

Father, Son, and Holy Spirit, we glorify and praise Your holy name and ask for Your countenance, Your eyes upon us. We ask that You look upon us and restore to us the perfection and beauty of the skin. We ask that You remove the white and brown spots, the varicose veins, the chronic rashes, all disturbances of the skin. We ask that You restore youthful skin to aging, wrinkled, collapsing skin.

We ask that You soften stress lines and restore a complete youthful beauty to each participant here. We're asking for an experience of glorious skin where we have full, complete ownership, occupancy, and authority, that our soul and spirit are integrated into our skin, that our skin serves as the protective barrier against the elements.

We also ask that our skin reject the absorption of things from chemtrails, things from contaminated water, things that would be energetically absorbed. We ask that there be, we ask that there be, a repelling quality to our youthful, beautiful, plump, soft, silky smooth, moist, collagen-rich, fully healed, fully engaged skin.

We thank You for the restoration of even tone and color. We thank You for the removal of the appearance of stress on our face and the appearance of stress throughout our body. We thank You for the skin tightening up and for scars healing with the beautiful pink light.

We thank You, God, for Your presence in our body, helping us to do Your will, Your work, in the most pure and wonderful way, removing suffering, removing frustration, removing disappointment, or even dissociation with how we might appear and how we imagine ourselves to appear.

Thank You, God, for Your glory. Thank You, God, for Your goodness. Thank You, God, for Your presence. Thank You, God, for Your love. Thank You, God, for a morning off. Thank You, God, for a garden for my beautiful son, Henry. Thank You, God, for these beautiful women who are participating in this program.

We glorify, we glorify, we glorify Your holy name. We thank You, Lord Jesus, for being present with us, for hearing our prayers, for integrating our prayers.

We ask for, oh, that's so funny, our lips to be smooth and silky, and those lip lines that make an aged look upon us disappear. We ask for the early crow's feet, the deep crow's feet around our eyes to disappear and that there be a softening and a quality of joy in our smile.

Thank You, God. Thank You, Lord Jesus. Thank You, Holy Spirit, for the comfort You deliver to us. Thank You. Alleluia. Amen.
