

Baby on the call

Babies are a blessing, bring angels and purity
What to do if I am bothered by her sounds?

Children and children's voices are a blessing from God, when they make any sound, it is from god and the angelic realm ~~~ as when they are very young they are surrounded by angels. In India, children's voices during spiritual teaching are welcome...always a joy and laughter from adults, as they seem to make sounds at just the right moment...children, especially Adelia, are coming in to teach us.
