

Father, Son, and Holy Spirit, we glorify and praise your holy name. We thank you for this opportunity to look into what is evil, what is darkness, and what are the overriding intentions of evil to prevent the full glorification, the full hallelujah, the full praise to your magnificence. We thank you for giving us greater and greater wisdom and understanding. We thank you for walking with us in this moment, holding our hand and showing us, guiding us into the knowledge you have for us around the evils of the celebrations of Halloween, the Santa Claus Christmas, and the Easter Bunny Easter. God, we are constantly seeking to align with you.

We seek divine wisdom, and also we seek a time of ease and peace, knowing that the knowledge, awareness, wisdom we bring in will also, as we want to share it with our friends and family, will need to be tempered so that they're able to hear it without fighting and rejecting. And help us to be wise stewards of this wisdom. Help us to gently show, guide, instruct, without stimulating a lot of harm and offense. And help us to pray for those who are deeply deluded, deeply deceived, deeply hypnotized into these are good, clean, fun celebrations. There's nothing wrong with the elf on the shelf, the Saint Nicholas lie, the carving of the jack-o-lantern holding the demons.

So we understand that there's a deep hypnosis on the earth and in Western culture. We ask that we be pillars of your goodness and that we shine the light of truth and that we maintain the love of family and friendship. That we're able to put something wonderful in this celebrating space that is worthy of celebration. God, we pray that the evils of all organizations like CPS, the family senior and child protective services be exposed. We pray that there be answers to how I should proceed with legal assistance and with the angels and your assistance, God.

We pray that evil be rapidly taken down in these organizations and that children be protected and safe. That senior citizens be protected and safe and the responsible adults for the elderly and the responsible adults for the children are not abused. That instead they are praised and thanked and honored for the role that they've played. We ask that the cases that have been filed in the Supreme Court, in the Kendall County Sheriff and the Bernie Police Department, in the CPS appeals process, that these cases have all a positive result and that there is a rectification and a correction. So whether a person needs, who's in the offensive role, needs to be fired, needs to be corrected with some kind of discipline, needs to go to jail, whatever that is, we are asking God that your countenance and your mercy and love for us cause a retribution, a reckoning, a correction in the physical world.

And then we trust not wanting to control you, God, but just asking this and in your divine time. So if eight years from now is the rectification time, help us to be at peace with whatever comes of everything that we do. But we ask that you send helpers, send the wise, the strong, the powerful, send your beautiful angels riding on horses with their swords drawn if that is the appropriate thing to do. We glorify you. We praise you.

We thank you for creating this beautiful earth. We thank you for stretching out the heavens and pressing out the earth for giving us the beautiful oceans and the beautiful land masses that you gave us. We praise and glorify your name for all of the creatures that you've created, the creatures in the

air and the sea, the creatures on land. We thank you for those who have pets. We thank you for our pets, for those pets who have passed away.

We ask that they be in a loving place. God, if there is a crossover where humans are dropping down to be animals, those human spirits souls are turning into animals. We ask at that stop. We notice that a lot of the cats and dogs seem to have human qualities and human understandings. And we ask that they maintain their humanity and that they not be dropped down into the animal experience, that there be a place in a healing temple and or at in your divine timing if there is a heaven for these beings.

We ask that that happen. We see that animals are also on the reincarnation wheel coming back over and over and over again. And we ask that that also end, that there be a peace and a joy and a contentment. And God, we eagerly and willingly look forward to a time when we might join you once more in heaven. We thank you.

We thank you for that opportunity to do your will and to look forward to a day when we are reunited with you. And even if our hearts and our minds can't remember the joy of being with you, we ask that you ignite that memory in us once more. We thank you for giving us a soul, a spirit, a heart and a body. We thank you for the mind that's able to discern good from right from wrong, good from evil. And we thank you for helping us always to align with what you are asking of us.

We glorify you. We praise you. We sing Alleluia and Holy, Holy, Holy. Lord God, most high heaven and earth are full of your glory, Hosanna in the highest. And let us God, let us feel your glory in this moment.

Let us be overcome with your glory. Let us feel the praise and the Alleluia flowing through our bodies at the awestruck wonder of your presence. Please God, look upon us with your loving eyes. Use your strong hand of wisdom to fight our battles. Help us with your mercy and your countenance.

Help us to be who you have created us to be and help us extinguish and knock out and destroy the delusion and override of these evil programmings during the holidays that appear on the surface to be reasons for fun. And give us the way to celebrate and delight in your glory. We glorify you. We praise you. We thank you.

We thank you for all the angels who are working side by side with you. We thank you for the Holy who keep the praises going. We thank you for our active minds. And we ask that those active minds be at peace so that we might hear your Holy Spirit speaking to us on an ongoing basis in our understanding and our awareness. We don't look for that voice.

We look for that understanding. And we thank you, God, for the little lizards who got into the office and we ask that they find their way back out of the office. We thank you for the birds chirping right outside the window. We thank you for the sun that shines and the rain that falls. We thank you for the water of the earth.

We thank you for all of the deep understandings you brought us. We glorify you. We praise you. And we thank you for your loving hand on our work today. Amen.
