

Quantum Removal of Infection - Part 3 of 5

Hi and welcome to the quantum removal of infections training-- Oh. Lots of you have already signed in. Welcome. We have a long spinning, spinning, spinning. Adelia is on clothing struck today, so she's in her jammies. She's said no clothes. So, sometimes, I have that feeling too. Like I'd like to be having a no clothes day. So, she's having a jammy day. So, welcome, everybody. Yeah. That's right. Welcome, everybody. We're going to get started.

Let's see here. So, I've just been working on something that we talked about last week. I'm going to show you that in a little bit. Oops. Just a minute. Yeah. We just had it simply come up on the screen. We have to take care of her or we're going to lose it. We don't want to lose it.

Okay, sweetie. Down. Sorry. I don't have [Inaudible 00:01:08]. I'm just going to put some title there and then we'll fix that later. Okay. So, that was something that I'm just working on with the viral infections. How they come in. Who's bringing them in and all that stuff. So, let me get out chart up. Okay.

So, today, we're on fungus. The fungal infection and that we'll just keep clearing and keep going through things. And the chart today is doorknob. So, if you wanted to start right now with doorknob, that would be fine. And we're going to just start as we always do with a prayer.

Mother, father, god, angels, golden legions, guides, gods, goddesses, saints and sages of the greater and lesser tradition. We thank you for your presence on this call and for all the healing our bodies have experienced. We thank you for the profound awareness. The depth of what we're learning and understanding. How we're beginning to turn this what feels like magical quantum activation into real science that can be translated and replicated with good results over and over and over again.

We thank you so much where the out pouring of knowledge and wisdom. We thank you for the activation of good health and the restoration of knowingness. Of knowing that our bodies are meant to live hundreds of years. Knowing that we have inside us the formula, the recipe, everything we need to clear and remove that which is no longer serving us and really move into dynamic, youthful, vibrant, and beautiful radiant health.

We thank you for stimulating goodness in us. Stimulating awareness in us and stimulating our intentions, our wishes, our hopes, to create something better for our self, our families, our friends, our clients. We love you. We thank you for holding the space for this day. A day of clearing fungus. A day of beginning to understand how viral infections come in.

And beginning to look at things in a whole new way. Thank you for the air we breathe, the water we drink, the people we love and the people who love us. We thank you for our families, our friends, our homes, our cars, the land we walk on and enjoy. We thank you for the birds of the air and all the sentient beings of this planet including those of the water. We ask you keep us safe and keep all beings safe. Amen.

"I am free to live a life of spiritual freedom and full self expression liberated in love, gratitude and mastery in my body here and now. My spirit is limitless. I'm responsible for any limits I experience in this body, and have completely access to the divine through prayer and contemplation to release myself from any human bonds I have worn as spiritual clothing that no longer resonate with my essence."

And then the call to lighten as we lighten and release infections and we raise our awareness to a much higher plane. We sing: "Soft the night and sweet the spirit, Gentle voices call our song, We are magic we are wonder, When we live beyond the veil. Human kind please raise your thoughts, Bring a plane of peace and love, We the guardians of the pilgrims, We the authors of the play."

We are in the third trainings. So, right in the middle here. Fungus. And compassion is the answer to fungus as the opposite. So, where you have hate and love as opposite, the dichotomy. The dichotomy of fungus is compassion and we're going to look at that now as we continue to clear programs. Anything that allows a fungal infection to stay. We're going to work on spiritual inferences, infections in cells, and activate a higher frequency vibration in the body to stave off the fungal issue.

Identifying and clearing needed for transformation. So, that is what we're up to today and now we're going to go to the chart. Okay, sweetie. Just a minute. Let mommy change the screen, okay? Alright. So, everybody, I'd like you all doing-- just a minute, sweetheart. I'm going to make this a little bit bigger so people can see better. Are you being a good girl today? Okay. I like that. You're being a good girl. Good. Okay. Up.

And in six days, Adelia starts preschool. We've got her school come out really soon. Right, permission, and ability to be free of all fungal infections in my body. Degenerative fungal programs and information reducing my immunity. Resilience to experiencing. Fungal infections permanently disappearing. Anchors, interferences of all kind, DNA influences, programs for these infections, and auto-immune components.

To reset the patterns with cellular neogenesis at one hundred percent feeling and function in these wonderful-- in these areas. So, wonderful with permanent improved results. Removing altering, amalgamated, apathetic, controlling, damaging, delusion, disgust, evil, intertwined, observing and suppressing. It affects a lot. Perception, essence, matter in a different way.

So, I put matter in a different color actually on the chart because I got no like three times on matter and yet we see it in matter. The reason, I think, it's because fungal infections appear in the seventh dimension. And so they-- that actually why it was so difficult to treat like Western medicine has a really hard time because it's not in the dimension that you are in.

So, we are clearing the area of matter but in a unique way through the seventh dimension interaction. We're using doorknob. Flutter can also be helpful especially with stuckness and we think about that. When you've-- if you've ever had-- I had many, many years ago I used some fungal medicine for my toenails. That just felt so stuck in. It was just so hard to get out.

And at that time, way before I was doing quantum activations, I imagine the toenails falling off and you know, toenails growing in that didn't have fungus. Sure enough that was what I was able to accomplish-- the toenails-- which I wouldn't recommend for anybody. But I just imagine them and they did, you know, they kind of got rotten and the whole toenail fell off and a brand new healthy toenail came in. So, that was what I did. Gosh. More than like twenty years ago I did that.

There's a lot of spiritual interferences especially that last column. A lot of demonic stuff with fungus. Malicious, angry, falling apart, cruelty, angel of death, demon, Satan, status hold, despair. So, fungus has a pretty will destroyer. Suppressing uplifting happy emotions. It's just a whole lot of stuff if you're looking at that chart. I will put it in the chat box.

It also is already in support if you need it or in trainings at julierenee.com. So, if you need the chart before the class is over, you can reach out and they'll send you the chart, but it'll be up-- it should be up pretty soon in the next short while because I sent this off about an hour ago already.

And the other thing that I was anxious to show you. So, everybody now is doing doorknob. Everybody's clear we're all doing doorknob. If you have physically doing doorknob for the full hour, you can switch to the inner thigh pump which we do. I'll show you that in a little bit after I go through the other chart. I did give you already fungal infection directions on how to work with fungal infections if you have them. Mild, moderate, or severe. That's already in the chart too.

Okay. And then we're going to take a look at something else I'm working on. Since I didn't want to disappear at the beginning at class-- Oh. Let me just-- it looks like it was getting away from me. So, as promised, last week I was really aware of something very different and it might also apply. I wanted to test fungal infection because the fungal infection feel the same as the viral infections. They're not natural to the body. They don't naturally occur.

So, we might also add some fungal infections to the viral infections here that are created or manufactured or somehow developed. So, I just started this morning on this chart. I've been percolating on it and thinking about, "Well, what do we want to look at." And what kind questions we want to ask about these kinds of infections.

So, infection name, area of the blueprint, and what dimension is it affecting us. It's just really aware that dimensionally, I think that's part of the reason sometimes things are hard to clear because we're clearing in the dimension whether we're in the fourth or fifth dimension. Most of you are in the fifth dimension at this point.

But we're clearing in our dimension and I think when you understand that you're clearing in the eighth dimension, you just have another leg up. You have more power up. If you know what dimension this is appearing in. So, herpes appears in the blueprint and matter. Embodiment, and remember that embodiment is the, you know, it's like the soul, the chalice. From the body to support the spirit to be there.

So, herpes appear in that dynamic which is really interesting because when I look at that because embodiment is the relationship and protective relationship of body to spirit. That's body to spirit. And then amplification, law of attraction field. But look-- when we look the relationship. So, if herpes was created by Satan before as a kind of demon, that's how it anchors in, there are anchors for herpes.

But the relationship enveloping body to spirit, it causes suffering, torture, hopelessness. It activates the death is better program. Decays relationship. Activates chain, embarrassment. Causes a great deal of stress, emotional stress, physical stress, and some massive complications alike. And then I looked at the things that we ask like in spiritual interferences. What are the spiritual interferences getting out of it.

This is getting control, it exerts pain, it interferes with regeneration, it is able to revert, and stimulate compulsion. How it's created-- it's design. It imprints and is inserted and is a receiver. That illness itself. Herpes itself. The virus itself is a receiver.

I was able to get the nature of. I will obviously be getting the programs and spiritual interferences that aren't here yet. Apathetic, cruel, delusion, dominating, intertwined, satanic, and suppressing. So, this is a different way to look at things. A new approach that I think as we look and now we can just scroll down. I was just starting to begin this chart I wanted. Obviously, to get your clearing chart for today done.

The HPV viruses in the fifth dimension. It affects matter, genesis, and amplification and then I'll get the spiritual interference that brought it in but it's a type three. The fifth dimension, it was developed. It's a virus that was developed. It's imprinted into and is a receiver. And actually, all of the ones that I wrote, I did five here. They're all receivers which was fascinating to me.

Hepatitis. Hepatitis is-- it affects matter, embodiment, and amplification in the third dimension. So, a lower dimension. Manufactured and punched in. Is a receiver. HIV, AIDS, matter, and genesis which is really interesting. I'm very fascinated with this whole exploration. I think each one of these will have its own page. It's in the third dimension. Created. It was created. It's overlaid and inserted into the receiver. It's in our matter, embodiment, and amplification in the sixth dimension. Created, imprinted, punched in, and is a receiver.

So, I'm just showing you. I'm just starting to work on a way different new way of looking at infections which is more similar to the way that we approach the spiritual interferences and anchors. It's very much a passion of mine to map this out. So, overtime, we'll be mapping out all the infections that have been created, manufactured, and developed that are in us.

So, I think we've started with-- and we might ask the question of every single infection. Not the spiral and fungal infection but every infection one this manufactured. Adelia, no hurting mommy please. Okay. Be a good girl. Just because people can't see you being naughty doesn't mean that you aren't being naughty. Be a good girl.

Adelia combed her hair today and she do a nice job. She took a brushed and she brushed and brushed and brushed. Did a really good job. Yeah. She's a good girl. Can you say good girl? Yeah. Good girl. She got new pajamas yesterday. There's-- they're forty. They're so comfy dress. Kind of smooth and they're super soft. I think that's part of the reason she wanted to stay in today. Okay.

So, receiver, for Particia asking in the other classes we're looking at, "Is it a transmitter or receiver?" And so herpes with an anchor can receive information from spiritual interferences. So, it can-- like a spiritual inference can deliver information through the illness. As is the illness were like an anchor or spiritual interference.

Now, I'm looking at it for the first time. So, I'm not a complete expert on asking the questions of the universe. I'm looking at the illness itself. I'm testing what's true and I'm starting to see like a completely different picture about why this stuff exist. There might be another question that we ask; why are certain people receptive to certain things and not-- and don't get other things.

So, that-- you know, I mean there's some medical reasons I know. They feel if you have a particular make up that's more acidic and so I know that you're more prone to like arthritis and cancer. That all those kinds of illnesses go towards a particular body type or you produce more cyst than tumors. That's all kind of the same kind of body type.

And so we're going to be asking questions as we go through the year. As we go through the next. This training and the next couple that are coming up. We're going to be asking

new questions. Questions we haven't asked in the past. Questions like why was my body be acceptable and accepting of this? Why would I not be resistant to this? Or how can I be resistant to this?

And I think I know, with absolute certainty, my body will not have cancer again and it is so completely aware of that and even if I have the body type, I've been working on shifting the body type. So, not the body type anymore for receiving that kind of thing where it runs in the family. Everybody has cancer and not just DNA. I think it's more than just DNA. It's body type.

But you can override your body type just like you can override cycles. For example, when we start thinking about astrological cycles. I have people show me my astrological chart and it doesn't really relate too much to who I am now because of course, I've died a couple of times and there's been lots of other things.

I had a Vedic numerologist. An old gentlemen from high in the Himalayas tell me in my thirties that I've already lived seven life times. And that the charting that I had and the numbers that I had weren't that accurate. Like the astrological chart weren't that accurate. That it wouldn't-- yes.

There would be some things that might still have effect but my personality, the way the things played out in life, the way that I understood them was very different than the lower chart that I came in with to come in with that lower family. With all that violence and abuse.

There was something else I saw just a few minutes before I started class and I should've written it down. It has something to do-- oh yeah. Let me talk to you about this because I think you're going to be fascinated by this too. So, one of the things that we look at is entitlement and why people won't get the big change for entitlements. But there's a special kind of entitlement that might even be a bit invisible to you and that would be a parental entitlement.

A mother's entitlement like she gave birth to you because you were going to take care of her in her old age. You were going to take care of her needs and her emotions and this is the reason that she gave birth to you. That you were designated that role. And you might not even notice or you might have noticed since, "Oh. I've broken free from that. I'm no longer in that role. I don't play that role anymore. I'm you know, separated from my mother." And that the entitlement from birth and from pre-birth run very, very strongly whether you're related to her or not. Those entitlements keep running.

And so what you want to do is if your mother had entitlement on you that said, "You're going to give to me and you're going to give to everybody else and you're going to be

my servant and my slave forever." And then she speaks to you with her mother prophecy, which we just added that program. So, she tells you how it's going to be.

She tells you, "You're going to have you know, brown spots all over you. Your boobs are going to be down at your knees when your seventy." You know, I can think of all the negatives. My mother is a constant prophecy. If this is going to happen to you. You're still young yet but all your hair is going to fall off and all your blah blah. She goes on and on and on.

So, that mother prophecy with the entitlement. If you cleared-- if you just cleared mother prophecy, which I had written down because I'm working on this. This is really amazing to me. So, I was looking at mother prophecy and mother entitlement. So, if I've cleared mother entitlement for five hours, my clearings would dramatically shortened because my mother is riding off of some of the clearings that I do and actually forcing spirit to have people in my space that are abusive or negative.

And so this is just-- I've been kind of unraveling this because there's a person who's a little bit like a stalker who was a student and she's still in my space and she's not in my blueprint. She's not in my field and my body and she was chording into my work. She's chording into my work. By how in the world was she seeing me on the astral and hanging around my spirit at night which she said she does. I was testing that that was true.

That comes from that mother entitlement. Mother pushing my spirit to do things and you know, I'm a very big spirit. So, I'm doing lots of other things too at night. But, she has this kind of like I have dibs and ownership on this part of you. Sorry. I'm waving a pen at you. I don't mean to do that.

But I just was finding this so, so interesting. Just unraveling more details about why things work really well when they do and what we can do to make things work much better when they're not working as well as they should. Okay. I'm going to put the chart back up and then we'll continue on now. We're working on, obviously, we're working on fungus. Oops. Did I pick the wrong-- no. I put the right chart.

We're working on fungus. Here we go. Yes. I share all of these and I feel like my transparency helps you guys. That if you know that I'm a work in progress too that I'm not perfect. Yes. I have cleared a lot and my charts are generally pretty small. Yet, I'm still working on complex issues and I think we look at those things and we go, "Okay. If Julie Renee can do this, I can do this too, right?" Okay.

So, I'm so excited. I'm excited because we're bringing in something in a new way. We're looking at things in a new way and each time we open the door, and each training, the last couple of weeks, I pray before it start creating the chart and the slides. I'm just,

"God, help this be the best ever of this you know, clearing." And help us create a miracle for every single student including me in this area.

And as I test, I don't have any infections but I was looking at this as also finding my information. Why do something shift and not shift and if somebody asked me yesterday about my hands and believe me, I've worked on my hands for ten years. And what it looks like to me is they may shift. I did another chart on my hands and-- but it looks like the mother entitlement and the mother projection seems to you know, take precedence and maybe other things too.

I know I've cleared a lot of the DNA of others because we didn't have our part in our family. That doesn't run in our family. So, the DNA of others and resets was there. But then if you have-- so, let me come back on the screen.

My mom treated me like her slave and my entire growing up, I was her slave. I was not acknowledge for the excellence in school or sports or my faith and the actions that I took. I was very active in the church and I was you know, doing volunteer work and all that. I never got any acknowledgement for that. But what I was, was her slave.

And so when you have that on you. I was thinking we might change the way we teach the violence in these classes because if you don't clear the mother entitlement and the mother projection, the slavery on some level continues. Even if you're-- you know, you kind of like wondering, well, that projection of isolation that we experience a lot. Adelia and I, you know, we're up on a mountain and you know, all the neighbors are connected and we don't seem to be as connected with the neighbors and that kind of thing.

That comes through some of the abusive mothers who I've cleared. Who isn't in, and as we tested, she wouldn't be in all kinds of places. But with the entitlement, she's running energy through it. I wonder what that's happening in another dimension. It's not happening in the blueprint. Ninth dimension. So interesting. Anyway, this is my big project this week is to figure that out. Ninth dimension. Not in the blueprint. But in the ninth dimension.

Wonder if that's where we go when we're out the body. When we don't have a body. Like my agreement to be born into this difficult family was to you know, really project me into the world in a way where I really understood the depth of human suffering. So, I got to pick one of the you know, really tough families to come into so that I could come up through the ranks like you guys.

And really feel all the pain and suffering. I think that's one of the-- my little pet peeve that being through channel is they have no idea how hard it is to live on this planet and go through you know, the worst human health condition. The worst of emotions and relationship and they have no idea. And I think that that's my little pet peeve about them.

There are wonderful teachers I know but I feel like going through the difficulty gives us a much deeper level of awareness so that we can-- I can help you and my myself but I can help you. I can help humanity in a way that I couldn't if I were channeled. Okay. Back to this chart.

Good. Okay. So, I think what I'm going to do is quickly-- let's see. Yeah. We're halfway through. I'm blasting. So, I'm going to say hi. I'm going to answer questions and look at comments and things now. We're definitely on our way. We're about thirty percent into the chart. We definitely have to kick it up a few notches if we're going to get through this chart but it's really good.

So, hi to Lisa, Kristina, Maria, Anette, Jane, Kathy, Julie bot, Julie Sy, Anita, Joty, Ann, Illumi, Johanna, Catherina, Juta, Karen, Martha, Dale, Pam, Sheila, George, Joty says hi to Adelia. She's not here right now. Martha, "It's right for jammy day." Yeah. Judy, I figured-- you know what? She's just got a few more days and she's going to be in school. She's gets to have a day if she wants. Judy, Johanna, and Cynthia, Jenna, Diane, Nettie, Carol, Marriane, Arcadie, Mari, Dawn, Penny mae, and Shirley S.

"Look at that chart." Yeah. Raju. Martha, "Are bacterial also another dimension?" Very likely. So, if we look at bacterial infections-- but we'd have to look one by one, Martha, because as you could see from the viral infection-- let's see. Are most bacterial infections? Most bacterial infections are fourth dimension. Are all bacterial infections fourth dimension? Fourth and fifth dimension, Martha.

So, actually they really are much more physical because they're related to bacteria. We create bacteria. Good bacteria in our body. So, they're much more the nature of a physical body. Hi. Are you giving a kiss? Okay. Thank you for the kiss. Okay. Okay. This is seriously impressive. Oh yay. Hi.

"And there is a chapter or article where we can get understanding about dimensions as you are using that concept?" We don't have anything written on that right now, Martha. So, that might be something but I do a class on it in the future. I think that would be great. But there are different dimensions on this planet. Hi. I think about sixteen of them. We could sign up more about them. Hi. Okay.

Alright. Be gentle with mommy, okay? Please be gentle with mommy. That's a little hurt. Too rough. Too rough. Gentle with mommy. Okay. "I though borrowers a virus in the herpes family too?" Yeah. Just-- okay. Adelia, that's enough. That's enough. Okay. Just too much. Too much.

I'm sure there are many strains of herpes and these are-- it could be but I separated them because what we're doing in that chart is we're going one by one. You know, if you wanted to separated twenty-seven herpes viruses, we could. We probably won't do

that today. Katie said, "Hi to Adelia." "What do viruses receive?" I answered that. "Wow. Interesting." "That is absolutely awesome and revolutionary." Thank you so much for following the passion.

There is a cancer gene. Also a bacterial virus and fungal. Fungal genes. Yeah. The cancer gene we removed and so I've removed the cancer gene from my body. And we removed that. So we had a medically documented women who had cancer gene big time and her mother, aunt, and grandma died of breast cancer and she also had the gene and I removed that.

She went back in and had the test again and it showed that there was no cancer gene in her. "It's so helpful. Thank you. Thank you." You're welcome. "Is my issue--" Yes. "Love is sharing. It does help me I should say." Please share as it always vitally important. Amazing. "Let's just continue even if your mother is no longer on this plane." Yes. It does. Yup. Because the entitlement started before your birth.

"Yes. Thank you for sharing your experience. It helps me on many levels." So, you-- continues but you can also clear it if you become aware of it. I think I've gone through the entitlement class and I think that there's something unique to that kind of an entitlement where it's cleared out and yet it keep certain things in.

So, it's in a different dimension. It's you know, it's familial entitlement that seems to have been created. It's probably part of an agreement. I might have had agreement with her. Maybe not one that I wanted to keep but one that she said this is what we're doing if you're coming in to my body.

"Does it help in the case of mother entitlement if you do the entitlement class for several times?" It does help. Was it included-- we didn't call it mother entitlement, but yes. It would very much it would help with the intention of clearing mother entitlement. "Mother's entitlement prophecy is very familiar and this information is very helpful. It makes more sense to me. Thank you so much." You're welcome.

If it helps with our children. If we clear entitlement and prophecy that we inflict on them-- oh. Yes. That's a silly question, Dale. Of course, it's really helpful. Yeah. We don't want to live that in their space. Does the entitlement-- you know. I think, let me say something else about that because I was thinking I've been asked a number of times to teach parenting classes and the thing that you can do is you can prophecy their goodness and their breakthroughs and their magic and their wonder.

Like, when we change a stinky poopy mess, I always say, "Pretty soon big girl, you're going to go potty on the potty chair and you're going to love it. It's going to feel so good." And we'll, you know, you're going to be such a big girl. And you know, I prophesize her goodness. I prophesize the wonder and the magic. We walked down the street and we

walk by the neighbors' goats and chickens and donkeys. And we go down there twice a day to go see them. I say, "We are the luckiest in the world. We're so lucky."

And we see bunnies and we see birdies and we are so lucky. We are so very lucky. We are so, you know-- and I think you can prophesize into your children goodness and you can just all day long prophesize goodness in. You're going to live hundreds of years and you're going to live in great health and they're soul up.

You can use your work to create an amazing, amazing future for your children. Usually, when I'm of course, correcting Adelia, I also give her the channel where she can go. So, she was just a little too rough and I said, "That's enough now." But usually I say mommy likes it but if we have time to interact, mommy likes it when you really-- I really love it when you kiss me in the lips and you are gentle and then you go down and play. I might say something like that to give her the course correction with the something to do.

So, absolutely, if you prophesize negativity into your children, please take it out. Please. No entitlements with your kids. Don't run your energy through your kids. Don't expect them to take care of you. They may. They may love you so much and enjoy your company and it was more than just you were giving them birth and a good childhood but they wanted to work with you a whole lifetime.

I think that's another question you can start asking yourself. Did I bring the children in to work with for an entire lifetime. Or was I the vehicle for them to get a great body and a great start and then launch off and they weren't meant to be deeply in my life forever. Because I think if you start looking at the nature of your relationship with the children you brought in, I think it'll give you a new level of peace and a new level of awareness.

I know that's three children I gave birth to. I was not meant to be in their life. I clearly was meant to give them a very good start and give them bodies that they could live in. It's so funny. Their bodies was just like their dad. They've got some of my nature.

They do some volunteer work and they do-- they definitely are good people. But they weren't meant to be in my life. If I sat with and struggled with trying to make it different than it is, I would struggle. I would have sadness and regret.

But if I thought about know that was something that I gave them a start and that was what I was-- that was what I was doing in this lifetime. I wasn't giving them a lifetime of friendship and encouragement. That wasn't what they needed for me. They needed their start for me.

And then you can look at that and you can say, "Well, are we meant to--" And you can muscle test that. You can see. Did we set this agreement up for a lifetime? Did we set

this agreement up for childhood? I know when I look at the agreements with Adelia, it's a very strong and very happy agreement.

So, I know I'm going to go through whatever I go through with her. But we have an agreement of profound love and caring and there's a very deep and happy connection. At least for now, it looks like to me like a lifetime of joy together. So, I'll think about that. Hi, sweetie. Are you happy? Are you a happy girl? You're so happy. We're so happy. You're a happy girl. Peakaboo. Peakaboo.

It's helpful for our children. Okay. That one I said yes to. "Does--" Boo. Mommy has to look at the screen right now, okay? Boo. "What does entitlement continue? Does the entitlement continue even after my mother's passed?" I answered yes to that one. "Do I make a chart and set an intention to clear the ninth dimension of this mother issue?" It's the same for me. You certainly could, Lee. If you just added that into the entitlements class chart.

I mean, if you have the ability to make your own chart perfect and if you added it to the entitlement class. Just mother entitlement and the ninth dimension. That would clear. It would clear. It won't clear as fast as like I got for myself seventy-five hours. So, we probably-- if you have that strong of an entitlement, we have a pretty-- Thank you. We have pretty scary historical family. So, a lot of demonic stuff in the family.

Like grandpa-- my mother's father was a really bad man. So, I just look at that and go, "Okay." I can see that though. Okay. That complication is funny. I picked the worst of the worst, right? I picked a really-- my mother's side is really pretty tough people.

"If we have life in other dimensions can we bring it over to this dimension so we heal it unfold?" I don't think I understand that question. You think that your body and life in other dimension? [Inaudible 00:44:17 to 00:44:19]. Adelia, is it ready for bed? Ready for bed now? Okay. Stop. Stop. Adelia, mommy doesn't think that's funny. I don't think that's funny. You'll get a spanking. You're going to get a spanking? You want a spanking? Mommy doesn't think that's funny. I don't think that's funny. No, I don't think that's funny.

Class on dimension. Okay. "Anything to do in the blueprint today?" I'm not sure about, Anette. It didn't come up. "We help with ones on these. My son's four years old wouldn't probably do pump for himself." Yes, yes. Of course, you would not for your children.

"Have we not discovered all impacts on those?" And that is why we don't feel we have cleared one hundred percent. "Where can the influences impact us after we cleared them?" I get a yes to both of those, Karen. Elena says, "Hugs and miracles to everyone." Anne Marie, "We are so lucky to be here." Good. "Do we use doorknob to

clear entitlements we have imposed on children?" I think, with your children, Kristina, why don't you just use chopping.

You know, karma clearing will help a lot with that too. I would probably go through the karma clearing process. You can just use the meditation CDM karma clearing or you can take the karma clearing class and then also entitlements. Because it's really you ending the entitlement. If you put it on your children, it's going to clear pretty fast.

"Can fathers attach entitlements to their kids?" Absolutely. Yes. Yup. "I appreciate your understanding of agreement. Thank you always for sharing your experiences. Wonderful." Yay. "Beautiful way to look at what is creates a very loving space. Thank you for the inspiration. Thank you, Julie Renee, for answering the question." "Do you have a master list of DNA issues?" I do not, Judy. I definitely do not.

That might be what I saw a few months ago. It's a thing make it towards the beginning of the year. I saw that August everything will start changing. Okay. You have to be quiet, okay? I will start working with science more than what we had up until now. That's something which is for me and I would have completed what I needed to get from the way I was teaching and that I will start working in a different way.

Sure enough, you know, August fifteenth, last week, kaboom. I had that feeling like it's all changing. So, that might, at some point, we might create that. I think DNA is kind of endless but we could look at all the things that the students asked for when they come into the DNA process. We can look at that-- those issues too.

And why-- you know, when you say about DNA, either the question about why-- so, Annette. Whoever-- I think that's Annette asking. I was doing a blueprint clearing today and I'm not. I'm not going to do one but I will check next week if there was one or two fungal things that we need to clear on this chart. Yeah. There are three things that we can clear in the blueprint next week but I'm not going to do it today. Okay.

So, why would a family pass down a cancer gene? Why would a family pass down Parkinson's or arthritis or whatever? Why would a family do that? That's not good programming. It doesn't make any sense to have that in the DNA. So, then we have to ask another question which is really exciting but we're not doing DNA today. But we have to start asking, "Well, who put that there?" Is that DNA splicing? Why is it there?

So, I think those are really, really good questions to-- Okay. Come on. You want to say hi? Everybody wants to see you. Okay. I'm not going to do that, Adelia. You either-- Okay. Bye. Bye. Help your adult children? You can definitely remove entitlements and projections from them that you put on them. So, you definitely can do that. No. That's interrupting mommy.

So, you definitely can help them by taking anything that you put on them off of them. You can end the karma so that they're not obligated to you. You could take your energy out of their space. You can end-- reaching out the chords that you put in their space. Chords are really authenticated from people to people. That's not so much you know, some nefarious alien. Some part of us sticking chords into people. So, you could take those out. Yeah.

"Did you say there are fungal genes?" I didn't say that. No. There might be. Let me check. Their DNA for fungus? Yeah. There is. And we have that in the clearing. If there are DNA. I do get there are. "This all sounds quite complicating with viruses and dimensions and there is a lot for our future classes but do we still receive results also after going through this course?"

Well, Kristina, I think this course is spectacular and you look at the volume of stuff that we're clearing and we'll probably keep approaching the trainings like this because we couldn't possibly address every name of every infection for everyone. So, yes. You're going to get great results. You're going to get wonderful results.

For those of you who have been in the infections class before. I think, I candidly told you. Right? I told you that I was the one that I talk about. I was the one who had twenty-seven infections? When I started clearing infections, I had-- I was the one who had twenty-seven infections. I don't have any infections. I have zero infections.

So, I didn't know any of these information and I cleared twenty-seven infections. I did not use antibiotics. I did not use anti-virals. I did not use anything. I clear using these techniques and we've even added so much because we've got that advanced interferences. We got a lot more anchor. So, yeah. You're going to get a great result. Yes. A great result.

All I'm just saying is we're taking it to a level that I think it'll be more scientific so that you get everything. We understand why it's there. We haven't done that before. We haven't said it. It hasn't even made sense to look at it and like what is it doing? I think even just this morning when I was picking up all of these five that I listed are receivers. What are they receiving? I mean that's actually a very interesting question. Are they just receiving pain signals or what are they receiving? Did you get stuck? Okay. You are very stuck. Okay. Here you go.

It's good. I will-- you're welcome to remind me but I'll put it in to my notes. We need to just do three things in the blueprint next week on fungal when I'm doing, I think, it's parasitical next week which we'll have more probably of them. I'm making a note for myself. Someone wants to remind me. Alright. We can.

One point thought what would it be like if we created something that's a little similar to like a web MD. Well, we had the solutions to herpes or we had the solutions to-- Adelia. Please calm down. It's too noisy. I think that's her baby. She's pretending the baby is crying.

What if we had a site where people could go and they could get the formula and then we were also looking at virtual reality where they could get the formula in virtual reality to cure anything. Any-- and we had it all mapped out whether you did pumping or there was a way to deliver it with virtual reality that was different that included all of these. What would that be like? I don't know. I mean, I'm just starting to ask questions about how do we use the delivery systems that are available right now and that's pretty spectacular to get this to a much larger group.

Because what I saw years ago was that we needed to reach five million minds and in our beautiful academy, we have about six hundred actives. We have about fifteen thousand people who follow us but maybe about six hundred really active students. As you can see about eighty students in this class.

So, we're not getting the five million minds in this kind of you know, training and I love doing this. I absolutely love it. Just looking at you know, how do we reach a larger client because that is the fulfilment, the complete fulfilment of the mission. That was the cell, the purpose for my being here.

So, that just you know, just asking questions. How do we do that? Light MD sounds like a great website. Receiving. Maybe they are magnetizing negativity. This could program in receiving nervous and stress. I think, you want to end the receiver on the illnesses for Elena. I don't think we want illness to receive information from alien.

Yeah. For Patricia, I see that distortion were caused by traumas from ancestors but why would we test and we don't want to pass along but that's my questioning. How does that get hooked in? "Love Adelia. I have four girls. We so love her and--" Oh good, Julie. Yay. No. It's not-- nothing. It's not receiving from you. It's-- that would-- we would be transmitting if we were sending something out. It's receiving something with them.

Yes. Adelia has gotten ants in her pants. She has ants in her pants queen. She has-- excuse me-- a loud voice. It's a shriek. See there's a shriek. I will say she is very happy. She's a happy girl and that's good.

Oh that's alright. That's alright, Elena. If you look at the chart and it's perfectly fine, you'll see. I'll show you the chart again the next few weeks as I work on it and get some more in there. Who created it? Because who created it or who designed it or who, I don't know, moulded it or whatever. Whatever the words are.

There's a few different ways that it's brought in. It's brought in by an alien usually; not always. And we're going to discover that. So, that's what we're looking at. This was thinking, "Well, why?" And then we see the stuff flying and the humiliation and all that stuff.

Yeah. I know, Patricia. I understand what you're saying, but there's some kind of a hook. I don't think you understand what I'm saying. So, it could be an entitlement hook or it could be something. Something that's having the disease because I wouldn't think that any mother would ever willingly pass any illness to their child or grandchild ever. We wouldn't want to. We wouldn't want to put that in our DNA.

So, it's against our will to pass on the trauma. We wouldn't want. I wouldn't want Adelia to go through the traumas I've gone through and as a matter of fact, I, you know, I think about it. Rebecca's had a few talks with me that you can't overprotect her. She's going to experience what she is and that's going to shape her and give her a strong personality. Yeah.

Dawn, I haven't talked about fungus being a receiver. I've done nothing about fungus. I talked about viruses. I think we're starting to get lost track here. So, we don't have anything that says funguses are receiver. We don't have anything that says funguses are any other than and what I did say is how hard they are to clear is that they're in the seventh dimension.

And knowing this and clearing the seventh dimension aspect of the fungus would be in the body can really make a difference because you know that it's not in the fourth or fifth dimension that you're in and we don't have any information on dimensions yet and I might teach a class on dimension. Okay. So, let's just say to stay right at it. Take a breath.

We're asking weird questions of the universe. It was like, "Would it dawned on me last week?" When we were looking at viruses is none of these natural. They're created by somebody who was it created by? And why are they there? And what is their function?

And when I was just asking at the beginning of class, I wonder some infections don't seem natural either. They don't seem like they're naturally occurring. It seem angrier and mean. They seem demonic to me. Some of the infections seem mean, don't they? It means that it do. They just and gnarly.

And then I said it looks me like fungal infections are also something that's created or designed or you know, like we understand that we watch a movie that's like an action movie that's kind of thriller and they have bio-weapons and things like that. We understand the concepts of bio-weapons, right? We understand that sometimes a virus can be introduced to a population as an attack or a control or something.

So, what we're now doing is we're just asking question about why these here and how do we completely clear them. And the charts that we're doing are spectacular and they will definitely help you. And then the information we're giving are thing that we've never asked before and so we're looking at it as if it's likely looked at the anchors and like we've looked at the spiritual interferences.

We're looking at the elements that we have never asked before about how did they get here. We're just not going to be blindly, "Oh. That's that virus." And we're going to pay attention to all the things the virus does. Medicine has done that. Let's pay attention to some degree about how anchors, where it comes from, what programs are activated, what dimension, what part of the blueprint, so that we have this information for clearing.

And the whole purpose of this is to gain knowledge and power and be able to fully and completely clear and be the master of your body. To never have an infection in your body again. That would be such an amazing result from this class. Okay.

Well, we're going to end with a song. Why don't we do in the stillness and-- okay. And we're ninety-eight percent through. Two more minutes and we'll be done. Ninety-eight percent so I'm going to keep blasting. "In the stillness, in the quiet, in the open heart, there I am. I am essence, I am breath, I am light of god, I am, I am."

Nettie, I think you might have just put that up after I answer the question right. We were ninety-eight percent. We need to stay in for a couple minutes something. Do you want to say happy day? Happy day? Want a kiss? Want to say happy day? Have a good day? Alright.

And for those of you who are coming into year of miracles tomorrow, let me remind you, please if you can come in on time, I'm doing a reboot for everybody's on time from nine to ten. That's to boost up your brain regeneration. So, everybody within year of miracles, maybe sign in five minutes early. That would be really great. I'll actually open up the window a few minutes early so we'll be live a few minutes early.

So, right at nine o' clock, I'm going to do a reboot for everybody who is there. So, it's been two minutes just making the brain regeneration even stronger. A couple that had reduced the brain activations. Okay. Stop this. Stop. Okay. Say bye bye, everybody. Say I love you. Say I love you. Love you. And say have a happy day. You have a good day. Okay. Okay. Bye. Bye. Bye. Bye. Bye.
