At least one or two of those items. So if you feel like you could relate to that on some level.

And a good indicator, even if you're not as intuitive as you'd like to be, is if you feel quite weepy when you think about one thing or another like it brings up a strong emotion. So if, you know, during the Easter service when they're talking about the crucifixion and you end up sobbing, it could be that you were also crucified and it stimulates a deep part of you in your spirit and-- so. So we'll just clear for a few minutes as we prepare to do the challenging mysteries and this is so beautiful sandwiched in between joyous to glorious and of course, very much part of the life of Jesus and the life of each person. Each person pierces through their ego and pierces through, you know, the difficulties. We each have to go through suffering and challenge to be the amazing people that we and don't be, so. This is very wonderful to get this cleared.

So we'll clear for probably 10 minutes. When you think about, "Well, what am I clearing?" We look at all the things related to group mind and it could be that you're clearing-- when I do this, I'm doing for the group. You're gonna do this. So I sometimes let my hand go below the screen so I can clear faster but this is what you're doing for yourself. So when we're clearing-- one of the things that we really wanna look at with religious pictures is bloodline and then group mind and group mind virus. Those seem to be really, really strong players. You can also look at permeations and holographic inserts; those can also be things tied into religious persecution. Seeds can be tied in to

persecution and religious persecution. Then we have the demonic forces and satanic forces. So you wanna clear all of that also.

And it's so beautiful to be preparing for the holidays and really enjoying the divine connection and the connection with Mary and Jesus. And in this week, we really are connected to and understanding that even when we're suffering, we're making great strides in our spiritual life even if doesn't appear it that way. I love the quote from Rusty Bucos, "No matter how things seem to appear; life is still working perfectly." And so we're always getting what we need to take the next steps in growth process and sometimes the impotence change is out of suffering. See if I can include some songs. One second here. So thinking let's put this up.

And while we're pumping, maybe we can sing a couple of the Mary songs I have. Let's see here. So we'll add-- oops. Add to that PowerPoint. There we go. "There is a softness about her, Sweet mother Mary, I can only respond to her in love." Let's try that together. "There is a softness about her, Sweet mother Mary, I can only respond to her in love. There is a reverence surrounding her, Precious mother Mary, I can only respond to her in awe." Let's try that again. "There is a reverence surrounding her, Precious mother Mary, I can only respond to her in awe. There is such a holiness, there is such a holiness, there is a holiness, pure precious holiness. My heart's filled with ecstasy, my heart's filled with ecstasy, my heart's filled with ecstasy, With mother Mary as my guide." And just keep pumping. See if we can find another Mary song to have here. Let's see. This is a Mary song too.

And just keep pumping. We're clearing all of the religious persecution as we're, you know, going through-- getting ready/preparing for the challenging mysteries. And here's another beautiful-- oops. Too much energy on my hands. Here's another beautiful Mary song that we can enjoy together. "She comes to me in early morning, When all is quiet, when all is quiet, Before the birds have awakened, To sing their sweet song, to sing their sweet song, to sing their sweet song, to sing their sweet song. There she is my Holy Mother, Giving me comfort, giving me sweet rest, I long to be with her, to serve her in spirit, Long to take refuge from this human form, Who cares when ones of us are struggling? When life feels so desperate, when life feels so desperate, when life feels so desperate, when life feels so desperate. Who cares for the broken-hearted? Who cares for my soul? Who cares for my soul? Who cares for my soul? Who cares for my soul? When all is quiet, she sings her sweet song, when life feels so desperate, she cares for my soul."

Alright my dears and we're going to start now with the rosary and so we'll change screens here and we've done just a little clearing. You might wanna do more clearings on clearing religious persecution. There's certainly more to go but I think we can get started on beautiful prayers that we'll be doing next. So let me just pull that up. There

we go. Uno momento. There we go. One sec. I'll just have to get it set up right. There we go. Alright my dears. Interesting morning. We got music playing here. Let's move that away from.

So we're gonna start with the challenging mysteries and let's go ahead and-- there we go. Alright. And saying the challenging mysteries, let us begin looking at the cross and you can cross yourself and in the name of the father/mother, son, and holy spirit. Amen. The love wisdom creed. "There is one infinite God/Goddess vibration of love that creates everything seen and unseen. This all prevailing presence is light, love, and miraculous creation, and the sacred expression of the inclusion. Divine love embraces all humanity, regardless of religious preference or any other human selective difference. Heaven is here on Earth."

"I am free to live a life of spiritual freedom and full self expression liberated in love, gratitude and mastery in this body here and now. My spirit is limitless. I am responsible for any limits I experience in this body and have complete access to the Divine through prayer and contemplation to release myself from any human bonds I have worn as spiritual clothing that no longer resonate with my essence."

"I enjoy direct mystical access and divine union while practicing spiritual rites. These sacred rites belong to all humanity, in the Christian tradition they are known as Baptism, Rebirth, the Communion of Saints, the Sacrament of Communion, the Mystical Bridal Chamber. I follow the sacred path towards spiritual awakening, enlightenment, transmutation and ascension in this life."

"I experience a presence of the Christed one known to me as Jesus the Christ. Jesus Christ was avatar, teacher, guide and friend. I revere blessed Mother Mary, how is compassion, love, forgiveness and healing. I trust in the existence of the Holy Spirit who is essence living in me as life force."

"I trust in the reality of the Holy Ones, the Divine Male and Female Deities who have sprung forth from all great and lesser known spiritual paths to teach and guide us on the path of Love wisdom."

"I am ageless and timeless. My life continues in our out of this human temple I call my body. Whatever I have done willingly or unknowingly to myself or others that does not resonate with pure truth, can be washed from me through the power of forgiveness and the unending limitless power of love."

"The Lord's Prayer. Oh magnificent source of everything, breath of life, you how are the realm of sound and light, may I experience your glorious nature in my essence. The veil between heaven and earth becomes transparent in this realm. In my great gratitude and love, I ask that your divine will become the guiding truth of this wondrous human

domain. I am profoundly grateful for your guidance, moving my thoughts and actions towards embodied wisdom and understanding. I celebrate your generous assistance in manifesting my daily needs. Detach the fetters of fault that bind me karmically and support me in discovering the deeper blessings of challenge and discordance. Point my focused direction to contribution and depth, free from those actions that take me away from my highest expression of self. You are source of pure truth, power, grace and beauty. You are constant throughout the ages of human kind. Sealed in trust, faith and truth. Amen."

Three Hail Marys said on the set of 3 beads as we invoke the Light, love and spiritual power of our unfolding essence. "Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. "

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

The first challenging mystery is the agony in the garden said on a large single bead. "In this scene of solitary prayer in the garden of Gethsemane, we observe sleepy disciples who cannot seem to stay awake or hold the space to support the Master. Jesus is in prayer facing his immediate future at moments slips into negotiating with Father/ Mother God for some other alternative choice. It reminds us of a higher unknown plan. This plan may appear beyond our human conscious understanding. Our wondrous opportunity is to embrace what we have been gifted and what has been set up for joyous-- for ourselves joyfully. We can take comfort in the idea that even the Holy Ones had moments where they were in question of the plan, and know whole heartedly that no matter how things may seem to appear, they are still working perfectly. Nothing happens without cause, there are no mistakes. There is purpose and blessing in everything. As we are lifted out of human persona and view of the mundane existence, we are gifted a foundation of Love-Wisdom and God purpose in our lives."

"From the point of light within the mind of the Divine. Let light stream forth into the minds of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the heart of all sentient beings. May absolute Christ love be realized on Earth. From the center where the will of the Divine is

known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let the divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace."

"Ten Hail Mary's as we reflect on the love wisdom that sustains us and the unending energy of spirit to propel us with great momentum through our moments of despair, towards restoration. Comfort and trust replaces fear as we surrender our uplifted hearts to a higher plan."

"Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen."

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

The second challenging mystery is Jesus visibly dishonored in the temple. "This event reminds us of the pain and suffering of the human condition. Perhaps the story would have played out differently in this new era of light and love. Our day is so different than 2,000 years ago and the populace of Jesus time needed the inspiration of a selfless martyr to move them on the path of dedication and devotion. Jesus suffered-- Jesus surrendered to the moment and served his era and followers whole heartedly. What was

inspiring then from our new perspective may appear puzzling. Against the new backdrop of empowerment, accountability, easy access to the divine source we've come a long way. In every age, a devotee following the path of Love and Light will meet moments of challenge. As we awaken to our spiritual nature, we begin to release old harmful patterns and programs. We take our place as wise elders, building our nature and identity with our highest spiritual expression. In this spiritual nature, we partake in divine grace. Our expression becomes one with Love-Wisdom and our actions and interpretations reflect cherishing, honoring, love and respect for all."

The great invocation. "From the point of light within the mind of the Divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized here on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human grace-- human kind to grace."

Ten Hail Mary's as we contemplate on the wise elder wisdom needed to see beyond the illusion of all imperfection-- imperfect situations. We release our attachments, addictions and willingness to blame others. Through detachment, neutrality and compassion, we emerge from the fog of muddled instability into the light of a higher perspective."

" Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you

throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen."

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

The third challenging mystery is Master Jesus crowned with thorns. "The challenging mystery brings us through an important spiritual step of piercing through the mental body and ego. Jesus is crowned, around the head with thorns. His non-resistance, and acceptance, allows him to move through to the other side, where spiritual liberation is at hand. By embracing each challenge, our personal crown of truth is embodied. Courage and trust must be present on this journey of initiation."

"From the point of light within the mind of the Divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized here on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace."

Ten Hail Mary's as we reflect on manifesting the crown of truth, releasing mind chatter, lost focus and delusion, moving powerfully towards clear thinking, serenity, ease in the mental body. Courage builds faith and trust. It anchors the heart and the emotional body with divine love. This resulting confidence solidifies self-assurance and the knowledge that all is in order regardless of how things may seem to appear. By taking this step, you have directly opened your crown to the connection with the Supreme Being.

" Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out

of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen."

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

The fourth challenging mystery is Master Jesus carrying the weight of the cross. "This memory reminds us that we are never alone even in the most difficult moments. When Jesus stumbles from the burden, the divine sends one to carry the cross for the duration of the journey. We grow with the challenges of life throughout strength and weakness. We quest towards the fulfillment of harmony in spirit and body, emotions and mind. This reminds us of the importance of spiritual practice and the consistence in both the mundane repetition of daily life and moments of ecstatic union. As we find gratitude for the life we live in all its varied states, we are transformed."

We join together in saying the great invocation. " From the point of light within the mind of the Divine. Let light stream forth into the mind of all sentient beings. Let light complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized here on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace."

Ten Hail Mary's as we reflect on manifesting the crown of truth, releasing mind chatter, lost focus and delusions, moving powerfully toward clear thinking, serenity, and ease in the 4 mental body. Courage builds faith and trust. It anchors the heart center and the emotional body with divine love. This resulting confidence solidifies self-assurance and the knowledge that all is in order regardless how things may seem to appear. By taking this step, you have directly opened your crown to connection with the Supreme Being.

"Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen."

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

The fifth challenging mystery is the Master Jesus(human), dying on the cross. "Our Christian tradition teaches us we must die to the lesser to be one with the higher. In this 'death', we make our passage by releasing the ego, opening up to the state of unconditional love and oneness with everything and everyone. The movement can be difficult, the results profound. We attain spiritual freedom. As our lower nature dies off, we are welcomed into the company of the mystics and holy ones of all traditions."

We join together in saying the great invocation. " From the point of light within the mind of the Divine. Let light stream forth into the mind of all sentient beings. Let light

complete the Earth. From the point of love within the heart of the divine. Let love stream forth into the hearts of all sentient beings. May absolute Christ love be realized here on Earth. From the center where the will of the Divine is known. Let divine insight guide the resolve of all sentient beings. The source wisdom the masters know and serve. From the center which we call the race of humanity. Let divine realm of higher consciousness be embodied and fulfilled. Let love, light and power restore human kind to grace."

Ten Hail Mary's as we reflect on the difficulties that appear to slow us down on our eternal quest. In these moments of difficulty, our resilience capabilities surface. Fortified with dedication and devotion, we meet our challenges with strength inspired and encouraged by the Holy Ones who have traveled the path before us to light the way.

" Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen. Hail Mary, Mother of humanity, all Deities Love Thee, Blessed are you throughout creation and blessed are your children on Earth. Holy Mary, Mother of the Highest One, Nourish us with wisdom and inspire us through our experience in and out of body. Amen."

"Glory be to the Father/Mother and to the Son and to the Holy Spirit. As it was in the beginning, is now and ever shall be, world without end. Amen."

Final Prayer. "Hail Holy queen mother of mercy. You are guide, sweetness and hope. It is to you Mother Mary we turn our open hearts as awakening children of Ever and to you, Beloved Sister, that we respectfully make our requests for assistance, invoking your love-wisdom. We implore you look upon us with your gracious eyes filled with compassion and understanding. In our period of growth, support us in expanding our vibrational bodies to the realm of Love Divinity. Oh clement, Oh loving, Oh sweet Mother Mary! Pray for us Oh Holy of the Christed one, that we may embody and experience the promises of Christ as was intended for us from the beginning. Amen."

And as we come to the completion of prayers, I'd like to take a few moments now to just go into the silence. Into the stillness. Into the presence of Mary, Jesus, the Supreme Being, Mother/Father God and feel that love and support. That spiritual presence. Feel the effervescent energies in your body. Feel your spirit happier than ever to be inside your body. This human existence becomes more pleasurable as you connect regularly/routinely with the Divine. Going to go in to a 5-minute silent meditation.

And welcome back to your life. I just want you to just come back to the present moment now after that beautiful reflection of the challenges-- the challenges of Jesus and Mary's life but specifically Jesus' real suffering. And over there you are watching someone suffer or you've gone through suffering yourself. This is the state of being that so many of us have gone through at some point in our life. And to actually reflect on this-- you know, these challenges and how they relate now in present time. How they fortify us. The challenges make us stronger. They bring out our resilience and our magnificence and that we really grow in the challenges.

I wish you very blessed and beautiful week and look forward to seeing you next week on Christmas eve for the completion of our beautiful rosary experience. I love you. God bless. Have a magnificent week and I will see you next week. Buh-bye for now. Love you.
