

Father, Son, and Holy Spirit, we glorify and praise your Holy Name and thank you for the miracles and transformations that are happening in our world.

As we look at the circumstances moving and the work that we've done together, especially in the leadership community and the different organizations, the different groups that we had going last year, the Why Wait and Incinerate programs, we're seeing a beautiful collapse of the structure of evil in CPS and organizations like it.

And we praise and glorify Your Holy Name and thank you for using us. Thank you for having us be the tool, the spiritual weapon that is taking down evil. We thank you for that, God. We glorify and praise Your Name, and we're so honored, deeply and profoundly honored, to be part of the takedown.

Not only with our wonderful pumping, but actually with tangible, visible evidence of judges being put on leave and likely that lawyer being put on leave as well, of apologies coming, and of victory in the case, of removal of things coming up, of removal of their findings of guilt, and many, many more things You have shown and invited me to participate in, to keep working on taking evil down and out of the system, including taking Nathan out of his position, including taking Tiffany out of her position, and including having the hospital and the doctor evaluated by the state.

So, God, we glorify You. We praise Your Holy Name. We thank You for the work that You give us. And we ask that it all be done in love and for the protection of people coming after us. And we seek to do Your will.

And we are asking for a blessing, especially for my adult children who might have been harmed by the energy of CPS, my family members who might have been harmed by the energy of CPS, and my children, the children that have been adopted and the one that's been released, just removing any harm that CPS has done.

We're just asking that there be a righting, and not only do I feel the effect, but that everyone who was harmed and all of our community, anyone in our community who might have felt the effect, might have had some matches going on where it harmed something energetically for them.

We're just asking that anything and everything that CPS did to harm those who touched me, my life, my family's life, my community's life, be restored entirely, that their name be restored, that my name be restored, and that there be a deep level of peace and a deep level of victory.

So we know that we're only about 30% through with what You've got in front of us on this, destroying the evil of CPS. So you can see that, but there's a lot more ahead. We just ask

that You give us strength and power of perseverance, that You give us courage, that we take these tasks willingly, of course, with our heart open, protected by the angels, the legion of angels who are available to us to protect us, protected by Archangel Michael, guided in wisdom by the Holy Spirit.

We thank You.

And God, as we approach this day of activation of the brain, I personally ask for a recovery from the concussion fully, wholly, and completely. That the way that things have functioned less than perfectly and functioned at lower and lower levels in some areas, and some areas begin to recover, I'm asking that there be a dramatic and radical improvement in my brain function, executive function, short- and long-term memory.

And that, as well, anyone else who has had any kind of brain injury at any point in their past where there wasn't a full recovery, any kind of brain illness where there wasn't a full recovery, we're asking for a complete and full recovery.

That our brilliance, our genius, and our brilliance be restored to us. And beyond our brilliance and genius, that we become even more super-capable of using our brains, like a super-duper brain that is able to even outthink and outsmart, and with wisdom and knowledge and heart, which AI doesn't have and which a computer doesn't have.

But we have something extraordinary. We have You. We are a reflection of You. We are in the image and likeness of You. And so we know that our brain can outdo any computer in the layers of wonder and awe, not just factual pumping stuff out, but actual wisdom, understanding, and experience that we bring that no AI, no computer can do.

We thank You, God. We thank You for the amazing gift that is our brain. We thank You for each person here with their big hearts and their big brains.

And we ask, God, that each person have their own unique and extraordinary activations today, where the things that are most important to them about the rejuvenation and regeneration of the brain they receive.

That each person coming with heart open, God, I really would love to see, this is my intention and their offering and giving You, this is where it would help me to serve You more by this part of my brain working better.

And God, we're asking that You hear everyone's prayer and intention and that there be Your loving face, Your countenance upon us, that we are blessed entirely and completely today, that there is a deep, profound blessing on each person here who is participating in this Brain Clearing Regeneration.

God, we glorify You. We praise You. We thank You. We thank You for the stories that are told, the stories in Scripture, one after another after another.

And we see Your message. We see Your Word to us. We see the vindication that is coming. We see where God hates evil, where You hate evil, where evil makes You angry, where lying is an abomination, where worshiping false gods is an abomination.

And we are just surrendered to You, God. We love You. We worship and adore You. And we thank You for the vindications and the reckonings coming in the future.

And we ask God, we ask God, that in this moment we are set perfectly, perfectly to clear, to heal, to restore, to revitalize, and then to bring the brain to the highest God alignment, highest function it can possibly be.

We glorify You. We glorify You. We praise You. We praise You. We join with the holy singing, "Holy, Holy, Holy, Lord God Most High. Heaven and earth are full of Your glory. Hosanna in the highest."

We praise Your magnificent Name. We glorify You. We praise You, God. We thank You, thank You, thank You so much for the unlimited and unending grace and mercy that You shower unto us.

We thank You for giving us hard work, and we thank You for bringing fruitfulness to our hard work.

Thank You.

Amen.
