The diagram illustrates the human respiratory system. It shows the nasal passage leading to the oral cavity, which connects to the pharynx. From the pharynx, the airway splits into the larynx and trachea, leading down to the bronchi and then the lungs. The heart is shown in the center, and the ribs are visible on the sides.

The Human Respiratory System

- Nasal passage
- Oral cavity
- Pharynx
- Larynx
- Trachea
- Bronchi
- Lung
- Heart
- Ribs
