Henry 100% cleared 100% restoration Tool destroyed	Demonic tool Violence and aggression stimulator Channel from Adelia to Henry's head 5 h Illusional Enchantment Destructive Immobilizer Like reset Like reversal Seed CD 8 th incinerated Reestablishes after cleared	<p>How this tool works, is very similar and does qualify as channeling. A channel can take a body without permission. In our cause this is what happens. It takes over as if the spirit who has channeled is entirely in charge and the spirit who authentically owns the body is kicked out.</p> <p>Here are some of the details our family have personally experienced.</p> <p>The occupying spirit is directing the body to hit, kick, head bang and hurt mom. This can also happen at school to get the original body owner in trouble. The teachers will say they don't understand it he is so sweet, than he'll have a day of timeouts because of bad choices with little friends.</p>	Platter	<p>The subservience and surrender of the body was driven by abuse so the channel was open for the occupying spirit to get in. When I look back at how many times 'she' hit, kicked, karate, chopped his head or held his head underwater I can see how she gained dominance. She sought to torture and control his head and consciousness. The pounding of his head took made him afraid, He lost confidence, and this left a vacuum. He knew he couldn't fight back and win so he withdrew. For example, after drowning attempt, he wouldn't go in the pool for a month. He wouldn't fight he would withdraw. This works with the channel aspect he would withdraw if she</p>

		The behaviors of the occupying spirit are the same as what she did when she was a family member.		aggressively pushed her way in. The behaviors that come are startling and awful. I feel her, not him with those. It comes from the 4 th dimension from A presence to H actual head which is controlling his body. She occupies him to continue the violence towards me. H is very worn out after this happens can go on even up to 6 hours.
