

# Year of Miracles

Healthy Chemistry

*I am free to live a life of spiritual freedom  
and full self expression liberated in love,  
gratitude and mastery in this body here and  
now.*

*My spirit is limitless.*

*I am responsible for any limits I experience in  
this body and have complete access to the  
divine through prayer and contemplation to  
release myself from any human bonds I  
have worn as spiritual clothing that no  
longer resonate with my essence.*

## May Training Healthy Chemistry

Body chemistry balancing is another much needed area of improvement, and we begin the process of tuning body chemistry, both hormonal and neurotransmitters. This is a huge project and in this program we are able to address the how 'tos' and direction for moving forward. To improve chemistry in the body, you must first clear, then regenerate the source of the chemical, then work with the settings of and production levels of the chemical. There are several thousand chemicals in a human body helping it function at peak performance. We touch the surface here and you are given a plan of action should you wish to continue to work chemistry over the course of a year or more independently

# Today's Project: Hormones

- + Melatonin
- + Estrogen
- + Progesterone
- + Testosterone
- + T<sub>3</sub> t<sub>4</sub> (thyroid)
- + HGH ( Pituitary)
- + Insulin pancreas
- + Refer to list of hormones
- + See list of neurotransmitters

Step one: after regenerating gland or organ to 100% pump chemistry to 100%

Step two: discover days to full regeneration for example 52 days mark on your calendar and repeat pumping chemistry to 100% at 52 days

Step three: when engaging in step two, check to see if an additional regeneration would be helpful and if yes return to step one
