

Father, Son, and Holy Spirit, we call upon your glorious, miraculous, wonderful name.

We praise and glorify you and are so deeply and profoundly grateful for your role in our life. We surrender to you. We honor you. We seek to serve your will and your way. We seek to be purely and completely, wholly aligned with your will. We surrender our work and our efforts to your countenance, your mercy, your grace.

We ask that you help us to fully and completely accomplish incinerating, destroying, removing the reptilian brain overlay and incorporating the highest function of a brain that helps us to survive. So the aspect of our brain that so beautifully works our intuition and so beautifully tells us when we're safe and not safe and when to be alarmed or alerted and when to be calm and rested. That that brain, part of our brain functions so perfectly, so beautifully as you have willed it too. And God, we ask for your countenance upon us. We ask your face upon us as we do this work. We ask that you look upon us with your loving eyes of mercy and help us to accomplish the shifts and changes that we seek. We also ask that this affect little Henry. I know that he doesn't always automatically, even though I wish it, that he experienced this as well. And then God, in our day to day, if you could reveal to me information about children who are drug and alcoholic exposed in utero, how this reptilian brain overlay may take over more than one brain. I've had some insight onto that and God, if it be your will to have my eyes open to the wisdom and knowledge that might have been hidden, might have been disguised so that we wouldn't obviously see it. If you could reveal that today to me so that I might interpret that and help with this entirely large group of children, unfortunately, if that be your will, I would be very, very, we would all be very grateful in helping these children.

We celebrate life, God, and we celebrate all the wins. We celebrate that you engage us and ask us to do over and above what most humans do. We are delighted to be of service to you and we seek to do your will and your way. We ask that this session, this three hours of transforming our brain be an opening to understanding you on a deeper level, understanding your messages to us on a deeper level, that our knowledge and our wisdom, our grace become strengthened, that we become more aligned than ever, that life become somewhat more effortless and that we experience ease in a deeper, broader, and more profound way. We thank you for the rest that you give us. We thank you for the work that you give us. We thank you for the opportunity to enjoy our family, to vacation, and to play, to do games and puzzles with our kids and our husbands and our families.

We thank you for relationships. We thank you for the wonderful relationships that we experience. We glorify and praise your holy name and join with the holy singing, holy, holy, holy, Lord God most high, heaven and earth are full of your glory, Hosanna in the highest, holy, heaven and earth are full of your glory, Hosanna in the highest.

Thank you, God. Thank you for your presence in this moment.

I feel it so strongly. We love you. We thank you, Jesus. We thank you, Holy Spirit. We thank all this triune experience of God, Father, creator of all. We thank you for the light that you bring into our lives, the healing, the restoration, the regeneration, and the deep, profound clear outs.

Thank you.

Thank you.

Thank you.

Thank you.

Amen.
