

Father, son and Holy Spirit, we call upon your miraculous and divine name. We honor, worship and cherish you. God, we thank you for your relationship with us and to us. God, we are seeking to end the nefarious. Activities with government agencies and our dream space, and we're also seeking to entirely and completely incinerate, destroy, demolish, disappear the dream grid. Thank you God for making it so clear to us that we are sovereign beings created by you divinely and rightly connected to you. We love, worship and adore you and thank you. God, there is so much, so much invasion, so much intrusion, and so much control and domination and suppression on. Us, we we seek to remove that to create a fear of free and joyful space. Thank you, God, for in advance for creating that. Help us in our movement to. Be who you would have us be. Help us to be so powerful and so absolute and certain. Help us to let go of any kind of apathy or a willingness to remain helpless. Help us to be strong, strong, strong, fervent. And our love for you and fervent in our work for humanity and for all of God's children and all of God's creation, help us. God help us to stay on track every minute of every day help us to rejoice and be joyful. Help us to be good mothers, good sisters, good friends, good daughters, and help us to be a loving light in our community. Thank you for the work that you have been doing with Adelia and we appreciate all of who has been praying for Adelia and how she is able to manage herself right now. We ask that that continue. And we, we thank you God for that. Help me to be clear as I approach this time that was meant for vacation, fun and leisure and Trip canceled and but help help me God to make good choices to to be able to come back. Rejuvenated, rested, and full of inspiration. And help all of our beautiful participants to have a glorious time in their we can have without classes. So thank you for giving us this time of rest. Help us to be resolved and resolved, aligned with you in our choices. And so we are not confused or. Not pulled into compulsions or habits, but rather just clear. Just clear this is what I do before bed or this is. This is how I remain active in my sleeping time, where I continue to help humanity or wherever it is that there will be some shifting help us to. No, with confidence and move forward with confidence, where we feel like, gosh, this is just completely unknown territory. Help us to feel comfortable and feel that it is not just unknown territory that there there are, there is a history we might not remember it at this moment. There is a way that we were at one point. Before all of this came to us, help us to bring that back, that absolute confidence. A surety. That we asked that the demonic traffic waves the intersections that have. Of bathing of this horrific energy, we ask that they all be shut down, that they come to an end, that they no longer exist, that people are not harmed by these demonic traffic waves. We also want to pray today for people who deliberately go against what we've told them and how we've. Given them a guiding light, and they've decided to go a different direction and we we pray for them. We thank you for them in our life and we pray that whatever angst remains that it softened and knowing that. People aren't necessarily capable of doing what we asked them to. Do. And we want to just forgive the space there, that they have good intention and operate out of what they know and. The instructions that we give them sometimes are just beyond what they can comprehend or are willing to comprehend. So we and we ask that we be wise elders in those circumstances and situations that we let the level of love flow and appreciation and understanding.

And that we don't go into agreement with them about their decision to do something contrary, but that we are gentle. At kind.

And take into consideration that they they are perhaps not experiencing the kind of strength that we are. Thank you God, for helping us to soften our response to them and thank you God for giving us a

clear vision of the truth so that we might not falter in our own journey. And we pray for people who are weak in their mind. And are in our lives, so whether it's adults like elderly people or partners, if there's a weakness in. Like a dementia of a kind we pray for people who have had the shots and are having. Maybe brain issues and body issues and confusion and being vital we just pray for them. We pray God that you would continue to shower your love on them and help them. And especially those who we love. And undoing dementia? Undoing Alzheimer's, and just removing that. Very harmful and evil. Malefic disease. Of the brain. Thank you, God for the flowers. Thank you, God, for the order and that we do have in our life. Thank you, God for coming order. Thank you God for the raccoons. We ask God that there might be a permanent shift from raccoons constantly climbing on our lawn furniture and muddying up the. Nature. We ask that they are no longer interested in our patio and that they seek fun and playfulness elsewhere, and that they get off of our lawn furniture. Thank you. Hallelujah and Amen. And all our personal prayers. God, thank you for our spiritual communities. Thank you for the rivers we walk by. Thank you for the cars that we drive and the safety that we experience. Thank you for the blue skies and the white clouds. God, we're asking that the tracking being done with all humanity using scalar waves and connecting with our frequency, that that come to an end. We ask that the EMF harm that is being perpetrated on our being that that come to an end. We asked that the 5G and 6G and all of the waves that are hitting our body in such difficult and harmful ways come to an end. We asked that the FBI and the CIA come to an end. And any organizations that are doing similar to the FBI and the CIA, we ask that the Pentagon come to an end. We ask that The Who come to an end. God, we are seeking to have a completion of all these harmful agencies that have been formed that do no good, that only do harm. We ask that if drones come near our windows, that they fall out of the sky and crash and break. We ask that the release of chemtrails come to an end and that the aluminum that is going into our. Affecting our body. I'm not going to do that description because it's going to make it more real, but that the aluminum being able to come into our pores, stop that it no longer is able to penetrate us, that there is a shield. Of quantum energy around us preventing. God, we pray for any of our participants who might be looking at a dental procedure or surgical procedure that they might be a fully and completely blessed, loved, cared for as they approach some some intervention. That is deemed to perhaps help. Them in some way. We pray for the spouses of our Members who might be suffering from illness, and we ask that you shower them with love and your healing power. We ask for those who are working on new careers, whether they've brought it in or they're bringing it in God that you just shower them with openings and with confidence and connections with interviews or. Affirmative job jobs that they can step right into being very well paid. And for those who are. Doing the creative work, we're asking that their creativity flow profoundly regardless of what's happening with crazy stuff on the earth. We're asking also for huge shifts in the economy. And that the economy on in all countries recover. And that there be a deep and profound healing on abundance and money life. That we might have the opportunity to be great stewards of the. Beautiful wealth that is God's wealth that flows across. Our world. We thank you for the end of conspiracy and the beginning of knowledge, pure and true. Simple. And then we welcome in all of God's creation, including the Elohim, the Allah, the Holies, and all of God's creation, including the Angel. The Goddesses of light, the light brigade. The Golden legion. Beings and consciousness from other realms and dimensions aligned with God. Sentient beings from the earth, through the journey with us. Jesus Christ and his following mother, Mary the Marias, and all of our energetic community. And then just again, God, I'm asking for a complete. Miraculous blessing on all of our participants in

body who are here loyally, beautifully showing up, doing their pump and doing their class. Just thank you God for them and ask that today be a huge breakthrough for them. We thank you for. Making it possible for all of our participants to move into the next series, being able to use their consciousness. Overriding a very healthy brain, but a brain not controlled by miasms memes and all kinds of. Programming that would be put into the brain, but rather that our divine consciousness interacting with you and then informing the brain. So we thank you for that. God, we thank you for the shifting that is yet to come and we see that as being so incredible. Such an incredible shifter. God, just help us make good choices. I think when when I look at our what holds us up and what prevents us from moving forward and we we do clear the immobilizers and incapacitates and we do clear the stop gaps and. The. Other things that stop us, but God, I do see that our choices sometimes the way that we choose the way that we interpret life, the way that we see life, and not that it's not that we're wrong, it's not a fault, but that our choices slow us down. And please help us to make choices that always help us to be on track with. You, we love you. We worship you. We adore you. We glorify your holy name. We thank you. We praise you. Hallelujah. Hallelujah. Holy, holy. Holy Lord, most high heaven and Earth are full of your glory. And Earth is full of your glory. Hosanna in the highest and we are in that beautiful glory. Right now, in the glory of you God in the glory, the glory of. You the glory of the sun shining the glory of the bird singing the glory of the trees, green and glorious. We have in here in Texas, all of our flower and bushes and flower and trees. It is absolutely a sight to behold. And part of your glory. We are so grateful. Grateful for the little wizard that club. On the window and the Hummingbird that is sucking the juice out of the the flowers and just thank you, God. Thank you for all that we get to see and observe and not even realize what we're what we're observing. And there it is right there in front of us. Thank you, God, for opening our eyes to all the miracles that exist.

The light before us, constantly unfolding glory, glory, glory, God. Glory to you. And thank you for bringing glory to Earth. We seek to have Earth as in heaven. Thank you, God. Amen.
