

Father, Son, and Holy Spirit, we thank you so much for giving us the opportunity to have six full weeks to look at the issue of how pain moves in and occupies the body. We ask that not only have the opportunity to look at it, but to disappear it, to deeply and completely understand, acknowledge, see the - have the awareness, have the knowledge, have the wisdom - but also have the ability to then finally and completely remove it. And we understand that you could have removed it weeks ago, but that you want us to know what's behind the pain. You want us to know how deeply and complex the issue of pain is. And you want us to see it, understand it, so that we can address it in our lives in the future, and also for our friends and our clients.

And we understand that, God. We understand that this is an opportunity of learning, that it's not you saying, "I'm not going to give you the answers," or "I'm not going to heal you," but rather, you want us to take the time. We see it. You want us to take the time to understand what's going on so that we can see the depth of the issue and then embrace and clear this issue.

And God, thank you so much for the movement on the restoration of my energetic hands. I know it was a complex, devious evil that was plotted against my soul. And I thank you for all of the wisdom that comes through in each step in restoring them. I thank you for that.

I thank you for Henry. I ask that he have a peaceful and joyous day at school, that he enjoy time with his best friend, Peyton, and that he have happy moments during the day at school, knowing that he did not want to go to school today, and that he is much happier at home. And we know that, and we know also, God, that it is your - it is your will that I also energetically and physically fully recover and feel incredible strength, vitality, and joy, and that having childcare is part of that journey.

So we thank you for the childcare, and we thank you for bringing him some happiness and also helping me to be a great mother every minute that we are together, and even when we're not together, that I'm being a great mother to him, that he feels my constant and steadfast love.

God, we pray for Susanna, for Maria Laura, for Andrea, for Laurel in this quest to - and for our other participants who aren't here actively in the live class - that they have their answers, and that today be a profound breakthrough day, that there be deep and profound awarenesses, understandings, and clearings.

We glorify your holy name. We thank you, God. And we thank you for each of these beautiful women who are so precious to you and to me. They're so beloved and so cherished in this community. And I know, God, that they are your cherished daughters. And I thank you so much for giving me the opportunity to mentor them.

Thank you, God. Thank you for this great responsibility. Thank you for all of what you - all of the opportunities you laid before me and before us.

Thank you for the Special Ops Strike Force starting this afternoon, that just the perfect and right people will be in this launch, this special sanctification, blessing, anointing, and the beginning, the launch of the mission. So we thank you for just putting in the hearts of those who need to be there, that they are enrolled, and that they easily are getting onto the class, and that the class goes smoothly.

I thank you, God, for all the one-to-one clients who are receiving their miracles. And we are just so grateful for the many, many years that you've given me the opportunity to work one-to-one with individuals and to know them, know their heart in a very personal way, know maybe their secret issues or their sacred issues or the things that have challenged them for years that they seek to overcome.

I thank you so much for that opportunity to work one-to-one with people and to really have that intimate relationship with them. So thank you, God, for that blessing.

Thank you, God, for your word. Thank you for the scripture that I'm reading every day. Thank you for helping me to understand the references to unicorns in this morning's scripture. And I continue to be in awe and inspired and delighted and deepening my understanding of the journey of this eternity and these humans who are on the planet, what the struggles have been, how they've come to be aware of you or to deny you.

And we just pray that the hearts of those who are ready to be opened, who haven't opened their heart to you yet, that come now, that there be an opening and a transformation, and that people feel you, and feel your presence, and make a decision to choose goodness over evil.

We thank you for protecting the children. And we pray for any children that are being imprisoned, who have been taken as sex slaves, who have been human trafficked, any women who have been trafficked.

We see a great evil in the United States, in the underbelly of the United States, where it is an acceptable practice to own an individual and to abuse and use them for sexual pleasures, including killing them and using them for adrenochrome. So we see that evil, and we are asking that that evil be extinguished, that it no longer exists.

As well, God, we see the evil of abortion, and we see the extinguishing of life after life after life. And we ask that that end, that the trickery and enchantment that women believe this is their opportunity to get rid of a responsibility, get rid of a child - it is a murder.

And we see the continuing continuation of especially murdering the infant, the embryo fetus of the African-American children in this country as being a targeted annihilation of the race.

We pray that there be an end to the lives that are being snuffed out in California, where their population is decreasing, and the only population increase is the illegal immigrants. And many of those are criminals, actually. They all are criminals because they've walked across the border illegally. But many of them are violent criminals.

And we're hearing politicians say that this is our growth. Our growth is illegal immigrants. And we know, God, that those abortion clinics are running round the clock, full-time in California, and thousands of children are being killed every week.

And we're asking, God, that there be a complete change in the law and in the effectiveness of ICE, and also that there be an end to the abortion clinics and the just popularity of killing babies and then using their bodies as medical products.

And we know that that is a big part of the abortions, is using the body parts, 20,000 a fetus at times, using good body parts to clone, to grow in a laboratory, to make for skincare products, to make transplants and et cetera, et cetera.

Human life is not disposable that way. And we can see that there is a great deal of evil and wrong in this kind of medical science. And we pray for an end to killing babies.

And we thank you for those who are able to have children, to love and raise and care for them in beautiful Christian homes across the country.

And we pray for our politicians. We pray that they be fully supported by good and that they not need to take the money from evil sources.

And also, God, we pray that people's eyes be opened. And these trickery in NASA and the lies that they're purporting - that first moon landing in the '60s that never happened, and the astronauts that apparently burned up in the atmosphere and then later are all discovered to be alive, having successful careers as scientists - there has been a great deal of trickery with the astronaut, the whole idea of astronauts.

There's been a great deal of trickery around the global idea as opposed to the flat Earth with an edge turned up. And we look at those original documents of the original people who went up into the - into the firmament, into the high atmosphere, seeing that we were on a flat Earth with a raised edge. And we hear that and read that from the original reports, from the original people who went up.

And so we know that a lie began to be purported. We know that that lie is amplifying and the excitement of aliens rather than understanding that these things that are calling themselves aliens are all fallen angels. They are all evil. And they are all against God, working against God in creation, attempting to say, "I'm God. No, I'm God. No, I'm God." We get it, God. Thank you, God.

I know I'm telling you a story, God, that you already know, but I'm asking that there be an awakening, that people's eyes be opened, that they see this evil, that they see with this trickery. There's just an unbelievable amount of trickery, mind psyops, that are being done across the board.

I even saw it in a hymn yesterday, and I was so sad to see it in a hymn, that this consciousness of understanding the world through a globalist view and then turning it into Christian doctrine or Christian music. It's so sad to me.

God, please awaken the eyes of individuals across the planet, across this beautiful flat Earth, and help us now, today, to clear our pain and to understand dimensionally what's going on, to understand what's going on frequency, to understand, and finally, once and for all, clear the inflammation that happens at night or the pain that happens at night, whatever it is that is able to attack us while we're in our resting state.

Also, if the dream state is a state of pain or allows for pain to come in while it holds us in stasis in the dream, we ask that dreams end, especially those harmful dreams. If they're contributing to the pain, of course, we just ask for that to end.

We glorify and praise your holy name, God. We thank you. We thank you for the companionship and the closeness that you provide to us.

We praise you. We glorify you. We thank you that you love us, that we are lovable, that you love us, and that we are absolutely, completely cherished, lovable, always lovable in your eyes, in your heart.

We are your children. We are your daughters.

We glorify you. We praise you. We sing with the hodies, "Holy, holy, holy, Lord God Most High. Heaven and earth are full of your glory. Hosanna in the highest." Amen.
