

Now, we'll bow our heads in prayer. We'll close our eyes, and we'll stop everything. We'll stop pumping. We'll stop looking at things. We'll stop reading. We'll stop listening to anything else. Just tune out the world and tune in to the divine.

And hands clasp or in prayer position in front of the heart. And just finding yourself relaxed, either in the center of the head or the heart, ready to receive from God, ready to hear the word of God, asking that God's face be directed towards us, that we receive the blessing, asking, requesting humbly that God's face be towards us, pointed towards us, looking at us.

The angels surrounding us, angels enjoying and joining in. As you feel your body quieting, feel yourself coming more and more into the presence of the Lord, feeling awe, feeling wonder, feeling joy and elation.

Feeling the presence of God as we begin our prayer.

Father, Son, Holy Spirit, we call upon your glorious, miraculous, marvelous name, and we ask for you to put your loving hand on us, to look upon us, and to see us as we seek to end the suffering and pain that have been prevalent in our life. We ask that you take this level and consistency and unrelenting pain away from us, that you show us what we need to know, that you guide us in wisdom, love, and understanding.

God, help us to be very effective in the quantum field, and also help us to be fully capable of receiving your blessings, and to guide and direct me in any additional activations or incinerations that you could see of value for us today.

Help us to be a huge contribution to the entirety of humanity. And as we are able to stand without pain in a joyous, relaxed, delighted, strong, stable, balanced body, that this ripple effect moves out into the world, and that others are able to mirror and experience this ripple effect, that the causes of pain are incinerated, are destroyed, because we know that you created us without pain. You created us in bodies that were meant to live in joy, in the Garden of Eden, among nature and the animals and the foliage and the unlimited sources of water and fruits and food.

We were meant to have beautifully functioning bodies and nerves that were calm and relaxed. Thank you, God, for blessing us, for taking us by the hand and putting your strong hand on our challenges, putting your strong arm on the evil that has caused pain in us, that you have utterly destroyed the sources of pain and helped us to step into a full restoration in all aspects of life.

We praise your name and glorify your holy name for the wonderful things that are happening in the human population, wonderful shifts in politics, wonderful shifts in

leadership, wonderful shifts in child trafficking and human trafficking. And we're just seeing so much shifting and changing and so many wonderful blessings coming about. And we know that your hand is moving strongly among the human population, especially those who are willing to serve.

We glorify and praise your holy name for all who are willing to serve, not just in our community, of course, but there are many who are stepping up and raising their hand and saying, I am willing. I dedicate my life to service. I dedicate my life to helping the healing of humanity and the healing of God's creation.

We glorify and praise your name for every person. And we ask that you fuel them with confidence, with strength, with power, with balance, with great ease, with joy, and an ability to move forward, not be frozen in place, but to just continue the work that you've given them, knowing that you are constantly there. You are faithful.

Thank you for your faithfulness. Thank you for your mercy. Thank you for your healing power. We glorify and praise your holy name. Holy, holy, holy, Lord God Most High, heaven and earth are full of your glory. Hosanna in the highest.

Thank you, God, for your healing hands on our tender bodies today. Thank you for removing the inflammation, the pain, the swelling, the discomfort, the confusion and chaos that pain brings. Thank you for your mercy, ongoing.

Thank you, God. Glory to you, God.

Amen.
