

Father, Son, and Holy Spirit, we call upon your holy, glorious, magnificent name, and we ask for your hand on us as we seek to dramatically reset and improve the nervous system and all of our immune function in our physical body.

God, we are grateful for your presence. We're grateful for your love, and we ask for your help today. We ask that you help us to bring our nerves to a place of peace, a place of calm, a place of very, very high function in their relaxed, calm state.

So we thank you for that parasympathetic and sympathetic systems being set beautifully and appropriately. We thank you, God, for helping our immune functions throughout the body. And we know there are some things associated with the immune system, many things, but there are also just immune functions throughout the body. And we seek to cover it all today to clear away those blockages, those things that stop the immune function from working well, and then resetting and restoring, regenerating to 100%.

God, we thank you for the end and the ending of the seven-week Iranian war that the United States has imposed upon them, and we ask for peace in the Middle East. We thank you for the breakthroughs that have happened. We thank you for the healing of angels and the restoration of the angels who were trapped in statues.

And we ask that you are very present with us today as we go about our work. We ask that you bless every individual here with a profound transformation, a profound healing.

We thank you, God. We thank you for your love, for your presence, for your strength, and for your constancy and faithfulness to us.

We love, worship, and adore you and join with the holy singing:

Holy, holy, holy, Lord God Most High.  
Heaven and earth are full of your glory.  
Hosanna in the highest.  
Heaven and earth are full of your glory.  
Hosanna, hosanna, hosanna.

Amen.
